To the fullest extent permitted by law, none of the Dealers or the Arrangers accept any responsibility for the contents of this document or for any other statement, made or purported to be made by the Arrangers or a Dealer or on its behalf in connection with the Issuers or the issue and offering of the Notes. Each of the Arrangers and each Dealer accordingly disclaims all and any liability whether arising in tort or contract or otherwise (save as referred to above) which it might otherwise have in respect of this document or any such statement. Neither this document nor any document incorporated by reference nor any other financial statements or information supplied in connection with the Programme or the Notes is intended to provide

the basis of any credit or other evaluation or should be considered as a recommendation by any of the Issuers, the Arrangers or the Dealers that any recipient of this document or any other financial statements or information supplied in connection with the Programme or the Notes or any document incorporated by reference should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this document, in any document incorporated by reference, or in any other financial statements or information supplied in connection with the Programme or the Notes and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arrangers undertakes to review the financial condition or affairs of any of the Issuers during the life of the arrangements contemplated by this document nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arrangers.

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this document or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the potential risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules. See also "*Risk Factors - Risks related to the Notes generally - Implementation of and/or changes to the capital adequacy framework may result in changes to the risk-weighting of the Notes and/or loss absorption by Noteholders in certain circumstances*" below.

RISK FACTORS

Each Issuer believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme. All of these factors are contingencies which may or may not occur and the Issuers are not in a position to express a view on the likelihood of any such contingency occurring.

Factors which each Issuer believes may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

Each Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but an Issuer may be unable to pay interest, principal or other amounts on or in connection with any Notes for other reasons and none of the Issuers represents that the statements below regarding the risks of holding any Notes are exhaustive.

SCBHK is a licensed bank incorporated in Hong Kong, and is subject to the supervision of the Hong Kong Monetary Authority (the "HKMA") under the Banking Ordinance (Cap. 155) of Hong Kong and the Securities and Futures Commission under the Securities and Futures Ordinance (Cap. 571) of Hong Kong. References in the risk factors below to the regulations of the PRA and any European legislation are applicable to SCBHK only to the extent that it must comply, or is affected, as a member of the Group.

Prospective investors should also read the detailed information set out elsewhere in this document (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

Risks relating to the Group and its business operations

Business, macroeconomic and geopolitical risks

1 Macroeconomic risks could result in a material adverse effect on the Group's financial condition, results of operations and prospects

The Group operates in 70 countries and is affected by the prevailing economic conditions in each of the markets in which it operates. Macroeconomic factors have an impact on personal expenditure and consumption, demand for business products and services, the debt service burden of consumers and businesses, the general availability of credit for retail and corporate borrowers and the availability of capital and liquidity for the Group. All these factors may impact the Group's financial condition, results of operations and prospects.

The world economy is coming out of a difficult period and although the rate of economic growth in many countries is increasing, uncertainty remains. The unwinding by the US Federal Reserve (the "Fed") of its quantitative easing programme could lead to higher interest rates, volatility in financial markets and capital flight from emerging markets which may threaten the growth trajectory of some vulnerable economies. A slowdown in China's growth may depress prices and trade in a number of commodity sectors such as the energy, metals and mining sectors, and a prolonged slowdown could have wider economic repercussions.

The sovereign crisis in the eurozone is not fully resolved and, although acute risks have been addressed by ongoing policy initiatives and the prospects for many of the European economies have improved, there is still a need for substantial new structural reform. The Group's exposure to eurozone sovereign debt is very low. However, the Group remains alert to the risk of secondary impacts from events on financial institutions, other counterparties and global economic growth.

The linkages between economic activities in different markets are complex and depend not only on direct drivers such as the balance of trade and investment between countries, but also on domestic monetary, fiscal and other policy responses to macroeconomic conditions. For example, changes in monetary policy could lead to significant increases in interest rates from their currently low historical levels, with resulting impacts on the wider economy and on property values.

Consequently, one uncertainty for the corporate sector will be the extent to which exports are impacted by any slowdown in the global economy. Similarly, there may be uncertainty about domestic demand in the Group's markets, which is a function of a number of factors including consumer and business confidence.

Although inflation and property prices appear to be under control in most of the countries in which the Group operates, some central banks are employing macro-prudential tools to temper property price increases. Changes in monetary policy could lead to significant increases in interest rates from the

historically low levels currently prevailing in many markets, with resulting impacts on the wider economy and on property values.

Furthermore, inflationary pressures, to the extent to which they arise, may be exacerbated in some countries by the reduction or removal of fuel price subsidies and the impact of significant rises in the price of certain foodstuffs. An increase in inflation could have a number of adverse impacts on the Group's business, including, but not limited to, increasing its operating expenses. High inflation could also have an adverse effect on the credit quality of the Group's individual and corporate borrowers, as well as its counterparties, and could lead to an increase in delinquencies and defaults across a wide range of sectors and otherwise have a material adverse effect on the Group's financial condition, results of operations and prospects.

Whilst the Group maintains significant geographic and business diversification which may minimise the impact of certain economic factors including a downturn, the diversification of the Group may not be effective to safeguard the Group from the effect of macroeconomic factors which may impact on the overall economy in a single country or region, or globally. The Group seeks to manage this risk by setting concentration caps (by counterparty or groups of connected counterparties, by industry sector and country for corporate clients and by product and country for retail customers) and by regularly monitoring credit exposures and political and economic trends. Additionally, the Group conducts stress tests to assess the effects of extreme but plausible trading conditions on the Group's portfolio and also continuously reviews the suitability of the Group's risk policies and controls.

2 *The Group operates primarily in Asia, Africa and the Middle East, and these operations expose it to risks arising from the political and economic environment of markets in these areas that could adversely affect the Group's financial condition, results of operations and prospects*

The Group faces significant economic and political risks, including risks arising from economic volatility, recession, inflationary pressures, exchange rate fluctuation and interruption of business, as well as from civil unrest, imposition of exchange or capital controls, sanctions relating to specific countries, entities and individuals, expropriation, nationalisation, renegotiation or nullification of existing contracts and changes in law, tax policy and regulation. Furthermore, while many of the economies in which the Group operates have in recent years performed relatively well compared to many of the economies of Western Europe and North America, there can be no assurance that the relatively favourable economic environments in these markets will continue. The occurrence of any of these risks could result in a material adverse effect on the Group's financial condition, results of operations and prospects.

3 *The Group operates in competitive markets, which may have a material adverse effect on its financial condition, results of operations and prospects*

The Group is subject to significant competition from local banks and other international banks carrying on business in the markets in which it operates, including competitors that may have greater financial and other resources. In addition, the Group may experience increased competition from new entrants in the relevant product or geographic markets and existing competitors may combine to increase their existing market presence or market share. Furthermore, in certain of the Group's markets, it competes against financial institutions that are supported or controlled by governments or governmental bodies and which are required to satisfy certain lending thresholds and other identified targets. In order to remain competitive, the Group may not realise the margins in certain markets which it would otherwise have expected or desired. Regulations may also favour local banks by restricting the ability of international banks, such as the Group, operating in the relevant country to enter the market and/or expand their existing operations. Such restrictions could adversely affect the Group's ability to compete in these markets. In addition, certain competitors may have access to lower cost funding and be able to offer retail deposits on more favourable terms than the Group. Furthermore, the Group's competitors may be better able to attract and retain clients and talent, which may have a negative impact on the Group's competitive position and profitability in the relevant markets. Moreover, many of the international and local banks operating in the Group's markets compete for substantially the same customers as the Group and competition may increase in some or all of the Group's principal markets. The foregoing matters, individually or in combination, may have a material adverse effect on the Group's financial condition, results of operations and prospects.

4 *Changes in the credit quality and the recoverability of loans and amounts due from counterparties may have a material adverse effect on the Group's financial condition, results of operations and prospects*

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent in a wide range of the Group's businesses. Adverse changes in the credit quality of the Group's borrowers and counterparties (both sovereign and non-sovereign), or adverse changes arising from a further deterioration in global or country-specific economic conditions or asset values, or systemic failures in financial systems could reduce the recoverability and value of the Group's assets and require an increase in the Group's level of provisions for bad and doubtful debts or increase the levels of impairments or write-downs experienced by the Group. An adverse change in economic conditions could also adversely affect the Group's level of banking activity. Although the Group devotes considerable resources to managing the above risks, many of the factors affecting borrower and counterparty credit risks are beyond the control of the Group and the occurrence of any of the foregoing risks or a failure by the Group to manage these risks effectively could have a material adverse effect on the Group's financial condition, results of operations and prospects.

5 *The value of certain financial instruments recorded at fair value is determined using financial models incorporating assumptions, judgments and estimates which may change over time*

In order to establish the value of financial instruments which the Group, under International Financial Reporting Standards as adopted by the European Union ("IFRS"), recognises at fair value, the Group relies on quoted market prices or, where the market for a financial instrument is not sufficiently active, internal valuation models that utilise observable market data. In certain circumstances, the data for individual financial instruments or classes of financial instrument utilised by such valuation models may not be available, or may become unavailable, due to changes in market conditions, as has been the case at times since the commencement of the financial crisis. In such circumstances, the Group's internal valuation models require the Group to make assumptions, judgments and estimates in order to establish fair value. In common with other financial institutions, these internal valuation models are complex, and the assumptions, judgments and estimates the Group is required to make often relate to matters that are inherently uncertain, such as expected cash flows, the ability of borrowers to service debt, asset price appreciation and depreciation, and relative levels of defaults and deficiencies. Such assumptions, judgments and estimates may need to be updated to reflect new information, changing trends and market conditions. The resulting change in the fair values of financial instruments could have a material adverse effect on the Group's financial condition, results of operations and prospects.

6 *The Group's business could be affected if its capital is not managed effectively*

The Group must ensure the effective management of its capital position in order to operate its business, to continue to grow organically and to pursue its strategy. Future changes that limit the Group's ability to manage its balance sheet and capital resources effectively, as well as capital decisions taken by the Group, could have a material adverse effect on the Group's regulatory capital position, financial condition, results of operations and prospects.

7 *Lack of liquidity is a risk to the Group's business*

Liquidity risk is the risk that the Group either does not have sufficient financial resources available to meet its obligations as they fall due, or can only access these financial resources at excessive cost. This risk is inherent in banking operations and can be heightened by a number of factors, including an over-reliance on or inability to access a particular source of funding (including, for example, reliance on inter-bank funding), the extent of mobility of intra-Group funding, changes in credit ratings or market-wide phenomena such as financial market instability and natural disasters.

As the Group operates in markets which have been and may continue to be affected by illiquidity and extreme price volatility, either directly or indirectly through exposures to securities, loans, derivatives and other commitments, the Group's policy is to manage its liquidity prudently in all geographic locations and for all currencies. However, any reoccurrence or prolonged continuation of such conditions could have an adverse effect on the Group's results of operations and, if severe, could have a material adverse effect on the Group's financial condition and prospects. In addition, any significant increase in the cost of acquiring deposits, inability to further increase deposits or significant outflow of deposits from the Group, particularly if it occurs over a short period of time, could have a material adverse impact on the Group's financial condition and liquidity position.

8 Downgrades to the Group's credit ratings or downward changes in outlook could impair the Group's access to funding and the Group's competitive position

The Group's ability to access the capital markets, and the cost of borrowing in these markets, is significantly influenced by the Group's credit ratings. There can be no guarantee that the Group will not be subject to downgrades to its credit ratings and downward changes in outlook. Factors leading to any such downgrade or change in outlook may not be within the control of the Group. An example of such a factor would be a change in the methodology used by any applicable agency that rates the Group or its securities. A material downward change in the short-term or long-term credit ratings of the Group could impact the volume, price and source of its funding, and this could have a material adverse effect on the Group's profitability, financial condition, results of operations and prospects.

9 Changes in interest rates, commodity prices, equity prices and other market risks could adversely affect the Group's financial condition, results of operations and prospects

Market risk is the potential for loss of earnings or economic value due to adverse changes in financial market rates or prices. The Group's exposure to market risk arises principally from customer driven transactions.

The primary categories of market risk for the Group are:

- interest rate risk: arising from changes in yield curves, credit spreads and implied volatilities on interest rate options;
- currency exchange risk: arising from changes in exchange rates and implied volatilities on foreign exchange options;
- commodity price risk: arising from changes in commodity prices and implied volatilities on commodity options, covering energy, precious metals, base metals and agriculture; and
- equity price risk: arising from changes in the prices of equities, equity indices, equity baskets and implied volatilities on related options.

Failure to manage these risks effectively or the occurrence of unexpected events resulting in significant market dislocation could have a material adverse effect on the Group's financial condition, results of operations and prospects.

10 The Group is subject to the risk of exchange rate fluctuations arising from the geographical diversity of its businesses

As the Group's business is conducted in a number of jurisdictions and in a number of currencies, including, but not limited to, Sterling, Korean won, Hong Kong dollars, Singapore dollars, Taiwan dollars, Chinese yuan and Indian rupees, the Group's business is subject to the risk of exchange rate fluctuations. The results of operations of Group companies are initially reported in the local currencies in which they are domiciled, and these results are then translated into U.S. dollars at the applicable foreign currency exchange rates for inclusion in the Group's consolidated financial statements. The exchange rates between local currencies and the U.S. dollar have been, and may continue to be, volatile. The Group is therefore exposed to movements in exchange rates in relation to non-U.S. dollar currency receipts and payments, dividend and other income from its subsidiaries and branches, reported profits of subsidiaries and branches and the net asset carrying value of non-U.S. dollar investments and risk-weighted assets attributable to non-U.S. dollar currency operations.

Whilst the Group monitors exchange rate movements, it is difficult to predict changes in economic or market conditions with accuracy and to anticipate the effects that such changes could have on the Group and the translation effect against the U.S. dollar of such fluctuations in the exchange rates of the currencies of those countries in which the Group operates, any of which may adversely affect its financial condition, results of operations and prospects.

11 Financial markets volatility globally and in the markets in which the Group operates could result in a material adverse effect on the Group's assets, financial condition, results of operations and prospects

Additional volatility, and further dislocation affecting certain financial markets and asset classes, are factors that may have a material adverse effect on the Group's assets, financial condition, results of operations and prospects. These factors have had and may have a negative impact on the mark-to-market valuations of assets in the Group's available-for-sale and trading portfolios. In addition, any further deterioration in the performance of the assets underlying the Group's asset backed securities ("ABS") portfolio could lead to additional impairment. The ABS portfolio accounted for approximately 1 per cent. of Group assets as at 30 June 2014.

Continued market volatility may also negatively impact certain customers exposed to derivative contracts. While the Group seeks to manage customer exposure and risk, the potential losses incurred by certain customers as a result of derivative contracts could lead to an increase in customer disputes and corporate defaults and result in further write-downs or impairments by the Group.

12 Systemic risk resulting from failures by banks, other financial institutions and corporates could adversely affect the Group

Within the financial services industry the default of any institution or corporate could lead to defaults by other institutions. Concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions because the commercial soundness of many financial institutions may be closely correlated as a result of their credit, trading, clearing or other relationships. This risk is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms, other financial institutions and exchanges with whom the Group interacts on a daily basis, which could have an adverse effect on the Group's ability to raise new funding and could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

13 Country cross-border risk could have a material adverse effect on the Group's financial condition, results of operations and prospects

Country cross-border risk is the risk that the Group will be unable to obtain payment from its customers (sovereign and non-sovereign) or third parties on their contractual obligations as a result of certain actions taken by foreign governments, chiefly relating to convertibility and transferability of foreign currency.

These risks could have a material adverse effect on the Group's financial condition, results of operations and prospects.

14 The Group operates in some markets that have relatively less developed judicial and dispute resolution systems, which could have a material adverse effect on the Group's financial condition, results of operations and prospects

In some of the less developed markets in which the Group operates, judicial and dispute resolution systems may be less developed than in North America and Western Europe. In case of a breach of contract, there may be difficulties in making and enforcing claims against contractual counterparties. On the other hand, if claims are made against the Group, there may be difficulties in defending such allegations. If the Group becomes party to legal proceedings in a market with an insufficiently developed judicial system, an adverse outcome to such proceedings could have a material adverse effect on the Group's financial condition, results of operations and prospects.

15 Hostilities, terrorist attacks or social unrest, as well as natural calamities in the markets in which the Group operates, could adversely affect the Group's business, results of operations and prospects

The Group operates in a large number of markets around the world, and its performance is in part reliant on the openness of cross-border trade and capital flows. Geopolitical tensions or conflicts in the footprint of the Group could impact trade flows, customers' ability to pay, and the Group's ability to manage capital, liquidity or operations across borders.

Some of the countries in which the Group operates have, from time to time, experienced and/or are currently experiencing social and civil unrest, hostilities both internally and with neighbouring countries and terrorist attacks. Some of those countries have also experienced natural calamities like earthquakes, floods and drought in recent years. These and similar hostilities, tensions and natural disasters could lead to political or economic instability in the markets in which the Group operates and could have a material adverse effect on the Group's business, financial condition, results of operations and prospects.

16 *The Group selectively expands its operations and makes selective disposals which may represent a risk if not managed effectively*

The Group's business strategy is based on organic growth but includes selective plans to acquire assets or businesses that it believes are logical extensions of its existing businesses in various markets. The success of any acquisitions will depend, in part, on achieving the level of performance that the Group anticipates as well as the ability of management to integrate the operations of any newly acquired businesses with the Group's operational risk framework. The Group may experience difficulties and the failure to manage effectively its expansion which could have a material adverse effect on the Group's financial condition, results of operations and prospects.

In November 2013, the Group announced a refreshed strategy to sharpen its focus around where to accelerate capital investment. In order to create investment capacity, the Group has established a programme to dispose of various businesses and equity stakes. The success of any disposal will depend, in part, on achieving the price or consideration for a business or asset that the Group anticipates as well as the ability of management to manage the migration of the operations of the business being sold in line with the Group's operational risk framework. The Group may experience difficulties and the failure to manage effectively any such disposal could have a material adverse effect on the Group's financial condition, results of operations and prospects.

17 *The Group's business is subject to reputational risk*

Reputational risk is the potential for damage to the Group's franchise, resulting in loss of earnings or adverse impact on market capitalisation as a result of stakeholders taking a negative view of the Group or its actions. Reputational risk could arise from the failure by the Group to effectively mitigate the risks in its businesses including one or more of country, credit, liquidity, market, regulatory, legal or other operational risk. Damage to the Group's reputation could cause existing clients to reduce their business with the Group or to cease to do business with the Group, and could make prospective clients reluctant to do business with the Group. All employees are responsible for the day to day identification and management of reputational risk. These responsibilities form part of the Group Code of Conduct and are further embedded through values-based performance assessments.

Reputational risk may also arise from a failure to comply with environmental and social standards. The Group's primary environmental and social impacts arise through the Group's relationship with its clients and customers and the financing decisions the Group takes. The Group has published a series of position statements which apply in the provision of financial services to clients who operate in sectors which entail specific risks, and for key issues. The Group has mechanisms in its origination and credit processes to identify and assess environmental and social risks, and a dedicated Environmental and Social Risk Management team that reviews proposed transactions which entail identified risks.

Material damage to the Group's reputation could have a material impact on the future earning capacity of the Group through the loss of current and prospective customers or through damage to key governmental or regulatory relationships. A failure to manage reputational risk effectively could materially affect the Group's business, results of operations and prospects.

18 *The Group is exposed to pension risk*

Pension risk is the potential for loss due to having to meet or meeting an actuarially assessed shortfall in the Group's pension schemes. Pension risk exposure is focused upon the risk to the Group's financial position arising from the need to meet its pension scheme funding obligations. In the event of a shortfall, the Group may be required or may choose to make additional payments to the Group's pension schemes which, depending on the amount, could have a material adverse effect on the Group's business, results of operations and prospects.

Macro-prudential, regulatory and legal risks

1 Failure to manage legal and regulatory risk properly can impact the Group adversely

The Group is subject to a wide variety of banking and financial services laws and regulations and is supervised by a large number of regulatory and enforcement authorities in each of the jurisdictions in which it operates. As a result, the Group is exposed to many forms of legal and regulatory risk, which may arise in a number of ways, primarily:

- losses may be caused by changes in applicable laws and regulations or in their application; the Group may not be able to predict the timing or form of any current or future regulatory or law enforcement initiatives which are becoming increasingly common for international banks and financial institutions;
- as a result of being subject to a variety of complex legal and regulatory regimes in many of the countries where it operates, in respect of which requirements, standards or sanctions may differ significantly from country to country;
- as a result of being subject to extensive laws and regulations which are designed to combat money laundering and terrorist financing, and to enforce compliance with sanctions against designated countries, entities and persons, including countries in which, and entities or persons with which, the Group may conduct and may have conducted business from time to time;
- risk from defective transactions or contracts, either where contractual obligations are not enforceable or do not allocate rights and obligations as intended, or where contractual obligations are enforceable against the Group in an unexpected or adverse way, or by defective security arrangements;
- the title to and ability to control the assets of the Group (including the intellectual property of the Group, such as its trade names) may not be adequately protected; and
- allegations being made against the Group claiming liability for damages to third parties including where legal proceedings are brought against it; regardless of whether such claims have merit, the outcome of legal proceedings is inherently uncertain and could result in financial loss.

Failure to manage legal and regulatory risks properly may impact the Group adversely or result in administrative actions, penalties or other proceedings involving the Group which may have a material adverse effect on the Group's business, reputation, financial condition, results of operations and prospects.

In addition, a failure to comply with applicable laws or regulations by the Group's employees, representatives, agents and third party service providers, either in or outside the course of their employment or services, or suspected or perceived failures by them, has resulted and may in the future result in enquiries or investigations by regulatory and enforcement authorities, or in regulatory or enforcement action against the Group or such employees, representatives, agents and third party service providers in various jurisdictions. Such actions may adversely impact the reputation of the Group, result in adverse media reports, lead to increased levels of scrutiny by relevant regulatory or supervisory bodies, additional costs, penalties, claims and expenses being incurred by the Group and, as a result, have a material adverse effect on the Group's ability to conduct its business, its financial condition, results of operations and prospects.

2 The Group operates in a highly regulated industry and changes to banking regulations and laws could have an adverse impact on its operations, financial condition or prospects

The Group's businesses are subject to a complex framework of financial services laws and regulations and associated legal and regulatory risks, including the effects of changes in laws, regulations, policies and voluntary codes of practice. As a result of the financial crisis, there has been a substantially enhanced level of governmental and regulatory intervention and scrutiny, and there have been, and are expected to be, further changes to regulations applying to financial institutions. Additional changes to laws and regulations are under consideration in many jurisdictions. Although the Group works closely with its regulators and regularly monitors the situation, future changes in laws, regulations and fiscal or other policies can be difficult to predict and are beyond the control of the Group. Furthermore, laws and regulations may be

adopted, enforced or interpreted in ways that could materially adversely affect the Group's business, financial condition, results of operations and prospects.

Governmental policies and regulatory changes that could adversely impact the Group's business include:

- the monetary, interest rate and other policies of central banks and regulatory authorities;
- general changes in governmental or regulatory policy, or changes in regulatory regimes that may significantly influence investor decisions in particular markets in which the Group operates, may change the structure of those markets and the products offered, or may increase the costs of doing business in those markets;
- changes to other regulatory requirements such as rules on consumer protection and prudential rules relating to capital adequacy and/or liquidity, charging special levies to fund governmental intervention in response to crises (which may not be tax deductible for the Group), separation of certain businesses from deposit-taking and the breaking up of financial institutions that are perceived to be too large for regulators to take the risk of their failure;
- over-the-counter ("OTC") derivative reforms across the Group's markets, designed to contain systemic risk (central clearing, margin requirements, capital) and increase market transparency (real-time reporting, exchange or swap execution facility trading, disclosure and record retention);
- changes in competition and pricing environments;
- further developments in relation to financial reporting including changes in accounting and auditing standards, corporate governance, conduct of business and employee compensation;
- expropriation, nationalisation, confiscation of assets and changes in legislation relating to foreign ownership; and
- other unfavourable political, military or diplomatic developments, producing social instability or legal uncertainty which, in turn, may affect demand for the Group's products and services.

In response to the financial crisis and recent global economic conditions, there has already been a substantial increase in the regulation and supervision of the financial services industry in order to seek to prevent future crises and otherwise ensure the stability of institutions, including the imposition of higher capital and liquidity requirements (including pursuant to Basel III and CRD IV, as described below), increased levies and taxes, requirements to centrally clear certain transactions, heightened disclosure standards, further development of corporate governance and employee compensation regimes and restrictions on certain types of transaction structures. (See further the paragraphs below entitled "*The Group is subject to the risk of regulators imposing more onerous prudential standards, including increased capital and liquidity requirements*" and "*The business and operations of the Group may be affected by the recovery and resolution planning policies set by its regulators and may become subject to the recovery and resolution regimes set out in the EU Bank Recovery and Resolution Directive and the Banking Act 2009*").

These new requirements could, to differing extents, significantly impact on the profitability and results of operations of firms operating within the financial services industry, including entities within the Group, or could require those affected to alter their current strategies, prevent the continuation of existing lines of operations, restrict the type or volume of transactions which may be entered into or set limits on, or require the modification of, rates or fees that may be charged. The Group may also face increased compliance costs and limitations on its ability to pursue its business activities.

Whilst there is growing international regulatory cooperation on supervision and regulation of international and EU banking groups, the Group is, and will continue to be, subject to the complexity of complying with existing and new regulatory requirements in each of the jurisdictions in which it operates. Where changes in regulation are made they may not be co-ordinated, potentially resulting in the Group having to comply with different and possibly conflicting requirements. The foregoing matters may adversely impact any number of areas of the Group's operations and activities which in turn may have a material adverse effect on its financial condition, results of operations and prospects.

3 The Group is subject to the risk of regulators imposing more onerous prudential standards, including increased capital, leverage and liquidity requirements

The Group's lead supervisor, the Prudential Regulation Authority (the "PRA"), determines the minimum level of capital that the Group is required to hold by reference to its balance sheet, off-balance sheet, counterparty and risk exposures. Currently, the Group is adequately capitalised under CRD IV (as defined below) and holds sufficient liquidity under the existing liquidity standards. However, the PRA could (beyond the changes described below) apply increasingly stringent stress test scenarios in determining the required capital minima for the Group and any of its UK regulated firms, increase the minimum regulatory requirements imposed on the Group or any of its UK regulated firms, introduce certain changes to the basis on which capital and risk-weighted assets ("RWA") are computed, impose additional capital buffers, require additional restrictions on leverage, introduce further liquidity requirements, impose new regulatory requirements and/or change the manner in which it applies existing requirements to the Group or its UK regulated firms. In order to meet such additional regulatory requirements, the Group may be required to raise capital and/or liquidity or take other actions to ensure compliance which could have a material adverse impact on the Group's financial condition, results of operations and prospects.

The Group's ability to maintain its regulatory capital and leverage ratios in the longer term could be affected by a number of factors, including its RWA and exposures, post-tax profit and fair value adjustments. Capital levels and requirements are more sensitive to market and economic conditions under Basel III than under previous regimes and effective capital requirements could increase if economic or financial market conditions worsen.

Basel III

In December 2010, the Basel Committee on Banking Supervision ("BCBS") finalised its proposals for new capital and liquidity requirements intended to strengthen existing capital standards and to establish minimum liquidity standards (commonly referred to as "Basel III"). These include new definitions of Common Equity Tier 1 Capital ("CET1 Capital") as well as new eligibility criteria for Additional Tier 1 Capital and Tier 2 Capital. A revised version of the Basel III capital rules was published in June 2011 and further changes or clarifications are possible. Basel III is not directly applicable to the Group, but its standards are closely followed by global legislators and competent authorities (including those in the EU and UK) in setting applicable requirements.

Basel III proposes a minimum total capital requirement for relevant institutions of 8 per cent. of RWA, which includes a minimum requirement of CET1 Capital equal to at least 4.5 per cent. of RWA and Tier 1 Capital equal to at least 6 per cent. of RWA. In addition to these minimum capital requirements, relevant institutions will be required to maintain a capital conservation buffer of 2.5 per cent. of RWA, a countercyclical buffer of up to 2.5 per cent. of RWA and, where applicable, additional buffers reflecting the perceived systemic importance of an institution (see further below). Each of these capital buffer requirements must be met with CET1 Capital. Basel III also proposes that national competent authorities should have the power to impose additional capital requirements (including additional buffers) on the institutions which they regulate. Furthermore, Basel III proposes that banks will need to satisfy a minimum leverage ratio requirement which has been set at 3 per cent. of Tier 1 Capital over total exposures from 1 January 2018 subject to future review and calibration.

The BCBS has proposed that global systemically important banks ("G-SIBs") should be required to maintain regulatory capital in excess of the Basel III minimum standards. According to the approach finalised by the BCBS in November 2011 and updated in July 2013, G-SIBs will need to meet an additional CET1 Capital requirement ranging from 1 per cent. to 3.5 per cent. of RWA, depending on their perceived systemic importance.

The BCBS proposed that the Basel III requirements be introduced on a phased basis, with final implementation by 1 January 2019. The higher capital requirements for G-SIBs will, however, be phased in between 2016 and 2018.

The Group was designated a G-SIB by the Financial Stability Board ("FSB") in November 2012 and was again designated a G-SIB by the FSB in November 2013. The Group has been categorised within the 1 per cent. capital buffer requirement and will need to meet this additional capital requirement between 2016 and January 2019 if it is still on the G-SIB list that is published by the FSB in November 2014. Certain of the Group's non-UK entities may be designated domestic systemically important banks in the markets in which

they operate in accordance with the approach developed by the BCBS and FSB, which may result in higher capital requirements for such entities.

CRD IV Capital Requirements

Basel III has been implemented in the EU through a package of legislation, comprising a directive (the “CRD IV Directive”) and a regulation (the “CRD IV Regulation”, which, together with the CRD IV Directive, are referred to as “CRD IV”). The CRD IV Directive must be implemented in each Member State by national legislation, while the CRD IV Regulation is directly applicable in each Member State and does not therefore require national implementing measures. Agreement of CRD IV was reached on 16 April 2013 and the final texts were published in the Official Journal of the EU on 26 June 2013. Member States were required to apply the new requirements (with certain exceptions and subject to transitional arrangements) from 1 January 2014.

On 19 December 2013, the PRA published a statement of policy, rules and supervisory statements required to implement relevant provisions of CRD IV (primarily requirements under the CRD IV Directive, but also certain discretions permitted under the CRD IV Regulation) in the UK for banks, building societies and PRA designated investment firms. This outlined how the PRA would apply certain aspects of CRD IV where they had national discretion, including capital filters and deductions, the implementation of Pillar 1 capital requirements and the grandfathering treatment of existing non-qualifying capital instruments. At a Group level, the PRA is applying all CET1 Capital filters and deductions in full from 1 January 2014 and not using the transitional provisions available within CRD IV. With respect to the phase-in of Pillar 1 capital requirements, in June 2014 the PRA set a requirement for the eight largest UK institutions (of which the Group is one) for a CET1 capital ratio of seven per cent. based on capital definitions set out in the CRD IV Regulation and the PRA Rulebook and a three per cent. end point Tier 1 leverage ratio from 1 July 2014. According to CRD IV, capital instruments issued prior to 31 December 2011 that do not qualify as Additional Tier 1 Capital or Tier 2 Capital will be phased out over a transitional period. The PRA has confirmed that the level of recognition of such instruments will be capped at 80 per cent. as at 1 January 2014, and will decline by 10 per cent. each subsequent year, being fully phased out by 1 January 2022. Further, instruments with an incentive to redeem (e.g. with an interest rate step-up) will be phased out at their effective maturity date (for capital instruments in respect of which the first call with an incentive to redeem is on or after 1 January 2013, the effective maturity date is the date of that first call with an incentive to redeem). The Group may not be able contractually to redeem instruments that cease to be eligible under CRD IV, with the result that the Group may be forced to raise further capital as a result of such instruments not being eligible as regulatory capital in the future.

The European Banking Authority has been tasked by the European Commission with developing technical standards (“EBA Technical Standards”) in respect of many of the CRD IV requirements, facilitating the creation of a single EU rulebook for banks. These technical standards need to be adopted by the European Commission to come into force. A number of technical standards relating to own funds requirements were brought into force by Commission Delegated Regulation (EU) No.241/2014 of 7 January, 2014, published in the Official Journal on 14 March 2014. There remains some uncertainty as to the final impact of the CRD IV capital requirements, as certain EBA Technical Standards relating to own funds requirements have not been finalised or published.

The EU Bank Recovery and Resolution Directive

The EU directive establishing a framework for the recovery and resolution of credit institutions and investment firms (the “EU Bank Recovery and Resolution Directive” or “BRRD”) also imposes requirements on Member States to ensure that Institutions meet a Minimum Requirement for Eligible Liabilities (“MREL”), calculated as a percentage of an Institution’s total liabilities and own funds. The level of MREL to be maintained by the Group is yet to be finalised but it is likely that the level of MREL required to be maintained by the Group could have an adverse impact on the Group’s cost of doing business. The FSB is also currently developing a consultation paper on guidance relating to Loss-Absorbing Capital (“LAC”) which will include consideration of the quantum of LAC for G-SIBs. This consultation is expected to be issued by November 2014.

The Financial Services (Banking Reform) Act 2013

The Financial Services (Banking Reform) Act 2013 amended FSMA to provide HM Treasury with the power to require an institution to issue any debt instruments or to ensure that any part of its debt consists of debt instruments of a particular kind. This power is additional to the regulatory capital requirements under CRD

IV. HM Treasury has indicated that it intends to use this power, as appropriate, to impose requirements for firms to meet LAC or, in accordance with the BRRD, MREL requirements. HM Treasury has consulted on a draft Order that will regulate the exercise of this power in setting LAC and MREL requirements on institutions, although the finalisation of detailed requirements is currently being delayed pending international agreement in relation to LAC and MREL. The power is expected to become exercisable on or before 1 January 2016, at which time the power may be used to introduce LAC and MREL requirements on the Group. This could materially increase the Group's cost of doing business.

New liquidity standards under CRD IV

Under CRD IV (implementing requirements proposed by Basel III), banks will be required to meet two new liquidity standards: a liquidity coverage ratio requirement ("LCR") and a net stable funding ratio requirement ("NSFR"). The LCR will require banks to hold an amount of unencumbered, high quality liquid assets that can be used to offset the net cash outflows the bank could encounter under an acute short-term liquidity stress scenario. The NSFR will measure the amount of longer-term, stable sources of funding employed by a bank relative to the liquidity profiles of the assets funded and the potential for contingent calls on liquidity arising from off-balance sheet commitments and obligations, although the details of the NSFR are subject to further development and calibration. The LCR will be introduced on 1 January 2015 and the minimum requirement will begin at 60 per cent., rising in equal annual steps of 10 percentage points to reach 100 per cent. on 1 January 2018. The NSFR will remain subject to an observation period ahead of its planned implementation on 1 January 2018.

The PRA currently operates its own liquidity standards based on the following elements: (i) principles of self-sufficiency and adequacy of liquidity resources, (ii) enhanced systems and control requirements, (iii) quantitative requirements, including Individual Liquidity Adequacy Standards, coupled with a narrow definition of liquid assets and (iv) frequent regulatory reporting. The Group currently meets the minimum requirements set by the PRA, however there can be no assurance that future changes to such requirements would not have an adverse effect on the Group's financial condition, results of operations and prospects.

UK Macro-prudential Regulation

The Financial Services Act 2012 empowers the Financial Policy Committee ("FPC"), which is a sub-committee of the Bank of England's Court of Directors, to give directions to the PRA and the FCA so as to ensure implementation of macro-prudential measures intended to manage systemic risk. HM Treasury consulted in October 2013 on a proposal to provide the FPC with the power to impose the counter-cyclical capital buffer in advance of the international timeline of 2016. The UK Government intends that the FPC should be able to require the PRA to impose additional specific capital requirements on banks to address risks to the UK market for banking services. The UK Government intends to provide the FPC with a power of direction over the leverage ratio although the date of implementation is unclear at present. The Bank of England, acting through the FPC, is currently undertaking a review of the leverage ratio within the capital framework and, in connection with such review, published a consultation paper in July 2014. The FPC has indicated that the results of the consultation will inform a final review, which the FPC has indicated that it intends to publish in November 2014. In the meantime, the FPC intends to manage systemic risks impacting the UK financial system using its power of direction to set sectoral capital requirements or through its power to make recommendations to the PRA, FCA and other parties. The new powers conferred on the FPC will enable it to set higher prudential standards for UK banks through the PRA, although it is not yet possible to ascertain definitively what the impact of exercising such powers would be on the Group.

If the regulatory capital requirements, liquidity requirements or other requirements applied to the Group are increased in the future, any failure by the Group to satisfy such increased requirements could result in regulatory intervention or sanctions (including loss or suspension of a banking licence) or significant reputational harm, which in turn may have a material adverse effect on the Group's financial condition, results of operations and prospects.

"Common Equity Tier 1 Capital", "Additional Tier 1 Capital", "Tier 1 Capital" and "Tier 2 Capital", depending on the context, have the meaning (i) required under CRD IV (including EBA Technical Standards) and/or Basel III; or (ii) given to them in the guidance or rules of the PRA.

4 The business and operations of the Group may be affected by resolution measures developed by its regulators, including those introduced in accordance with the EU Bank Recovery and Resolution Directive and the Banking Act 2009

The wide-ranging powers introduced and to be introduced by the Group's regulators, particularly in the UK and the EU, to enable those regulators to intervene and alter the business and operations as well as the capital and debt structure of an unsound or failing bank could have significant consequences for the Group's profitability, its financing costs and the implementation of its global strategy if such powers were ever exercised. The exercise of resolution powers may have a material adverse effect on the Group's financial condition, results of operations and prospects.

Moreover, recovery and resolution planning regimes provide the Group's regulators with powers to require the Group to make changes to its legal, capital or operational structures, alter or cease to carry on certain specified activities, or satisfy MREL requirements. Should the Group's regulators ultimately decide that any such changes are necessary or desirable to increase the resolvability and/or recoverability of the Group in a stress situation, the impact of any changes required may have a material effect on capital, liquidity and leverage ratios or on the overall profitability of the Group.

Regulatory Capital Write-Down and Bail-in Powers

The European Parliament and the Council adopted the BRRD on 15 May 2014 to create a framework for the recovery and resolution of EU banks and investment firms ("Institutions"), which includes harmonised tools and powers for EU regulators to facilitate the orderly resolution of unsound or failing Institutions. The BRRD requires Member States to give powers to EU regulators and other bodies responsible for resolution activities ("Resolution Authorities") to recapitalise Institutions and/or their EEA parent holding companies that are in severe financial difficulty or at the point of non-viability by permanently writing-down certain capital instruments issued by such Institutions and/or their EEA parent holding companies (or converting capital instruments into shares) ("Regulatory Capital Write-Down Powers"). Resolution Authorities will also have powers to 'bail-in' certain unsecured liabilities of an Institution and/or its EEA parent holding companies in a resolution scenario ("Bail-In Powers"), i.e. to impose losses of a failed or failing Institution onto certain creditors by writing down unsecured liabilities owed to them or by converting those liabilities into shares. Member States are required to transpose the requirements set out under the BRRD by 31 December 2014 and apply the requirements from 1 January 2015, although Member States are permitted to delay the application of Bail-in Powers until 1 January 2016. HM Treasury has stated that it does not intend to take advantage of this option and, in July 2014, consulted on a draft Order which will bring in Bail-in Powers from 1 January 2015 in the UK.

Resolution funds

The BRRD requires Member States to establish resolution funds, to which Institutions will be required to make ex ante contributions in proportion to their liabilities (excluding own funds) less covered deposits, adjusted to reflect the risk profile of the Institution. These resolution funds will be set up to ensure the effective application of resolution powers by Resolution Authorities. The amounts to be contributed by individual Institutions are yet to be determined but it is expected that contributions will be made on an annual basis, beginning once the BRRD has been implemented, and could represent a material cost to SCB or the Group, although the UK has effectively obtained powers to treat the UK bank levy as the chosen source of funding going forward. Institutions may also be required to make an extraordinary ex-post contribution if the amounts raised by the ex-ante contributions are insufficient to cover the losses, costs or other expenses involved in the resolution of an Institution or Institutions.

Potential impact on funding in non-EU jurisdictions

Article 55 of the BRRD introduces a new requirement in respect of contracts relating to the liabilities of an Institution (including branches of any Institution established in the EU, such as SCPLC or SCB) which are governed by the law of a non-EEA country. Member States must require Institutions to ensure that such contracts contain a term whereby the creditor or party to the agreement creating the liability recognises that the liability may be subject to the Bail-in Powers, and agrees to be bound by any reduction of the principal or outstanding amount due, conversion or cancellation that is effected by the exercise of the Bail-in Powers. Resolution Authorities may require institutions to provide legal opinions in relation to the enforceability and effectiveness of such contractual terms. Failure to include such a contractual term shall not prevent the Resolution Authority from exercising the Bail-in Powers in respect of the relevant liability. The Group is currently working to identify the potential impact of this requirement in those non-EEA jurisdictions in which

it maintains a branch presence. There is a risk that this requirement could affect the ability of the Group's non-EEA branches to raise capital in their local markets, increase the cost of such capital, give rise to a competitive disadvantages for the Group, impact funding in periods of stress and give rise to additional operational requirements.

Early intervention powers and powers to remove barriers to resolvability

The BRRD will extend the existing powers of regulators to intervene at an appropriate early stage to facilitate the recovery of viable Institutions, including powers to remove and replace board members, implement one or more measures identified in the Institution's recovery plan, require changes to the legal or operational structure of the Institution or appoint special managers to restore the financial health of the Institution. Resolution authorities may also require that Institutions take certain measures that would improve the resolvability of the Institution or its group, which may necessitate changes to the structure of an Institution's group or its operational strategy (for example, requiring groups to subsidiarise certain businesses or critical services).

Additional resolution powers under the BRRD

A variety of powers will be conferred on Resolution Authorities under the BRRD to facilitate the orderly resolution of a failing Institution (and certain of its holding companies), including, amongst other things, powers to:

- (i) transfer, cancel or write-down shares and debt instruments of an Institution or procure the issue of new shares or other capital instruments, including preference shares and contingent convertible instruments;
- (ii) amend or alter the maturity of debt instruments issued by an Institution or amend the amount of interest payable or the date on which interest becomes payable under such instruments;
- (iii) delist or remove from trading any shares or other instruments of ownership or debt instruments, list or admit to listing any new shares or other instruments of ownership and relist or readmit any debt instruments which have been written down;
- (iv) transfer assets, rights and liabilities of an Institution free from any legal or contractual restriction on such transfers;
- (v) require an Institution to provide any services or facilities that are necessary to enable a purchaser of the Institution's business to operate that business effectively; and
- (vi) require the transfer of property located in non-EU jurisdictions.

Similar powers are already contained within, or are scheduled to be introduced into, the existing resolution framework in the UK to be applied by HM Treasury, the PRA, the FCA and the Bank of England pursuant to the Banking Act 2009. Moreover, the UK government has transposed the statutory framework relating to, and is currently consulting on the detailed requirements for, the introduction of a bail-in power into its resolution framework under the Banking Act 2009 with effect from 1 January 2015.

Resolution powers under the Banking Act 2009

The Banking Act 2009 came into force on 21 February 2009 and applies to deposit-taking institutions (such as SCB) that are incorporated in or formed under the law of any part of the UK. It provides HM Treasury, the Bank of England, the PRA and the FCA with powers, including the stabilisation options referred to below, which may be used to deal with banks which are failing or likely to fail to satisfy the threshold conditions within the meaning of section 55B and Schedule 6 of FSMA (which is not currently the case in respect of SCB and which the Group does not consider to be likely) where it is not reasonably likely that action will be taken to satisfy those threshold conditions. As originally enacted, the Banking Act 2009 set out a special resolution regime which comprised three stabilisation options and two insolvency procedures.

The stabilisation options involve:

- (i) the transfer of a bank or bank holding company (such as SCPLC) into temporary public ownership;
- (ii) the transfer of all or part of a bank to a private sector purchaser; and
- (iii) the transfer of all or part of a bank to a bridge bank wholly owned by the Bank of England.

The insolvency procedures are:

- (i) bank insolvency, designed to ensure that eligible depositors' accounts are transferred to another bank, or that eligible depositors are compensated under the Financial Services Compensation Scheme, followed by winding-up of the affairs of the bank so as to achieve the best result for the bank's creditors; and
- (ii) a bank administration procedure designed to ensure that where the transfer of part of a bank to a private sector purchaser or bridge bank is effected in accordance with the special resolution regime, the non-sold or non-transferred bank continues to provide services and facilities to the business which has been transferred to enable the commercial purchaser or transferee to operate effectively.

In February 2011, special administration procedures were introduced by the Investment Bank Special Administration Regulations 2011 for UK deposit-taking institutions that have an "investment banking" business. The procedures are based on the bank insolvency and bank administration procedures under the Banking Act 2009 but additionally take into account special administration objectives.

HM Treasury, the Bank of England, the PRA and the FCA must have regard to specified objectives (the protection and enhancement of the stability of the UK financial system, protecting and enhancing public confidence in the stability of the UK banking system, protecting depositors, protecting public funds and avoiding interference with property rights in contravention of the European Convention on Human Rights) when exercising the special resolution regime powers.

Bail-in power pursuant to the Financial Services (Banking Reform) Act 2013

The Financial Services (Banking Reform) Act 2013 provides for the introduction of a bail-in power as the fourth stabilisation option which may be exercised by the Bank of England pursuant to the Banking Act 2009 in addition to the three existing stabilisation options provided under the Banking Act 2009. The bail-in power includes the power to cancel or modify the terms of contracts in a resolution scenario for the purposes of reducing or deferring the liabilities of a bank under resolution. The bail-in power also includes provisions enabling the conversion of debt instruments into equity instruments and the power may be applied to any liabilities of a bank under resolution which are not designated as excluded liabilities in the Act. Client assets, protected deposits, secured liabilities and certain liabilities owed to employees, among others, constitute "excluded liabilities". Accordingly, Notes issued pursuant to the Programme may fall within the pool of instruments in respect of which the bail-in power could be exercised (See further the paragraph below entitled "*Risks related to the structure of a particular issue of Notes – Notes issued under the Programme may be subject to statutory write-down or bail-in powers*"). The UK government has consulted on the measures used to introduce the bail-in power, including the requirements to be met when exercising the bail-in power and the liabilities that are to be excluded from the scope of the bail-in power, with a view to the provisions taking effect on 1 January 2015.

Ongoing requirements

The Group is required to produce and keep up-to-date recovery plans to withstand a significant deterioration in its financial position. Institutions will also be required to provide detailed information about their businesses and entities, from which Resolution Authorities will be required to produce plans for resolving the institution and its group. The need to prepare and submit recovery plans and resolution plan-related information (and the requirements to keep such plans and information up-to-date on a regular basis) represents a significant operational burden.

5 European Banking Union

The European Commission adopted proposals on 12 September 2012 for a regulation that will confer specific responsibilities on the European Central Bank (the "ECB") in respect of the prudential supervision

of credit institutions. In accordance with the proposals, the ECB will become responsible for the authorisation and supervision of all credit institutions within the eurozone, and will have certain responsibilities for credit institutions incorporated outside of the eurozone that establish a branch or provide services within the eurozone on a cross-border basis. Other EU Member States (such as the UK) will be able to establish close cooperation with the ECB in which case the ECB could become responsible for the authorisation and supervision of credit institutions in such Member States. If the UK established close cooperation with the ECB, or joined the European Monetary Union, the ECB would, under the proposals, become responsible for the supervision of the Group which may differ in significant respects from that carried out by the PRA and FCA, and which, depending on the circumstances, could have a material adverse effect on the conduct of the business of the Group, its strategy and profitability, and therefore its financial condition, results of operations and prospects.

6 Regulatory reviews and investigations and internal practice and process reviews may result in adverse consequences to the Group

Since the global financial crisis, the banking industry has been subject to increased regulatory scrutiny. There has been an unprecedented volume of regulatory changes and requirements, as well as a more intensive approach to supervision and oversight, resulting in an increasing number of regulatory reviews, requests for information and investigations, often with enforcement consequences, involving banks.

The Group has been and may in the future be subject to regulatory actions, reviews, requests for information (including subpoenas and requests for documents) and investigations across its markets, the outcomes of which are generally difficult to predict and can be material to the Group. Where laws and regulations across the geographies in which the Group operates contradict each other or create conflicting obligations, the Group aspires to meet both local requirements and appropriate global standards.

In 2012, the Group reached settlements with the US authorities regarding US sanctions compliance in the period 2001 to 2007, involving a Consent Order by the New York Department of Financial Services ("NYSDFS"), a Cease and Desist Order by the Federal Reserve Bank of New York ("FRBNY"), Deferred Prosecution Agreements with each of the Department of Justice and the District Attorney of New York (each a "DPA") and a settlement agreement with the Office of Foreign Assets Control. In addition to the civil penalties totalling U.S.\$667 million, the terms of these settlements (together the "Settlements") include a number of conditions and ongoing obligations with regard to improving sanctions, Anti-Money Laundering ("AML") and Bank Secrecy Act ("BSA") controls such as remediation programmes, reporting requirements, compliance reviews and programmes, banking transparency requirements, training measures, audit programmes, disclosure obligations and the appointment of an independent monitor (the "Monitor"). These obligations are managed under a programme of work referred to as the US Supervisory Remediation Program ("SRP"). The SRP comprises workstreams designed to ensure compliance with the remediation requirements contained in all of the Settlements. The Group has established a Financial Crime Risk Mitigation Programme ("FCRMP"), which is a comprehensive, multi-year programme designed to review many aspects of the Group's existing approach to anti-money laundering and sanctions compliance and to enhance them as appropriate.

One key component of the FCRMP is to oversee and manage the SRP. As part of the FCRMP the Group or its advisors may identify new issues, potential breaches or matters requiring further review or further process improvements that could impact the scope or duration of the FCRMP.

The Group is engaged with all relevant authorities to implement these programmes and meet the obligations under the Settlements and is responding to further requests for information and inquiries related to its historic, current and future compliance with the relevant sanctions and AML regimes of all jurisdictions in which it operates.

As a result of its ongoing reviews and continuing engagement with US authorities, the Group believes that the term of the DPAs is likely to be extended. (The DPAs provide that if the Group fulfils all the requirements imposed by the DPAs, the applicable charges against the Group will be dismissed at the end of their applicable term.)

On 19 August 2014, the Group announced that it had reached a final settlement with the NYSDFS regarding deficiencies in the anti-money laundering transaction surveillance system in its New York branch (the "Branch"). The system, which is separate from the sanctions screening process, is one part of the Group's overall financial crime controls and is designed to alert the Branch to unusual transaction patterns that require further investigation on a post-transaction basis.

The settlement provisions are summarised as follows:

- (i) a civil monetary penalty of U.S.\$300 million;
- (ii) enhancements to the transaction surveillance system at the Branch;
- (iii) a two-year extension to the term of the Monitor; and
- (iv) the following set of temporary remediation measures, which will remain in place until the transaction surveillance system's detection scenarios are operating to a standard approved by the Monitor:
 - (a) the Branch will not, without prior approval of the NYSDFS in consultation with the Monitor, open a U.S. dollar demand deposit account for any client that does not already have such an account with the Branch;
 - (b) requirements for inclusion of identifying information for originators and beneficiaries of some affiliate and third-party payment messages cleared through the Branch;
 - (c) a restriction on U.S. dollar clearing services for certain Hong Kong retail business clients; and
 - (d) enhanced monitoring of certain small and medium sized enterprise clients in the United Arab Emirates. The Group is seeking to exit this business as part of its broader efforts to sharpen its strategic focus, withdrawing or re-aligning non-strategic businesses, including those where increased regulatory costs and risks undermine their economic viability. The exit will take place under the timeline set out in the settlement; if the exit is not achieved within this period, further restrictions will be required, unless an extension is granted by the NYSDFS.

The Group recognises that its compliance with historical, current and future sanctions, as well as AML and BSA requirements, and customer due diligence practices, not just in the US but throughout its footprint, is and will remain a focus of the relevant authorities.

As part of their remit to oversee market conduct, regulators and other agencies in certain markets are conducting investigations or requesting reviews into a number of areas of market conduct, including sales and trading, involving a range of financial products, and submissions made to set various market interest rates and other financial benchmarks, such as foreign exchange. At relevant times, certain of the Group's branches and/or subsidiaries were (and are) participants in some of those markets, in some cases submitting data to bodies that set such rates and other financial benchmarks. The Group is contributing to industry proposals to strengthen financial benchmarks processes in certain markets and continues to review its practices and processes in the light of the investigations, reviews and the industry proposals.

The Group is co-operating with all relevant ongoing reviews, requests for information and investigations. While the Group seeks to comply with the letter and spirit of all applicable laws and regulations, the outcome of these reviews, requests for information and investigations is uncertain and could result in further actions, penalties or fines but it is not possible to predict the extent of any liabilities or other consequences that may arise.

7 The Group may face increased compliance costs as a result of tax legislation passed in the United States and intergovernmental agreements entered into with respect thereto.

In March 2010, the United States passed legislation commonly known as "FATCA" that would require non-U.S. banks to provide information on United States account holders. A number of jurisdictions have entered into intergovernmental agreements with respect to FATCA, modifying the reporting and withholding obligations with respect to banks resident in such jurisdictions. The UK has entered into such an intergovernmental agreement, and Hong Kong has reached an agreement in substance to enter into an intergovernmental agreement. Under applicable guidance issued by the U.S. Internal Revenue Service, such reporting requirements will begin to take effect in 2015. If this information is not provided in a form satisfactory to the U.S. tax authorities (or local authorities under an applicable intergovernmental agreement), that bank will have a 30 per cent. withholding tax applied to certain amounts derived from U.S.

sources, and possibly in the future, non-U.S. sources. The increased due diligence of customer information and the reporting of information to the U.S. authorities (or to local authorities under an applicable intergovernmental agreement for subsequent transmission to the U.S. authorities) will increase operational and compliance costs for banks. At this time, it is not possible to quantify the full costs of complying with the new legislation as some aspects are still to be determined.

No assurance can be given about the likelihood of further changes to this regime either: (i) in the U.S. or other countries; (ii) to the Group's particular business sectors; or (iii) specifically in relation to the Group. Moreover, governmental authorities of jurisdictions outside the United States are considering passing similar legislation. Any or all of these factors could have a material adverse effect on the conduct of the business of the Group, its strategy and profitability, and therefore its financial condition, results of operations and prospects.

8 *Changes in law or regulation applicable to derivatives may adversely affect the Group's business and the Group may face increased costs and/or reduced revenues*

The business of the Group is subject to increased regulation and regulatory changes at both a local and global level which may increase the costs of, and/or reduce the revenue from, its business. The Group is subject to financial services laws, regulations, administrative actions and policies in each location in which the Group operates. Financial regulators around the world have responded to the recent financial crisis by proposing significant changes to the regulatory regime applicable to financial service companies such as ours. Changes to the current system of supervision and regulation, or any failure to comply with applicable laws and rules could materially and adversely affect the Group's business, financial condition or operations.

In July 2010, the United States passed the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"). The Dodd-Frank Act established wide-ranging reform of the US regulatory system designed to contain systemic risk (central clearing, margin requirements, capital) and increase market transparency (real-time reporting, exchange or SEF trading, disclosure and record retention). The legislation also introduces registration and oversight of key entities engaging in swaps. The Group is not a US Person and it is registered with the Commodity Futures Trading Commission ("CFTC") as a Non-US Person Swap Dealer. The reforms have not all taken effect immediately as relevant federal regulatory agencies have been issuing new rules, implementing regulations, and instructing the relevant regulatory agencies to examine specific issues before taking any action. The Group therefore continues to track and assess the impact of the reforms as and when further detail and timing is known.

On 16 August 2012, the European Market Infrastructure Regulation ("EMIR") (formally known as Regulation (EU) No 648/2012 of the European Parliament and the Council on Over-The-Counter Derivatives, Central Counterparties and Trade Repositories) came into force. EMIR imposes requirements to report all derivative transactions to authorised or recognised trade repositories and the obligation to clear on authorised or recognised central clearing counterparties certain OTC derivative transactions executed with financial counterparties and non-financial counterparties who exceed certain clearing thresholds. EMIR also introduces a stringent risk mitigation regime for all uncleared OTC derivative transactions including a requirement to exchange collateral or margin.

The regulatory changes and resulting requirements of the Dodd-Frank Act, EMIR and similar international reform efforts may increase the costs of, and/or reduce the revenue from, engaging in transactions in OTC derivatives ("Transactions") and related activities for the Group. Provisions of the Dodd-Frank Act may cause or require certain market participants to transfer some of their derivatives activities to separate entities, which may not be as creditworthy as the current entities. Accordingly, the ability to enter into and perform Transactions or engage in future Transactions may be affected in unpredictable ways, including increasing the costs of or reducing the incentives for engaging in such activities. New regulations may also put restraints on the way the Group can conduct its business with regard to derivatives, if those derivatives are not cleared through a central clearing house.

No assurance can be given about the likelihood of further changes to this regulatory regime either (i) in the US or other countries; (ii) to the Group's particular business sectors; or (iii) specifically in relation to the Group. Any or all of these factors could impact the conduct of the business of the Group, its strategy and profitability, and therefore its financial condition, results of operations and prospects.

Operational risks

1 Operational risks are inherent in the Group's business

Operational risk is the risk of direct or indirect loss due to an event or action resulting from the failure of internal processes, people and systems, or from external events. Operational losses can result, for example, from fraud, errors by employees, failure to document transactions properly or to obtain proper authorisation, failure to comply with legal or regulatory requirements or conduct of business rules (including regimes covering anti-money laundering and anti-terrorism, applicable sanctions, insider dealing, market manipulation and market abuse or similar behaviour, including practices for setting market interest rates and other benchmarks) or equipment failures, natural disasters or the failure of external systems. The Group seeks to ensure that operational risks are managed in a timely and effective manner, through a framework of policies, procedures and tools but this framework may prove inadequate in managing such risks. Any of these risks could have a material adverse effect on the Group's ability to conduct business, its financial condition, results of operations and prospects.

However, this does not imply that either SCPLC or any member of the Group will be unable to comply with their obligations as a company with securities admitted to the Official List or as a supervised firm regulated by the PRA and the FCA.

2 The business of the Group may be affected if it is unable to recruit, retain and develop appropriate senior management and skilled personnel

The Group's continued success depends in part on the continued service of key members of its management team and other skilled personnel. The ability to continue to attract, train, motivate and retain highly qualified professionals is a key element of the Group's strategy. The successful implementation of the Group's growth strategy depends on the availability of skilled management at its head office and at each of its business units and international locations. Competition for skilled management and other employees is particularly evident in a number of the geographic areas in which the Group operates, particularly, in emerging markets. If the Group or one of its business units or other functions fails to staff their operations appropriately, or loses one or more of its key senior executives and fails to replace them in a satisfactory and timely manner, its business, financial condition and results of operations, including control of operational risks, may be adversely affected. Likewise, if the Group fails to attract and appropriately train, motivate and retain qualified professionals, its business, and in particular the ability to expand in certain areas, may be adversely affected, which could have a material adverse effect on the Group's financial condition, results of operations and prospects. The EU and the UK regulators have introduced, and are planning to introduce further, requirements in respect of remuneration which could potentially affect the ability of the Group to recruit, retain and motivate appropriate senior management and skilled personnel.

In particular, restrictions have applied from 1 January 2011 on the payment, structure and disclosure of bonuses and other non-contractual remuneration to senior management and anyone whose professional activities could have a material impact on a firm's risk profile. These restrictions apply globally to the Group but similar restrictions do not apply to competitors based outside the EU, notably in the majority of the Group's core markets across Asia, Africa, and the Middle East, which creates an uneven playing field when competing in those markets for talent with other local and non-EU international banks. In addition to the existing remuneration requirements, CRD IV limits, with effect from the 2014 performance year, the amount of variable compensation that can be paid for certain regulated staff to a maximum of two times their fixed compensation. In addition, from 1 January 2015 claw-back of any future awards of variable compensation may be possible for up to seven years (possibly ten years for senior management in exceptional cases) from award/payment. This may have global implications for the Group as such a requirement would not apply to competitors headquartered outside the EU operating in the Group's core markets. Such provisions may also have a significant impact on both the Group's ability to manage the variable compensation pool in stress situations and to compete and retain talent.

Any of these matters could have a material adverse effect on the Group's ability to conduct its business, its financial condition, results of operations and prospects.

3 The banking industry is a target for fraud and other criminal activity

The banking industry has long been a target for third parties seeking to defraud, to disrupt legitimate economic activity, or to facilitate other illegal activities. Concerns about cyber risk have risen significantly, driven in part by geopolitical events. Cyber crime risks include fraud, vandalism and damage to critical infrastructure.

The Group's businesses depend on the ability to process a large number of transactions efficiently and accurately, and on its ability to rely on its digital technologies, computer and email services, software and networks, as well as on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. The proper functioning of financial control, accounting or other data collection and processing systems is critical to the Group's businesses.

While the internet and networked technologies have provided major opportunities for digitising business, they have also given rise to significant risks as well-equipped and motivated attackers become more sophisticated. The incidence of cyber crime is rising, becoming more globally co-ordinated, and is a challenge for all organisations.

The Group seeks to be vigilant to the risks of internal and external crime in its management of people, processes, systems and in its dealings with customers and other stakeholders. The Group has implemented a range of cyber defences to protect from hacking, misuse, malware, errors, social engineering and physical threats. Controls are embedded in the Group's policies and procedures across a wide range of the Group's activities, such as origination, recruitment, physical and information security. The Group uses third parties where appropriate to further protect, test, validate and strengthen its defences.

The Group also actively collaborates with its peers, regulators and other expert bodies as part of its response to this risk. However, such measures may not be adequate and these risks could have a material adverse effect on the Group's ability to conduct business, its financial condition, results of operations and prospects.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

1. Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features:

Holding company structure and the structural subordination of Notes

SCPLC is a holding company and operates its business entirely through its subsidiaries, including SCB and SCBHK. SCB and SCBHK also operate part of their respective businesses through their subsidiaries. Payments on Notes issued by SCPLC, SCB or SCBHK are structurally subordinated to all existing and future liabilities and obligations of each company's subsidiaries. Claims of creditors of such subsidiaries will have priority as to the assets of such subsidiaries over SCPLC, SCB or SCBHK and their creditors, including holders of any Notes issued by SCPLC, SCB or SCBHK. Each Issuer's obligation to make payments on the Notes issued by it is solely an obligation of that Issuer and will not be guaranteed by any of its subsidiaries or associates. Neither the terms and conditions of the Notes nor the Trust Deed contain any restrictions on the ability of SCPLC's, SCB's or SCBHK's subsidiaries or associates to incur additional unsecured or secured indebtedness.

In addition, as holding companies, SCPLC's, SCB's and SCBHK's ability to make payments depends, substantially in the case of SCPLC, and partly, in the case of SCB and SCBHK, upon the receipt of dividends, distributions or advances from their respective subsidiaries and associates. The ability of each company's subsidiaries and associates to pay dividends or such other amounts will be subject to their profitability, to applicable laws and regulations, to the evolution of their capital adequacy position and to restrictions on making payments contained in financing or other agreements.

Notes subject to optional redemption by the Issuer

Dated Subordinated Notes may, in the circumstances set out, and subject as provided in Conditions 5(c), 5(d) and 5(e), be redeemed at the option of the Issuer at their Redemption Amount together with any interest accrued to the date fixed for redemption. In addition, Notes may be redeemed at the option of the Issuer in circumstances set out, and subject as provided, in the Terms and Conditions of the Notes.

An optional redemption feature is likely to limit the market value of Notes. During any period when an Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

An Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that an Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. An Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since such Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If such Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than the then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If such Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Reset Notes

Reset Notes will initially bear interest at the Initial Rate of Interest until (but excluding) the First Reset Date. On the First Reset Date, the Second Reset Date (if applicable) and each Subsequent Reset Date (if any) thereafter, the interest rate will be reset to the sum of (i) the applicable Mid-Swap Rate, Benchmark Gilt Rate or Reference Bond Rate and (ii) the First Margin or Subsequent Margin (as applicable) as determined by the Calculation Agent on the relevant Reset Determination Date (each such interest rate, a "Subsequent Reset Rate"). The Subsequent Reset Rate for any Reset Period could be less than the Initial Rate of Interest or the Subsequent Reset Rate for prior Reset Periods and could affect the market value of an investment in the Reset Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The Issuers' obligations under Dated Subordinated Notes are subordinated

An Issuer's obligations under Dated Subordinated Notes will be unsecured and subordinated and will rank junior in priority to the claims of Senior Creditors (as defined in "*Terms and Conditions of the Notes*" herein). Although Dated Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Dated Subordinated Notes will lose all or some of his investment should the relevant Issuer become insolvent.

Restricted remedy for non-payment

In most circumstances the sole remedy against an Issuer available to the Trustee (on behalf of the holders of Dated Subordinated Notes) to recover any amounts owing in respect of the principal of or interest on the Dated Subordinated Notes will be to institute proceedings for the winding-up of the relevant Issuer in its jurisdiction of incorporation. See "*Terms and Conditions of the Notes, Condition 9(c)*".

Notes where denominations involve integral multiples

In the case of any Notes which have denominations consisting of a minimum Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Denomination. In such a case, a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Denomination will not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase or sell a principal amount of Notes such that it holds an amount equal to one or more Denominations.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Denomination may be illiquid and difficult to trade.

Notes denominated in a different currency to the currency in which principal and/or interest are payable.

An Issuer may issue Notes where principal and/or interest are payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors in such Notes should be aware that, depending on the terms of the Notes, (i) they may receive no interest or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected, and (iii) they may lose a substantial portion of their investment. Movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices, and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. Payments of principal and interest or other obligations of the Issuer in respect of any Series of Notes may be restricted upon the occurrence of certain disruption events described in the applicable Final Terms.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable are dependent upon movements in currency exchange rates, may depend upon the time remaining to the redemption maturity date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions. The value of any currency, including those currencies specified in any indicative transaction, may be affected by complex political and economic factors.

Notes issued under the Programme may be subject to statutory write-down or bail-in powers

Under the Regulatory Capital Write-Down Powers in the BRRD, Resolution Authorities will have the power (and will be obliged when specified conditions are met) to write-down, or convert into CET1 Capital instruments (e.g. ordinary shares) of the Institution, Tier 1 and Tier 2 Capital instruments issued by Institutions before determining that the relevant Institution has reached a point of non-viability (“PONV”) and, accordingly, taking any form of resolution action or applying any resolution power set out in the BRRD. These measures apply to Tier 1 and/or Tier 2 Capital instruments that are currently in issue and, consequently, no transitional rules will apply.

Resolution Authorities will also be able to exercise Bail-In Powers to write-down certain unsecured liabilities of Institutions that meet the conditions for resolution (which include a determination that a PONV has been reached or is likely to be reached) or to convert such unsecured liabilities into equity, either to recapitalise the relevant Institution (subject to appropriate restructuring of the Institution’s business) or to provide capital for any bridge institution that the Resolution Authorities establish in connection with the resolution of the Institution. Subject to certain exemptions set out in the BRRD (including secured liabilities, bank deposits guaranteed under an EU member state’s deposit guarantee scheme, liabilities arising by virtue of the holding of client money, liabilities to other non-group banks or investment firms that have an original maturity of fewer than seven days and certain other exceptions), it is intended that all liabilities of Institutions should potentially be ‘bail-in-able’ (“Eligible Liabilities”). Resolution Authorities will apply the Bail-In Powers to the shares and other Eligible Liabilities of a failing Institution in accordance with a hierarchy prescribed by the BRRD, pursuant to which, for example, subordinated debt instruments are to be written down or converted ahead of senior unsecured debt. The Bail-In Powers that are to be given to Resolution Authorities include the ability to write-down or convert certain unsecured debt instruments into shares of the Institution, to reduce the outstanding amount due under such debt instruments (including reducing such amounts to zero) or to cancel such debt instruments. The BRRD does not exempt Eligible Liabilities recognised or issued before a particular date from the scope of the Bail-In Powers.

Member States are required to transpose the requirements set out under the BRRD by 31 December 2014 and apply the requirements from 1 January 2015, although Member States are permitted to delay the application of Bail-in Powers until 1 January 2016. However, the UK government has transposed the statutory framework relating to, and is currently consulting on the detailed requirements for, the introduction of Bail-in Powers into its resolution framework under the Banking Act 2009 with effect from 1 January 2015.

Dated Subordinated Notes issued under the Programme may, accordingly, fall within the pool of regulatory capital instruments that would be subject to the proposed Regulatory Capital Write-Down Powers. Senior Notes and Dated Subordinated Notes issued under the Programme (insofar as they have not already been written down or converted under the Regulatory Capital Write-Down Powers referred to above) will fall within the scope of the Bail-In Powers set out in the BRRD (which the UK is implementing through the Financial Services (Banking Reform) Act 2013 and secondary legislation, which will introduce bail-in as a fourth stabilisation option which may be exercised by the Bank of England under the Banking Act 2009 in addition to the three existing stabilisation options provided under the Banking Act 2009). The determination

that all or part of the principal amount of the Notes will be subject to the Regulatory Capital Write-Down Powers or Bail-In Powers may be unpredictable and may be outside of the Issuer's control. Accordingly, trading behaviour in respect of the Notes which are subject to such write-down or conversion powers is not necessarily expected to follow trading behaviour associated with other types of securities. Any final determination that the Notes will become subject to the Regulatory Capital Write-Down Powers or Bail-In Powers set out in the proposed BRRD could have an adverse effect on the market price of the relevant Notes.

Potential investors should also consider the risk that a Noteholder may lose all of its investment in such Notes and claims to unpaid interest. Any amounts written-off as a result of the application of either the Regulatory Capital Write-Down Powers or the Bail-in Powers would be irrevocably lost and holders of such Notes would cease to have any claims for (i) the written-off principal amount of the Notes and (ii) any unaccrued obligations or claims arising in relation to such amounts if the full principal amount of a Note is written-off. In circumstances where UK Resolution Authorities use their Bail-In Powers to reduce part of the principal amount of the Notes, the terms of the Notes would continue to apply in relation to the residual principal amount, subject to any modification to the amount of interest payable to reflect the reduction of the principal amount. In addition, where UK Resolution Authorities use their Bail-In Powers in this way, they must ensure that creditors do not incur greater losses than they would have incurred had the Institution been wound up under normal insolvency proceedings immediately before the exercise of the resolution power, however there can be no guarantee that the application of this requirement will mean that a Noteholder will not lose all of its investment in the Notes in the event that the UK Resolution Authorities use their Bail-in Powers in this way.

2. Risks related to Notes denominated in Renminbi

There are certain special risks associated with investing in any Notes denominated in Renminbi ("RMB Notes"). The Issuers believe that the factors described below represent the principal risks inherent in investing in RMB Notes issued, but the inability of an Issuer to pay interest, principal or other amounts on or in connection with RMB Notes may occur for other reasons and the Issuers do not represent that the statements below regarding the risks of holding RMB Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus and reach their own views prior to making any investment decision.

The Renminbi is not freely convertible and there are significant restrictions on remittance of Renminbi into and outside the PRC

The Renminbi is not freely convertible at present. The PRC government continues to regulate conversion between the Renminbi and foreign currencies despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. Participating banks in Hong Kong have been permitted to engage in the settlement of RMB trade transactions under a pilot scheme introduced in July 2009. This represents a current account activity. The pilot scheme was extended in June 2010 to cover 20 provinces and cities in the PRC and to make RMB trade and other current account item settlement available in all countries worldwide. The pilot scheme was further extended in August 2011 to cover all provinces in the PRC.

On 25 February 2011, the Ministry of Commerce of the PRC ("MOFCOM") promulgated the Circular on Issues concerning Foreign Investment Management (the "MOFCOM Circular"). The MOFCOM Circular states that if a foreign investor intends to make investments in the PRC (whether by way of establishing a new enterprise, increasing the registered capital of an existing enterprise, acquiring an onshore enterprise or providing loan facilities) with Renminbi that it has generated from cross-border trade settlement or that is lawfully obtained by it outside the PRC, MOFCOM's prior written consent is required. On 3 June 2011, the People's Bank of China (the "PBOC") issued the Notice on Clarification of Issues regarding Cross-border Renminbi Activities (the "PBOC Notice"), which provides that the pilot programme of foreign direct investment in Renminbi will be launched on a case by case basis, and approval by the PBOC is required for foreign direct investment in Renminbi. For industries under restrictions or strictly regulated by the PRC government, foreign direct investment in Renminbi is prohibited.

On 12 October 2011, MOFCOM promulgated the Circular on Issues in relation to Cross-border RMB Foreign Direct Investment (the "MOFCOM RMB FDI Circular"). Pursuant to the MOFCOM RMB FDI Circular, MOFCOM's prior written consent which was previously required under the MOFCOM Circular, is no longer required for RMB foreign direct investments ("RMB FDI"), and MOFCOM and its local counterparts are authorised to approve RMB FDI in accordance with existing PRC laws and regulations regarding foreign investment, with certain exceptions which require the preliminary approval by the provincial counterpart of MOFCOM and the consent of MOFCOM as described under "PRC Currency Controls – Capital Account Items". The MOFCOM RMB FDI Circular also requires that the proceeds of RMB FDI may not be used towards investment in securities, financial derivatives or entrustment loans in

the PRC, except for investments in PRC domestic listed companies through private placements or share transfers by agreement. On 13 October 2011, PBOC issued the Measures on Administration of the RMB Settlement in relation to Foreign Direct Investment (the “PBOC RMB FDI Measures”), to implement PBOC’s detailed RMB FDI administration system, which covers almost all aspects of RMB FDI, including capital injection, payment of purchase price in the acquisition of PRC domestic enterprises, repatriation of dividends and distribution, as well as Renminbi denominated cross-border loans. Under the PBOC RMB FDI Measures, special approval for RMB FDI and shareholder loans from the PBOC which was previously required by the PROC Notice is no longer necessary. As new regulations, the MOFCOM Circular, the PBOC Notice, the MOFCOM RMB FDI Circular and the PBOC RMB FDI Measures will be subject to interpretation and application by the relevant PRC authorities.

Subject to the prior receipt of all necessary governmental approvals, an Issuer may remit the net proceeds from the offering of RMB Notes into the PRC. There is no assurance that such approvals will be granted and, if granted, will not be revoked or amended in the future. There is no assurance that the PRC government will continue to gradually liberalise the control over cross-border RMB remittances in the future or that new PRC regulations will not be promulgated in the future which would have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. An Issuer may need to source Renminbi offshore to finance its obligations under RMB Notes, and its ability to do so will be subject to the overall availability of Renminbi outside the PRC.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of RMB Notes and an Issuer’s ability to source Renminbi outside China to service RMB Notes

As a result of the restrictions imposed by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. Since February 2004, in accordance with arrangements between the PRC central government and the Hong Kong government, licensed banks in Hong Kong may offer limited Renminbi-denominated banking services to Hong Kong residents and specified business customers. PBOC, the central bank of the PRC, has also established a Renminbi clearing and settlement system for participating banks in Hong Kong. On 19 July 2010, further amendments were made to the Settlement Agreement on the Clearing of RMB Business (the “Settlement Agreement”) between the PBOC and Bank of China (Hong Kong) Limited (the “RMB Clearing Bank”) to further expand the scope of RMB business for participating banks in Hong Kong. Pursuant to the revised arrangements, all corporations are allowed to open RMB accounts in Hong Kong; there is no longer any limit (other than as provided in the following paragraph) on the ability of corporations to convert RMB; and there will no longer be any restriction on the transfer of RMB funds between different accounts in Hong Kong.

However, the current size of Renminbi-denominated financial assets outside China is limited. In addition, participating banks are also required by the HKMA to maintain a Renminbi liquidity ratio (computed on the same basis as the statutory liquidity ratio) of no less than 25 per cent., which further limits the availability of Renminbi that participating banks can utilise for conversion services for their customers. Renminbi business participating banks do not have direct Renminbi liquidity support from PBOC. The Renminbi Clearing Bank will only have access to onshore liquidity support from PBOC to square open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporates in relation to cross-border trade settlement and for personal customers resident in Hong Kong of up to RMB20,000 per person per day. The Renminbi Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreement will not be terminated or amended in the future, which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of RMB Notes. To the extent an Issuer is required to source Renminbi in the offshore market to service RMB Notes, there is no assurance that such Issuer will be able to source such Renminbi on satisfactory terms, if at all. If the Renminbi is not available in certain circumstances as described under “Terms and Conditions – Payments and Talons – Inconvertibility, Non-transferability or Illiquidity”, the relevant Issuer can make payments under the Renminbi Notes in a currency other than Renminbi.

Investment in RMB Notes is subject to exchange rate risks

The value of the Renminbi against the U.S. dollar, the Hong Kong dollar and other currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. An Issuer will make all payments of interest and principal with respect to RMB Notes in Renminbi. As a result, the value of these Renminbi payments in foreign currency may vary with the prevailing exchange rates in the marketplace. For example, when an investor buys RMB Notes, such

investor may need to convert foreign currency to Renminbi at the exchange rate available at that time. If the value of Renminbi depreciates against the relevant foreign currency between then and the time that the Issuer pays back the principal of RMB Notes in Renminbi at maturity, the value of the investment in the relevant foreign currency will have declined.

Payments in respect of RMB Notes will only be made to investors in the manner specified in RMB Notes

All payments to investors in respect of RMB Notes will be made solely (i) for so long as RMB Notes are represented by a Global Note or Global Certificate, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing CMU rules and procedures, or (ii) for so long as RMB Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. The relevant Issuer cannot be required to make payment by any other means (including in any other currency (unless this is specified in the Final Terms of the RMB Notes) or by transfer to a bank account in the PRC).

3. *Risks related to the Notes generally*

Set out below is a brief description of certain risks relating to the Notes generally:

Modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes in place of any of the Issuers, in the circumstances described in Condition 10 of the Terms and Conditions of the Notes. Any amendment to the Terms and Conditions of the Dated Subordinated Notes or to the Trust Deed is subject to the relevant Issuer having given notice to, and having received no objection from, the PRA (provided there is a requirement to give such notice).

Changes to regulatory capital requirements

Implementation of and/or changes to the capital adequacy framework may result in changes to the risk-weighting of the Notes and/or loss absorption by Noteholders in certain circumstances

The BCBS adopted in 2004 a framework which placed enhanced emphasis on market discipline and sensitivity to risk. A comprehensive version of this framework was published in June 2006 under the title "International Convergence of Capital Measurement and Capital Standards: A Revised Framework (Comprehensive Version)" ("Basel II").

Basel II was required to be implemented in stages with the Basel II standardised approach and the foundation internal ratings based ("IRB") approach to credit risk applying from 1 January 2007, and the advanced IRB approach to credit risk and the advanced measurement approach ("AMA") to operational risk applying from 1 January 2008. However, Basel II is not self-implementing and, accordingly, implementation dates in individual countries are dependent on the national implementation processes in those countries.

In July 2009 the Basel Committee agreed changes to Basel II to address deficiencies in respect of the treatment of securitisations and market risk. Banks using internal models for determining the capital requirements of their trading book are required to calculate a stressed value-at-risk based on historical data from a 12-month period of significant stress. Banks using internal specific risk models in the trading book must also calculate an incremental risk capital charge for credit sensitive positions which captures default and migration risk. These changes were introduced from 31 December 2011 and have significantly increased the capital requirements for trading book transactions. Implementation in the EU has been effected through amendments to the Capital Requirements Directive which also applies to investment firms. A more fundamental review of the rules applicable to trading activities is currently being undertaken by the BCBS that may result in further changes. The use of external ratings is also being reviewed and on 27 October 2010 the FSB issued principles for reducing reliance on credit rating agency ratings in standards, laws and regulations.

Basel III introduces, amongst other things, new definitions of instruments eligible as regulatory capital, measures to strengthen the capital requirements for counterparty credit risk exposures arising from certain transactions, a leverage ratio and liquidity metrics.

Basel III has been implemented in the EU through a package of legislation, comprising the CRD IV Directive and the CRD IV Regulation. The CRD IV Directive must be implemented in each Member State by national legislation, while the CRD IV Regulation is directly applicable in each Member State and does not therefore require national implementing measures. Agreement of CRD IV was reached on 16 April 2013 and the final texts were published in the Official Journal of the EU on 26 June 2013. Member States were required to apply the new requirements (with certain exceptions and subject to transitional arrangements) from 1 January 2014. The changes in requirements that will be introduced through CRD IV may have an impact on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

The Financial Services (Banking Reform) Act 2013 amended FSMA to provide HM Treasury with the power to require an institution to issue any debt instruments or to ensure that any part of its debt consists of debt instruments of a particular kind. This power is additional to the regulatory capital requirements under CRD IV. HM Treasury has indicated that it intends to use this power, as appropriate, to require certain banking groups to increase the quantity of "primary loss absorbing capital" that is expected to be subject to the Regulatory Capital Write-Down Powers and Bail-In Powers under the BRRD. The Notes may be subject to these Regulatory Capital Write-Down Powers and/or Bail-In Powers (see "*Risks related to a particular issue of Notes – Notes issued under the Programme may be subject to statutory write-down or bail-in powers*" above). Moreover, upon a resolution of an Issuer, losses may be imposed on senior creditors, including holders of Senior Notes. The Financial Services (Banking Reform) Act 2013 provides for the introduction of a bail-in power as the fourth stabilisation option which may be exercised by the Bank of England pursuant to the Banking Act 2009 (See further the paragraph entitled "*The business and operations of the Group may be affected by resolution measures developed by its regulators, including those introduced in accordance with the EU Bank Recovery and Resolution Directive and the Banking Act 2009*" above).

Any of the foregoing could affect the risk-weighting of the Notes for investors who are subject to capital adequacy requirements that follow, or are based on, Basel I (being the International Convergence of Capital Measurement and Capital Standards published by the BCBS in July 1988 together with the Amendment to the Capital Accord to Incorporate Market Risks published by the BCBS in January 1996, in each case as amended by the BCBS), Basel II or Basel III (including, in the EU/EEA, banks and investment firms).

The application of proposals on write-down, conversion to equity or bail-in to the Notes may have an adverse effect on the position of holders of Senior Notes and/or Dated Subordinated Notes and, as a result, may affect the liquidity and/or value of the Notes. See "*The Group is subject to the risk of regulators imposing more onerous prudential standards, including increased capital and liquidity requirements*" above.

In all other respects, the Issuers cannot predict the precise effects of potential changes that might result from the implementation of new requirements on their own financial performance or the impact on the market value of the Notes. Prospective investors in the Notes should consult their own advisers as to the potential consequences to and effect on them of changes to the risk-weighted asset framework (including the Basel II and Basel III changes described above) and the relevant implementing measures, together with other changes including write-down, conversion to equity or bail-in that have been or are in the course of being proposed.

The EU is also developing a new solvency framework for insurance companies, referred to as "Solvency II". Member States are required to implement Solvency II by 31 March 2015 and firms must comply with the new regime from 1 January 2016. The approach to investment rules for insurers adopted under Solvency II is markedly different from the approach under the current European insurance directives and the PRA rules currently in force. The Issuers cannot predict the precise effects of the potential changes that might result from the implementation of Solvency II on the market value of the Notes, or their eligibility to be used to satisfy capital requirements under Solvency II. Prospective investors in the Notes who will be subject to Solvency II should consult their own advisers as to the potential consequences to and effect on them of changes to the solvency regime and the investment rules for insurers.

European Monetary Union

If the United Kingdom joins the European Monetary Union prior to the maturity of the Notes, there is no assurance that this would not adversely affect investors in the Notes. It is possible that prior to the maturity of the Notes the United Kingdom may become a participating Member State and that the euro may become the lawful currency of the United Kingdom. In that event (i) all amounts payable in respect of any Notes denominated in Sterling may become payable in euro (ii) the law may allow or require such Notes to be redenominated into euro and additional measures to be taken in respect of such Notes; and (iii) there may no

longer be available published or displayed rates for deposits in Sterling used to determine the rates of interest on such Notes or changes in the way those rates are calculated, quoted and published or displayed. The introduction of the euro could also be accompanied by a volatile interest rate environment, which could adversely affect investors in the Notes.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (as amended from time to time) (the “**Savings Directive**”), each member state of the European Union (a “**Member State**”) is required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person established within its jurisdiction to (or for the benefit of) an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

On 24 March 2014, the Council of the European Union adopted a Council Directive (the “**Amending Directive**”) amending and broadening the scope of the requirements of the Savings Directive described above. Member States are required to apply these new requirements with effect from 1 January 2017. The changes will expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. The Amending Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or legal arrangement is established or effectively managed outside the European Union.

However, for a transitional period, the end of which is dependent upon the conclusion of certain other agreements relating to information exchange with certain non-EU countries, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Savings Directive.

A number of non-EU countries and territories have adopted similar measures.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment pursuant to the Savings Directive or any other European Union directive or regulation implementing the conclusions of the ECOFIN council meeting of 26-27 November 2000 on the taxation of savings income or any agreement between the EU and any non-EU jurisdiction imposing equivalent measures, neither the Issuer nor the Paying Agent nor any other person would be obliged to pay additional amounts with respect to such payment as a result of the imposition of such withholding tax. Save as provided in the Terms and Conditions of the Notes, the Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to any law implementing the Savings Directive or any other European Union directive or regulation implementing the conclusions of the ECOFIN council meeting of 26-27 November 2000 on the taxation of savings income or any agreement between the EU and any non-EU jurisdiction imposing equivalent measures, which may mitigate an element of this risk if the Noteholder is able to arrange for payment through such a Paying Agent.

Change of law

The Terms and Conditions of the Notes are based on English law in effect as at the date of issue of the relevant Notes (save for Condition 3 which shall be governed by and construed in accordance with Hong Kong law where the Notes are issued by SCBHK). No assurance can be given as to the impact of any possible judicial decision or change to English law, Hong Kong law or any administrative practice after the date of issue of the relevant Notes.

United States foreign account tax compliance withholding (“FATCA withholding”) may apply to payments on Notes, including as a result of the failure of a holder or a holder’s bank or broker to comply with information reporting, certification and related requirements.

The United States may impose a withholding tax of 30 per cent. on any portion of payments made with respect to the Notes treated as attributable to certain U.S. source payments (“foreign passthru payments”), but the rules for calculating the amount of such withholding tax are still undetermined. According to recently enacted U.S. Treasury regulations and related U.S. Treasury Department guidance, this withholding tax generally will only apply to payments made on or after January 1, 2017, at the earliest. Moreover, such withholding would generally only apply to Notes issued or materially modified more than six months after the date on which final regulations implementing such rules are enacted, subject to certain exceptions. The withholding tax, when it applies, may be imposed at any point in a series of payments unless the relevant

payee (including a bank, broker or individual) at each point complies with information reporting, certification and related requirements. Accordingly, a holder that holds Notes through a bank or broker could be subject to withholding if, for example, its bank or broker is subject to withholding because it fails to comply with these requirements even though the holder itself might not otherwise have been subject to withholding. If a payment on the Notes is subject to this withholding tax, no additional amounts will be paid, and a holder of Notes will receive less than the amount of the expected payment.

Prospective investors should consult their tax advisors regarding their withholding. For more information, see “*Taxation – United States Foreign Account Tax Compliance Withholding (FATCA Withholding)*” below.

4. Risks related to the market generally

Set out below is a brief description of certain market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have an adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

An Issuer will pay principal and interest on the Notes in the currency specified (the “Currency”). This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “Investor’s Currency”) other than the Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Currency or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the Currency would decrease (i) the Investor’s Currency-equivalent yield on the Notes, (ii) the Investor’s Currency-equivalent value of the principal payable on the Notes and (iii) the Investor’s Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and/or an investor’s right to receive payments of interest or principal. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to an issue of Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be suspended, reduced or withdrawn by the rating agency at any time. Each rating should be evaluated independently of any other rating.

TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions (“Conditions”) that, save for the text in italics and subject to completion and minor amendment and as supplemented or varied in accordance with the provisions of the relevant Final Terms or Pricing Supplement, shall be applicable to the Notes in definitive form (if any) issued in exchange for the Global Note(s) representing each Series. Either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or Pricing Supplement or (ii) these terms and conditions as so completed, amended, supplemented or varied (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on such Bearer Notes or on the Certificates relating to such Registered Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms or Pricing Supplement. Those definitions will be endorsed on the definitive Notes or Certificates, as the case may be. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme. Provisions in italics do not form part of the Conditions. References to the “Issuer” are to Standard Chartered PLC (“SCPLC”), Standard Chartered Bank (“SCB”) or Standard Chartered Bank (Hong Kong) Limited (“SCBHK”) as applicable as the relevant Issuer of the Notes as specified in the Final Terms or Pricing Supplement.

These Conditions may be amended, modified or varied in relation to any Series of Notes by the terms of the relevant Final Terms or Pricing Supplement in relation to such Series.

The Notes are constituted by an Amended and Restated Trust Deed dated 10 October 2014, which amends and restates an Amended and Restated Trust Deed dated 10 October 2013, and as further amended and/or supplemented as at the date of issue of the Notes (the “Issue Date”) (the “Trust Deed”) between SCPLC, SCB, SCBHK and BNY Mellon Corporate Trustee Services Limited (the “Trustee”, which expression shall include all persons for the time being the trustee or trustees under the Trust Deed) as trustee for the Noteholders (as defined below). These terms and conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the form of the Bearer Notes, Certificates, Coupons and Talons referred to below. An Amended and Restated Agency Agreement dated 10 October 2014, which amends and restates an Amended and Restated Agency Agreement dated 10 October 2013 (and as amended and/or supplemented as at the Issue Date (the “Agency Agreement”)), was entered into in relation to the Notes between SCPLC, SCB, SCBHK, the Trustee and The Bank of New York Mellon, London Office as issuing and paying agent, paying agent, transfer agent and calculation agent, The Bank of New York Mellon (Luxembourg) S.A. as paying agent, registrar and transfer agent, The Bank of New York Mellon as Hong Kong registrar, CMU Paying Agent and CMU Lodging Agent (the “CMU Lodging Agent”, which expression shall include any successor CMU lodging agents), and The Bank of New York Mellon as exchange agent, paying agent and registrar and the other agents named therein. The issuing and paying agent, the paying agents, the registrars, the Hong Kong registrar, the transfer agents and the calculation agent(s) for the time being (if any) are referred to below respectively as the “Issuing and Paying Agent”, the “Paying Agents” (which expression shall include the Issuing and Paying Agent and the CMU Lodging Agent), the “Registrar”, the “HK Registrar”, the “Transfer Agents” (which expression shall include the Registrar and the HK Registrar) and the “Calculation Agent(s)”. Copies of the Trust Deed and the Agency Agreement referred to above are available for inspection free of charge during usual business hours at the registered office of the Trustee (presently at One Canada Square, London E14 5AL) and at the specified offices of the Paying Agents and the Transfer Agents, save that, if any Series of Notes is neither admitted to trading on a regulated market within the European Economic Area (“EEA”) nor offered in the EEA in circumstances where a prospectus is required to be published pursuant to European Union Directive 2003/71/EC, as amended, to the extent that such amendments have been implemented in the relevant member state of the EEA (the “Prospectus Directive”), the applicable pricing supplement will only be available for inspection by a Noteholder holding one or more Notes of the Series and such Noteholder must produce evidence satisfactory to the relevant Issuer and the Trustee or, as the case may be, the relevant Paying Agent as to its holding of such Notes and identity. For the purposes of these Conditions, all references (other than in relation to the determination of interest and other amounts payable in respect of the Notes) to the issuing and paying agent shall, with respect to a Series of Notes to be held in the Hong Kong Central Money Markets Unit Service operated by the Hong Kong Monetary Authority (the “CMU Service”), be deemed to be a reference to the CMU Lodging Agent and all such references shall be construed accordingly.

The Noteholders, the holders of the interest coupons (the “Coupons”) appertaining to interest bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the “Talons”) (the “Couponholders”), are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the applicable Final Terms or Pricing Supplement and are deemed to have notice of those provisions applicable to them of the Agency Agreement.

The Final Terms or Pricing Supplement (as applicable) for this Note (or the relevant provisions thereof) are attached to or endorsed on this Note. Part A of the Final Terms or Pricing Supplement (as applicable) supplements these Conditions and may specify other terms and conditions which shall, to the extent so

specified or to the extent inconsistent with these Conditions, replace or modify these Conditions for the purposes of this Note. References to the “applicable Final Terms” are to the Final Terms (or relevant provisions thereof) attached to or endorsed on this Note. References to the “applicable Pricing Supplement” are to the Pricing Supplement (or relevant provisions thereof) attached to or endorsed on this Note.

As used in these Conditions, “Tranche” means Notes which are identical in all respects.

1. Form, Denomination and Title

The Notes are issued in bearer form (“Bearer Notes”, which expression includes Notes that are specified to be Exchangeable Bearer Notes), in registered form (“Registered Notes”) or in bearer form exchangeable for Registered Notes (“Exchangeable Bearer Notes”) in each case in the Denomination(s) shown hereon save that the minimum denomination of each Note admitted to trading on a European Economic Area exchange and/or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive will be €100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Relevant Currency.

All Registered Notes shall have the same Denomination. Where Exchangeable Bearer Notes are issued, the Registered Notes for which they are exchangeable shall have the same Denomination as the lowest denomination of Exchangeable Bearer Notes. Unless otherwise permitted by the then current laws and regulations, Notes issued by SCPLC or SCBHK which have a maturity of less than one year and in respect of which the issue proceeds are to be accepted by SCPLC or SCBHK in the United Kingdom or whose issue would otherwise constitute a contravention of section 19 of the Financial Services and Markets Act 2000 (“FSMA”) will have a minimum denomination of £100,000 (or its equivalent in other currencies). Notes sold in reliance on Rule 144A will be in minimum denominations of U.S.\$200,000 (or its equivalent in another currency) and integral multiples of U.S.\$1,000 (or its equivalent in another currency) in excess thereof, subject to compliance with all legal and/or regulatory requirements applicable to the relevant jurisdiction.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Notes that do not bear interest in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable.

Registered Notes are represented by registered certificates (“Certificates”) and, save as provided in Condition 2(c), each Certificate shall represent a holder’s entire holding of Registered Notes.

Title to the Bearer Notes and the Coupons and Talons shall pass by delivery. Title to the Registered Notes shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “Register”). The Issuer may appoint a registrar (the “Alternative Registrar”) in accordance with the provisions of the Agency Agreement other than the Registrar in relation to any Series comprising Registered Notes. In these Conditions, “Registrar” includes, if applicable, in relation to any Series comprising Registered Notes, the Registrar or, as the case may be, the Alternative Registrar, as specified hereon [provided always that the Registrar shall be the HK Registrar or shall have its specified office in Hong Kong]². Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In these Conditions, “Noteholder” means the bearer of any Bearer Note or the person in whose name a Registered Note is registered (as the case may be), “holder” (in relation to a Note, Coupon or Talon) means the bearer of any Bearer Note, Coupon or Talon or the person in whose name a Registered Note is registered (as the case may be) and capitalised terms have the meanings given to them hereon, the absence of any such meaning indicating that such term is not applicable to the Notes.

2. Exchanges of Exchangeable Bearer Notes and Transfers of Registered Notes

(a) Exchange of Exchangeable Bearer Notes

Subject as provided in Condition 2(f), Exchangeable Bearer Notes may be exchanged for the same aggregate principal amount of Registered Notes at the request in writing of the relevant Noteholder and upon surrender of each Exchangeable Bearer Note to be exchanged, together with all unmatured Coupons and Talons relating to it, at the specified office of any Transfer Agent; provided, however, that where an Exchangeable Bearer Note is surrendered for exchange after the Record Date (as defined in Condition 6(b)) for any payment of interest, the Coupon in respect of that payment of interest need not be

surrendered with it. Registered Notes may not be exchanged for Bearer Notes. Bearer Notes of one Denomination may not be exchanged for Bearer Notes of another Denomination. Bearer Notes that are not Exchangeable Bearer Notes may not be exchanged for Registered Notes.

(b) Transfer of Registered Notes

One or more Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require without service charge and subject to payment of any taxes, duties and other governmental charges in respect of such transfer. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

(c) Exercise of Options or Partial Redemption in Respect of Registered Notes

In the case of an exercise of an Issuer's or Noteholder's option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(d) Delivery of New Certificates

Each new Certificate to be issued pursuant to Conditions 2(a), (b) or (c) shall be available for delivery within three business days of receipt of the request for exchange, form of transfer or Exercise Notice or surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such request for exchange, form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d), "business day" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar.

(e) Exchange Free of Charge

Exchange and transfer of Notes and Certificates on registration, transfer or exercise of an option shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require).

(f) Closed Periods

No Noteholder may require the transfer of a Registered Note to be registered or an Exchangeable Bearer Note to be exchanged for one or more Registered Note(s) (i) during the period of 15 days ending on the due date for redemption of that Note, (ii) during the period of 15 days prior to any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 5(d), (iii) after any such Note has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date. An Exchangeable Bearer Note called for redemption may, however, be exchanged for one or more Registered Note(s) in respect of which the Certificate is simultaneously surrendered not later than the relevant Record Date.

3. Status

(a) Status of Senior Notes

The Senior Notes (being those Notes that specify their Status as Senior) and the Coupons relating to them constitute direct and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without

any preference among themselves. The payment obligations of the Issuer under the Senior Notes and the Coupons relating to them shall, save for such exceptions as may be provided by applicable legislation, at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Issuer, present and future.

(b) Status of Dated Subordinated Notes

The Dated Subordinated Notes (being those Notes that specify their Status as Dated Subordinated) and the Coupons relating to them constitute direct, unsecured and subordinated obligations of the Issuer and rank *pari passu* and without any preference among themselves.

The rights and claims of Noteholders and Couponholders against the Issuer to payment in respect of the Dated Subordinated Notes (including, without limitation, any payments in respect of damages awarded for breach of any obligations) are, in the event of the winding-up of the Issuer [or in an administration of the Issuer following notice by the administrator of an intention to declare and distribute a dividend]¹ subordinated in right of payment in the manner provided in the Trust Deed to the claims of all Senior Creditors (as defined below). Accordingly, amounts (whether principal, interest or otherwise) in respect of the Notes and Coupons shall be payable in such winding-up [or such administration following notice by the administrator of an intention to declare and distribute a dividend]¹ only if and to the extent that the Issuer could be considered solvent at the time of payment thereof and still be considered solvent immediately thereafter. For this purpose, the Issuer shall be considered solvent if both (i) it is able to pay its debts to Senior Creditors as they fall due and (ii) its Assets exceed its Liabilities to Senior Creditors.

A report as to the solvency of the Issuer by two Directors of the Issuer or, in certain circumstances as provided in the Trust Deed, the Auditors or, if the Issuer is being wound up, its liquidator shall, in the absence of manifest error, be treated and accepted by the Issuer, the Trustee and the Dated Subordinated Noteholders and Couponholders as correct and sufficient evidence thereof.

(c) Set-off and excess payment

Subject to applicable law, no Noteholder or Couponholder may exercise, claim or plead any right of set-off, counter-claim or retention in respect of any amount owed to it by the Issuer arising under or in connection with the Dated Subordinated Notes or the Coupons in respect of them and each Noteholder and Couponholder shall, by virtue of being the holder of any Dated Subordinated Note or, as the case may be, Coupon in relation to it, be deemed to have waived all such rights of such set-off, counter-claim or retention. Notwithstanding the preceding sentence, if any of the amounts owing to any Noteholder or Couponholder by the Issuer under or in connection with the Dated Subordinated Notes is discharged by set-off, such Noteholder or Couponholder, as the case may be, shall, subject to applicable law, immediately pay an amount equal to the amount of such discharge to the Issuer or, in the event of its winding-up [or administration]¹, the liquidator [or administrator as appropriate]¹ of the Issuer for payment to the Creditors in respect of amounts owing to them by the Issuer, and, until such time as payment is made, shall hold an amount equal to such amount in trust for the Issuer, or the liquidator of the Issuer (as the case may be), for the payment to the Creditors in respect of amounts owing to them by the Issuer, and accordingly any such discharge shall be deemed not to have taken place.

For the purposes of Conditions 3(b) and (c):

“*Assets*” means the non-consolidated gross assets of the Issuer as shown by the then latest published balance sheet of the Issuer but adjusted for contingencies and for subsequent events and to such extent as two Directors of the Issuer, the Auditors or the liquidator of the Issuer (as the case may be) may determine to be appropriate;

“*Auditors*” means the auditors for the time being of the Issuer or, in the event of their being unable or unwilling promptly to carry out any action requested of them pursuant to the provisions of the Trust Deed, such other firm of accountants as may be nominated or approved by the Trustee after consultation with the Issuer;

“*Creditor*” means any creditor of the Issuer (i) who is an unsubordinated creditor of the Issuer or (ii) whose claim is or is expressed to be subordinated to the claim of any unsubordinated creditor of the Issuer but not further or otherwise;

“*Liabilities*” means the non-consolidated gross liabilities of the Issuer as shown by the then latest published balance sheet of the Issuer but adjusted for contingencies and for subsequent events and to such extent as two Directors of the Issuer, the Auditors or the liquidator of the Issuer (as the case may be) may determine to be appropriate; and

“*Senior Creditor*” means any creditor of the Issuer (and, for the purposes of Condition 10(c) only, any creditor of a holding company of the Issuer that is substituted for such Issuer in which case references in (i)

and (ii) below to the Issuer shall be construed as referring to such holding company) whose claims have been accepted by the liquidator in the winding-up of the Issuer, not being a creditor:

(i) whose right to repayment ranks or is expressed to rank postponed to or subordinate to that of unsubordinated creditors of the Issuer; or

(ii) whose right to repayment is made subject to a condition or is restricted (whether by operation of law or otherwise) or is expressed to be restricted in each case such that the amount which may be claimed for his own retention by such creditor in the event that the Issuer is not solvent is less than in the event that the Issuer is solvent; or

(iii) whose debt is irrecoverable or expressed to be irrecoverable unless the persons entitled to payment of principal and interest in respect of the Dated Subordinated Notes recover the amounts of such principal and interest which such persons would be entitled to recover if payment of such principal and interest to such persons were not subject to any condition.

4. Interest and other Calculations

(a) Interest Rate and Accrual

Each Note bears interest on its outstanding principal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Interest Rate, such interest being payable in arrear on each Interest Payment Date.

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment of principal is improperly withheld or refused, in which event interest shall continue to accrue (after as well as before judgment) at the Interest Rate in the manner provided in this Condition 4 to the Relevant Date (as defined in Condition 7).

The amount of interest payable shall be determined in accordance with Condition 4(g).

(b) Business Day Convention

If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (i) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such date shall be brought forward to the immediately preceding Business Day and (B) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (ii) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (iii) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (iv) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(c) Interest Rate on Floating Rate Notes

If the Interest Rate is specified as being Floating Rate, the Interest Rate for each Interest Accrual Period shall be determined by the Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of each Interest Accrual Period in accordance with the following:

(i) if the Primary Source for the Floating Rate is a Page, subject as provided below, the Interest Rate shall be:

(A) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity); or

(B) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,

in each case appearing on such Page at the Relevant Time on the Interest Determination Date;

(ii) if the Primary Source for the Floating Rate is Reference Banks or if sub-paragraph (i)(A) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (i)(B) above applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Interest Rate shall be the arithmetic mean of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent;

- (iii) if paragraph (ii) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates, subject as provided below, the Interest Rate shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of a Representative Amount of the Relevant Currency that at least two out of five leading banks selected by the Calculation Agent in the principal financial centre of the country of the Relevant Currency or, if the Relevant Currency is euro, in the Eurozone (the "Principal Financial Centre") are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (x) to leading banks carrying on business in Europe, or (if the Calculation Agent determines that fewer than two of such banks are so quoting to leading banks in Europe) (y) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Interest Rate shall be the Interest Rate determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Interest Rate applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

Where Linear Interpolation is specified hereon as applicable in respect of an Interest Accrual Period, the Interest Rate for such Interest Accrual Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the Relevant Rate, one of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Accrual Period and the other of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Accrual Period provided however that if there is no rate available for the period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(d) Interest Rate on Zero Coupon Notes

Where a Note the Interest Rate of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Redemption Amount of such Note. As from the Maturity Date, the Interest Rate for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as defined in Condition 5(b)).

(e) Interest Rate on Reset Notes

- (C) for each Subsequent Reset Period thereafter (if any), at the rate per annum equal to the relevant Subsequent Reset Rate of Interest,

in each case, payable in arrear on each Interest Payment Date.

- (ii) If Mid-Swap Rate is specified hereon and on any Reset Determination Date the Relevant Screen Page is not available or the Mid-Swap Rate does not appear on the Relevant Screen Page, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its Mid-Market Swap Rate Quotation as at approximately 11.00 a.m. in the principal financial centre of the Relevant Currency on the Reset Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with Mid-Market Swap Rate Quotations, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) for the relevant Reset Period shall be the sum of the arithmetic mean (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the relevant Mid-Market Swap Rate Quotations and the First Margin or Subsequent Margin (as applicable), all as determined by the Calculation Agent. If on any Reset Determination Date only one or none of the Reference Banks provides the Calculation Agent with a Mid-Market Swap Rate Quotation as provided in the foregoing provisions of this paragraph, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be determined to be the Interest

Rate as at the last preceding Reset Date or, in the case of the first Reset Determination Date, the First Reset Rate of Interest shall be the Initial Rate of Interest.

(0.0005 per cent. being rounded upwards)) of the bid and offered prices of such Benchmark Gilt quoted by the Reference Banks at 3.00 p.m. (London time) on the relevant Reset Determination Date on a dealing basis for settlement on the next following dealing day in London. (h) *Determination and Publication of Interest Rates and Redemption Amounts*

As soon as practicable after the Relevant Time on each Interest Determination Date or Reset Determination Date or such other time on such date as the Calculation Agent may be required to calculate any Redemption Amount, obtain any quotation or make any determination or calculation, it shall determine the Interest Rate and calculate the Interest Amount for the relevant Interest Accrual Period (or, if determining the First Reset Rate of Interest or a Subsequent Reset Rate of Interest in respect of Reset Notes, the Interest Amount for each Interest Accrual Period falling within the relevant Reset Period),

Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 4(b), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made with the consent of the Trustee by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 9, the accrued interest and the Interest Rate payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Interest Rate or the Interest Amount so calculated need be made unless the Trustee otherwise requires. The determination of each Interest Rate, Interest Amount and Redemption Amount, the obtaining of each quote and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

(i) Determination or Calculation by Trustee

If the Calculation Agent does not at any time for any reason determine or calculate the Interest Rate for an Interest Accrual Period or Reset Period or any Interest Amount or Redemption Amount, the Trustee shall do so (or shall appoint an agent on its behalf to do so) and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the Trustee shall apply the foregoing provisions of this Condition, with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.

Before the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee a certificate signed by two Directors of the Issuer stating that (a) the obligation referred to in (i) above cannot be avoided by the Issuer taking reasonable measures available to it and (b) the conditions set out in (iii) below have been satisfied, and the Trustee shall be entitled to accept such certificate as sufficient evidence of the satisfaction of the condition precedent set out in (ii) above and of the conditions set out in (iii) below, in which event it shall be conclusive and binding on Noteholders and Couponholders, and

(iii) provided that the Issuer may only redeem Notes pursuant to this Condition 5(c) if the Issuer demonstrates to the satisfaction of the PRA that the circumstance that entitles it to redeem the Notes pursuant to this Condition 5(c) is a material change to the tax treatment of the Notes and was not reasonably foreseeable to it on the date on which agreement is reached to issue the first Tranche of the Notes and to the extent that such redemption is not prohibited by CRD IV.

(d) Redemption at the Option of the Issuer and Exercise of Issuer's Options

(iii) Upon expiry of such notice the Issuer shall redeem the Notes, provided that the Issuer may only redeem Notes pursuant to this Condition 5(e) if the Issuer demonstrates to the satisfaction of the PRA that the circumstance that entitles it to redeem the Notes pursuant to this Condition 5(e) was not reasonably foreseeable to it on the date on which agreement is reached to issue the first Tranche of the Notes and to the extent that such redemption of the Notes is not prohibited by CRD IV.

(iii) Upon the due date for redemption of any Bearer Note, any unexpired Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.

(iv) Where any Bearer Note that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any Bearer Note is presented for redemption without any unexpired Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.

(v) If the due date for redemption of any Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Bearer Note or Certificate representing it, as the case may be. (ii) (in the case of a payment in euro) which is a TARGET Business Day; or

(iii) (in the case of a payment in Renminbi) on which banks and foreign exchange markets are open for business and settlement of Renminbi payments in Hong Kong.

(i) Inconvertibility, Non-transferability or Illiquidity

Notwithstanding any other provision in these Conditions, if by reason of Inconvertibility, Non-transferability or Illiquidity, the relevant Issuer is not able, or it would be impracticable for it, to satisfy any payment due under the Notes or the Coupons in Renminbi, the relevant Issuer shall, on giving not less than five and not more than 30 days' irrevocable notice to the Noteholders prior to the due date for the relevant payment, settle such payment in the Relevant Currency on the due date at the Relevant Currency Equivalent of the relevant Renminbi denominated amount.

“*Non-transferability*” means the occurrence of any event that makes it impossible for the relevant Issuer to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong, other than where such impossibility is due solely to the failure of the relevant Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the date on which agreement is reached to issue the first Tranche of the Notes and it is impossible for the relevant Issuer due to an event beyond its control, to comply with such law, rule or regulation);

“*Rate Calculation Business Day*” means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Hong Kong and the principal financial centre of the Relevant Currency;

7. Taxation

All payments of principal and interest by or on behalf of the Issuer in respect of the Notes and the Coupons shall be made free and clear of, and without withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of [the United Kingdom]¹ [Hong Kong]² or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer shall pay such additional amounts as shall result in receipt by the Noteholders and Couponholders (after the withholding or deduction) of such an amount as would have been received by them in respect of the Notes or, as the case may be, Coupons in the absence of the withholding or deduction; except that no such additional amounts shall be payable with respect of any Note or Coupon:

(a) to, or to a third party on behalf of, a holder of such Note or Coupon who is liable to such taxes, duties, assessments or governmental charges by reason of his having some connection with [the United Kingdom]¹ [Hong Kong]² other than the mere holding of the Note or Coupon; or

(e) (except in the case of Registered Notes) presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the European Union.

In addition, any amounts to be paid on the Notes or the Coupons will be paid net of any deduction or withholding arising out of the Issuer's entry into an agreement pursuant to section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended, and such Issuer's compliance with an intergovernmental agreement executed to give effect to Sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986, as amended, or laws, regulations and directives implementing such agreement, and no additional amounts will be required to be paid on account of any such deduction or withholding.

As used in these Conditions, "Relevant Date" in respect of any Note or Coupon means the date on which payment first becomes due or if any amount is improperly withheld or refused the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note (or relative Certificate) or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. 8. Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons (which, for this purpose, shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them save in respect of Withheld Amounts (as defined in Condition 9). Claims in respect of principal comprised in a Withheld Amount and claims in respect of interest comprised in, or accrued on, a Withheld Amount will, in the case of such principal, become void 10 years and, in the case of such interest, become void five years after the due date for payment as specified in Condition 9 or, if the full amount of the moneys payable has not been duly received by the Issuing and Paying Agent, another Paying Agent, the Registrar, a Transfer Agent or the Trustee, as the case may be, on or prior to such date, the date on which notice is given in accordance with Condition 13 that the relevant part of such moneys has been so received.

9. Events of Default

(a) Events of Default in respect of Senior Notes

In the case of Senior Notes, if any of the following events (“Events of Default”) occurs and is continuing, the Trustee at its discretion may, and if so requested by holders of at least one-fifth in principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution shall, give notice to the Issuer that the Notes are, and they shall immediately become, due and payable at their Redemption Amount together with accrued interest:

(i) Non-Payment: default is made for more than 14 days in the payment on the due date of interest or principal in respect of any of the Notes. The Issuer shall not be in default, however, if during the 14 days' grace period, it satisfies the Trustee that such sums (“Withheld Amounts”) were not paid (A) in order to comply with any fiscal or other law or regulation or with the order of any court of competent jurisdiction, in each case applicable to such payment, the Issuer, the relevant Paying Agent, Transfer Agent, or the holder of any Note or Coupon or (B) (subject as provided in the Trust Deed) in case of doubt as to the validity or applicability of any such law, regulation or order, in accordance with advice as to such validity or applicability given at any time during the said period of 14 days by independent legal advisers acceptable to the Trustee; or

(ii) Breach of Other Obligations: the Issuer does not perform or comply with any one or more of its other obligations under the Notes or the Trust Deed, which default has not been remedied within 30 days after notice of such default shall have been given to the Issuer by the Trustee (except where such default is not, in the reasonable opinion of the Trustee after consultation with the Issuer, capable of remedy, in which case no such notice as is mentioned above will be required); or

(iii) Enforcement Proceedings: a distress, attachment, execution or other legal process is levied, enforced or sued out on or against the whole or a material (in the opinion of the Trustee) part of the property, assets or revenues of the Issuer and is not discharged or stayed within 90 days; or

(iv) Insolvency: the Issuer is (or is deemed by law or a court of competent jurisdiction to be) insolvent or bankrupt or unable to pay its debts (within the meaning of [section 123(1) or (2) of the Insolvency Act 1986]¹ [section 178(1) of the Companies Ordinance]²) as they fall due, stops, suspends or threatens to stop or suspend payment of all or a material (in the opinion of the Trustee) part of its debts, makes a general assignment or an arrangement or composition with or for the benefit of all its creditors or a moratorium is agreed or declared in respect of all or a material (in the opinion of the Trustee) part of the debts of the Issuer; or

(v) Winding-up: an administrator is appointed in relation to the Issuer, an order is made or an effective resolution passed for the winding-up or dissolution or administration of the Issuer, or the Issuer shall apply or petition for a winding-up or administration order in respect of itself or ceases or threatens through an official action of its board of directors to cease to carry on all or a substantial (in the opinion of the Trustee) part of its business or operations, in each case except for the purpose of and followed by a reconstruction, amalgamation, reorganisation, merger or consolidation on terms previously approved by the Trustee in writing or by an Extraordinary Resolution of the Noteholders,

provided that in the case of any of the events referred to in paragraph (ii) above the Trustee shall have certified that in its opinion such event is materially prejudicial to the interests of the Noteholders.

(b) Events of Default in respect of Dated Subordinated Notes

(i) If, otherwise than for the purposes of a reconstruction, amalgamation, reorganisation, merger or consolidation on terms previously approved by the Trustee or by an Extraordinary Resolution of the Noteholders, an order is made or an effective resolution is passed for the winding-up of the Issuer, the Trustee may, subject as provided below, at its discretion, give notice to the Issuer that the Dated Subordinated Notes are, and they shall accordingly thereby forthwith become, immediately due and repayable at their Redemption Amount, plus accrued interest as provided in the Trust Deed.

(ii) If default is made in the payment of principal or interest due in respect of the Dated Subordinated Notes and such default continues for a period of 14 days, the Trustee may, subject as provided below, at its discretion and without further notice, institute proceedings in [England]¹ [Hong Kong]² (but not elsewhere) for the winding-up of the Issuer provided that the Issuer shall not be in default if during the 14 days' grace period, it satisfies the Trustee that Withheld Amounts were not paid (A) in order to comply with any fiscal or other law, regulation or order of any court or competent jurisdiction, in each case applicable to such payment, the Issuer, the relevant Paying Agent, Transfer Agent or the holder of any Note or Coupon or (B) (subject as provided in the Trust Deed) in case of doubt as to the validity or applicability of any such law, regulation or order, in accordance with advice as to such validity or applicability given at any time during the said 14 days' grace period by independent legal advisers acceptable to the Trustee.

(c) Remedies

(i) In the case of Dated Subordinated Notes, without prejudice to paragraph (b), if the Issuer fails to perform, observe or comply with any obligation, condition or provision relating to such Notes binding on it under these Conditions (other than any payment obligations of the Issuer arising from the Notes, the Coupons or the Trust Deed including, without limitation, payment of principal, premium or interest in respect of the Notes or the Coupons and any damages awarded for breach of obligations) the Trustee may, subject as provided below, at its discretion and without further notice, institute such proceedings against the Issuer as it may think fit to enforce such obligation, condition or provision provided that the Issuer shall not as a consequence of such proceedings be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.

(ii) In the case of Dated Subordinated Notes, subject to applicable laws, no remedy (including the exercise of any right of set-off or analogous event) other than those provided for in paragraph (b) and paragraph (c)(i) above or submitting a claim in the winding-up of the Issuer will be available to the Trustee or the holders of Notes and/or Coupons.

(d) Enforcement

The Trustee need not take any such action or proceedings as referred to in paragraphs (a), (b), and/or (c)(i) above unless (i) it shall have been so directed by an Extraordinary Resolution or so requested in writing by Noteholders holding at least one-fifth in principal amount of the Notes then outstanding and (ii) it shall have been indemnified to its satisfaction. No Noteholder or Couponholder may proceed directly against the Issuer or submit a claim in the winding-up of the Issuer unless the Trustee having become bound so to proceed or being able to submit such a claim, fails to do so in each case within a reasonable time and such failure is continuing. In such a case the relevant Noteholder or Couponholder may, on giving an indemnity satisfactory to the Trustee, in the name of the Trustee (but not otherwise), himself institute proceedings against the Issuer and/or submit a claim in the winding-up of the Issuer, but only to the same extent (but not further or otherwise) that the Trustee would have been entitled to do so in respect of his Notes and/or Coupons.

(e) Withheld Amounts

If lawful, Withheld Amounts or sums equal to Withheld Amounts shall be placed promptly on interest-bearing deposit all as more particularly described in the Trust Deed. If subsequently it shall be or become lawful to pay any Withheld Amount to the relevant Noteholders or Couponholders or if such payment is possible as soon as any doubt as to the validity or applicability of any such law, regulation or order as is mentioned in Condition 9(a)(i) or 9(b)(ii) (as the case may be) above is resolved, notice shall be given in accordance with Condition 13. The notice shall specify the date (which shall be no later than seven days after the earliest date thereafter upon which such interest-bearing deposit falls or may (without penalty) be called due for repayment) on and after which payment in full of such Withheld Amounts shall be made. On such date, the Issuer shall be bound to pay such Withheld Amount together with interest accrued on it. For the purposes of Conditions 9(a)(i) or 9(b)(ii), as the case may be, this date shall be the Relevant Date for such sums. The obligations of the Issuer under this paragraph (e) shall be in lieu of any other remedy against it in respect of Withheld Amounts. Payment will be made subject to applicable laws, regulations or court orders, but, in the case of any payment of any Withheld Amounts, without prejudice to Condition 7. Interest accrued on any Withheld Amount shall be paid net of any taxes required by applicable law to be withheld or deducted and the Issuer shall not be obliged to pay any additional amount in respect of any such withholding or deduction.

10. Meetings of Noteholders, Modification, Waiver and Substitution

(a) Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of these Conditions or any provisions of the Trust Deed. Such a meeting may be convened by Noteholders holding not less than 10 per cent. in principal amount of the Notes for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in principal amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the principal amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes or any date for payment of interest or Interest Amounts on the Notes, (ii) to reduce or cancel the principal amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest

Amount in respect of the Notes, (iv) if a Minimum and/or a Maximum Interest Rate or Redemption Amount is shown hereon, to reduce any such Minimum and/or Maximum, (v) to vary any method of, or basis for, calculating the Redemption Amount, including the method of calculating the Amortised Face Amount, (vi) to vary the currency or currencies of payment or denomination of the Notes, (vii) to take any steps that as specified hereon may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply, or (viii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in principal amount of the Notes for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Noteholders (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders.

(b) Modification of the Trust Deed

The Trustee may agree, without the consent of the Noteholders or Couponholders, to (i) any modification of any of these Conditions or any of the provisions of the Trust Deed that is, in its opinion, of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification (except as mentioned in the Trust Deed), and any waiver or authorisation of any breach or proposed breach, of any of these Conditions or any of the provisions of the Trust Deed that is in the opinion of the Trustee not materially prejudicial to the interests of the Noteholders. Any such modification, authorisation or waiver shall be binding on the Noteholders and the Couponholders and, if the Trustee so requires, such modification shall be notified to the Noteholders as soon as practicable in accordance with Condition 13. In the case of any Dated Subordinated Notes, no modification to these Conditions or any other provisions of the Trust Deed shall become effective unless the relevant Issuer shall have given at least one month's prior written notice to, and received no objection from, the PRA (or such other period of notice as the PRA may from time to time require or accept and, in any event, provided that there is a requirement to give such notice).

(c) Substitution

The Trustee (if it is satisfied that to do so would not be materially prejudicial to the interests of Noteholders or Couponholders) may agree, if requested by the Issuer and subject to such amendment of the Trust Deed and such other conditions as the Trustee may reasonably require, but without the consent of the Noteholders or the Couponholders, to the substitution of a subsidiary of the Issuer or a holding company of the Issuer or another subsidiary of any such holding company in place of the Issuer as principal debtor under the Trust Deed, the Notes, the Coupons and the Talons and as a party to the Agency Agreement and so that, in the case of the Dated Subordinated Notes, the claims of the Noteholders or the Couponholders may, in the case of the substitution of a holding company of the Issuer in the place of the Issuer, also be subordinated to the rights of Senior Creditors of that holding company but not further or otherwise.

In the case of a substitution under this Condition 10, the Trustee may agree, without the consent of the Noteholders or Couponholders, to a change of law governing the Notes, and/or Coupons and/or the Trust Deed insofar as it relates to such Notes provided that such change would not in the opinion of the Trustee be materially prejudicial to the interests of holders of the Notes.

(d) Entitlement of the Trustee

In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Trustee shall have regard to the interests of the Noteholders as a class and shall not have regard to the consequences of such exercise for individual Noteholders or Couponholders and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders.

11. Replacement of Notes, Certificates, Coupons and Talons

If a Note, Certificate, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange regulations, at the specified office of the Issuing and Paying Agent (in the case of Bearer Notes, Coupons or Talons) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent (in the case of Registered Notes), as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates,

Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Coupons or Talons must be surrendered before replacements will be issued.

12. Further Issues

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further securities either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the outstanding securities of any series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition and forming a single series with the Notes. Any further securities forming a single series with the outstanding securities of any series (including the Notes) constituted by the Trust Deed or any deed supplemental to it shall, and any other securities may (with the consent of the Trustee), be constituted by the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of securities of other series where the Trustee so decides.

13. Notices

Notices to the holders of Registered Notes shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. Notices to the holders of Bearer Notes shall be valid if published in a daily newspaper of general circulation in [London (which is expected to be the *Financial Times*)]¹ [Hong Kong (which is expected to be the *South China Morning Post*)]². If in the opinion of the Trustee any such publication is not practicable, notice shall be validly given if published in another leading daily English language newspaper with general circulation in [Europe]¹ [Hong Kong]². Any such notice (other than to holders of Registered Notes as specified above) shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition.

14. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility including provisions relieving it from taking proceedings unless indemnified to its satisfaction. The Trustee is entitled to enter into business transactions with the Issuer and any entity related to the Issuer without accounting for any profit.

15. Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes or the Trust Deed by virtue of the Contracts (Rights of Third Parties) Act 1999 but this does not affect any right or remedy of any person which exists or is available apart from that Act.

16. Governing Law and Jurisdiction

(a) The Trust Deed, the Notes, the Coupons and the Talons, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, English law[, save for Condition 3 and any non-contractual obligations arising out of or in connection with it, which is governed by, and shall be construed in accordance with, Hong Kong law]².

(b) The Courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Trust Deed, the Notes, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with the Trust Deed, the Notes, Coupons or Talons [{"Proceedings"}]² may be brought in such courts. [The Issuer has in the Trust Deed irrevocably submitted to the jurisdiction of such courts.]²

[(c) Service of Process: The Issuer has irrevocably appointed SCB to receive, for it and on its behalf, service of process in any Proceedings in England.]²

1 Include for Notes issued by SCPLC or SCB.

2 Include for Notes issued by SCBHK.

3 Include for Notes issued by SCB.

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Initial Issue of Notes

If the Global Notes or the Global Certificates are stated in the applicable Final Terms to be issued in NGN form or to be held under the NSS (as the case may be), the Global Notes or the Global Certificates will be delivered on or prior to the original issue date of the Tranche to a Common Safekeeper. Depositing the Global Notes with the Common Safekeeper does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria. The relevant Issuer will notify the Common Safekeeper, on or before the relevant issue date, if Global Notes or Global Certificates are issued in a form which is intended to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations.

Global Notes which are issued in CGN form and Global Certificates which are not held under the NSS may be delivered on or prior to the original issue date of the Tranche to a Common Depositary, lodged with a sub-custodian for the CMU Service or, in the case of a Restricted Global Certificate, deposited with a custodian for DTC.

In the case of a Global Note which is a CGN or a Global Certificate which is not held under the NSS, upon the initial deposit of a Global Note with a Common Depositary or deposit of a Global Note with a sub-custodian for the CMU Service or registration of Registered Notes in the name of any nominee for Euroclear, Clearstream, Luxembourg or DTC and delivery of the relative Global Certificate to the Common Depositary or a custodian for DTC (as the case may be), Euroclear, Clearstream, Luxembourg, DTC or the CMU Service (as the case may be) will credit each subscriber with a principal amount of Notes equal to the principal amount thereof for which it has subscribed and paid.

If the Global Note is a NGN, the nominal amount of the Notes shall be the aggregate amount from time to time entered in the records of Euroclear or Clearstream, Luxembourg. The records of such clearing system shall be conclusive evidence of the nominal amount of Notes represented by the Global Note and a statement issued by such clearing system at any time shall be conclusive evidence of the records of the relevant clearing system at that time.

Notes that are initially deposited with the Common Depositary or Common Safekeeper may also be credited to the accounts of subscribers with (if indicated in the relevant Final Terms) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such other clearing systems. Conversely, Notes that are initially deposited with any other clearing system may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg or other clearing systems.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date will be made against presentation of the Temporary Global Note if in CGN form only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and/or the CMU Lodging Agent and (in the case of a Temporary Global Note delivered to a Common Depositary or Common Safekeeper for Euroclear and Clearstream, Luxembourg) Euroclear and/or Clearstream, Luxembourg, as applicable, have/has given a like certification (based on the certifications it has received) to the Issuing and Paying Agent.

Relationship of Accountholders with Clearing Systems

Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg, DTC or any other permitted clearing system ("Alternative Clearing System") as the holder of a Note represented by a Global Note or a Global Certificate must look solely to Euroclear, Clearstream, Luxembourg, DTC or any such Alternative Clearing System (as the case may be) for his share of each payment made by the relevant Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes or Global Certificates, subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg, DTC or such Alternative Clearing System (as the case may be). Such persons shall have no claim directly against the relevant Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Note or Global Certificate and such obligations of such Issuer will be discharged by payment to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

If a Global Note is lodged with the CMU Service, the person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU Service in accordance with the CMU Rules as notified by the CMU Service to the CMU Lodging Agent in a relevant CMU Instrument Position Report or any other

relevant notification by the CMU Service (which notification, in either case, shall be conclusive evidence of the records of the CMU Service save in the case of manifest error) shall be the only person(s) entitled to receive payments in respect of Notes represented by such Global Note and the relevant Issuer will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU Service in respect of each amount so paid. Each of the persons shown in the records of the CMU Service, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to the CMU Lodging Agent for his share of each payment so made by the relevant Issuer in respect of such Global Note.

Exchange

1. Temporary Global Notes

Each Temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date:

1.1 if the relevant Final Terms indicates that such Global Note is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable (as to which, see "Overview of the Programme/Selling Restrictions"), in whole, but not in part, for the Definitive Notes defined and described below; and

1.2 otherwise, in whole or in part, upon certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement for interests in a Permanent Global Note or, if so provided in the relevant Final Terms, for Definitive Notes, provided that the CMU Service may require that any such exchange for interests in a Permanent Global Note is made in whole and not in part and, in such event, no such exchange will be effected until all relevant accountholders (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) have so certified.

Each Temporary Global Note that is also an Exchangeable Bearer Note will be exchangeable for Registered Notes in accordance with the Conditions in addition to any Permanent Global Note or Definitive Notes for which it may be exchangeable and, before its Exchange Date, will also be exchangeable in whole or in part for Registered Notes only.

If the relevant Final Terms indicates that the Temporary Global Note may be exchanged for Definitive Notes, trading of such Notes in Euroclear and Clearstream, Luxembourg will only be permitted in amounts which are an integral multiple of the minimum Specified Denomination.

2. Permanent Global Notes

Each Permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under "Partial Exchange of Permanent Global Notes", in part for Definitive Notes or, in the case of 2.3 below, Registered Notes:

2.1 unless principal in respect of any Notes is not paid when due, by the relevant Issuer giving notice to the Noteholders and the Issuing and Paying Agent (or, in the case of Notes lodged with the CMU Service ("CMU Notes"), the CMU Lodging Agent) of its intention to effect such exchange (save that no such exchange shall be possible where the Notes have a minimum Denomination plus a higher integral multiple of a smaller amount);

2.2 if the Permanent Global Note was issued in respect of a D Rules Note or if the relevant Final Terms provides that such Global Note is exchangeable at the request of the holder, by the holder giving notice to the Issuing and Paying Agent (or, in the case of CMU Notes, the CMU Lodging Agent) of its election for such exchange (save that no such exchange shall be possible where the Notes have a minimum Denomination plus a higher integral multiple of a smaller amount);

2.3 if the Permanent Global Note is an Exchangeable Bearer Note, by the holder giving notice to the Issuing and Paying Agent of its election to exchange the whole or a part of such Global Note for Registered Notes; and

2.4 if the Permanent Global Note is held on behalf of Euroclear or Clearstream, Luxembourg or the CMU Service or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so, by the holder giving notice to the Issuing and Paying Agent (or, in the case of CMU Notes, the CMU Lodging Agent) of its election for such exchange.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg or the CMU Service, as the case may be.

In the event that a Permanent Global Note is exchanged for Definitive Notes, such Definitive Notes shall be issued in Specified Denomination(s) only.

3. Permanent Global Certificates

If the Final Terms state that the Notes are to be represented by a permanent Global Certificate on issue, transfers of the holding of Notes represented by any Global Certificate pursuant to Condition 2(b) may only be made in part:

3.1 if in the case of Restricted Notes, DTC notifies the relevant Issuer that it is no longer willing or able to discharge properly its responsibilities as depository with respect to the Restricted Global Certificate, or ceases to be a “clearing agency” registered under the Exchange Act, or is at any time no longer eligible to act as such and such Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility on the part of DTC; or

3.2 if in the case of Unrestricted Notes, Euroclear or Clearstream, Luxembourg or the CMU Service is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or

3.3 if principal in respect of any Notes is not paid when due; or

3.4 with the consent of the relevant Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to 3.1 or 3.2 or 3.3 above, the Registered Holder has given the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer.

4. Partial Exchange of Permanent Global Notes

For so long as a Permanent Global Note is held on behalf of a clearing system and the rules of that clearing system permit, such Permanent Global Note will be exchangeable in part on one or more occasions for Registered Notes if the Permanent Global Note is an Exchangeable Bearer Note and the part submitted for exchange is to be exchanged for Registered Notes.

5. Delivery of Notes

If the Global Note is a CGN, on or after any due date for exchange, the holder of a Global Note may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Issuing and Paying Agent (or, in the case of CMU Notes, the CMU Lodging Agent). In exchange for any Global Note, or the part thereof to be exchanged, the relevant Issuer will (i) in the case of a Temporary Global Note exchangeable for a Permanent Global Note, deliver, or procure the delivery of, a Permanent Global Note in an aggregate principal amount equal to that of the whole or that part of a Temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a Permanent Global Note to reflect such exchange or (ii) in the case of a Global Note exchangeable for Definitive Notes or Registered Notes, deliver, or procure the delivery of, an equal aggregate principal amount of duly executed and authenticated Definitive Notes and/or Certificates, as the case may be or, if the Global Note is an NGN, the relevant Issuer will procure that details of such exchange be entered *pro rata* in the records of the relevant clearing system. In this document, “Definitive Notes” means, in relation to any Global Note, the definitive Bearer Notes for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons in respect of interest that has not already been paid on the Global Note and, if applicable, a Talon). Definitive Notes will be security printed and Certificates will be printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the Schedules to the Trust Deed. On exchange in full of each Permanent Global Note, the relevant Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

6. Exchange Date

“Exchange Date” means, in relation to a Temporary Global Note, the day falling after the expiry of 40 days after its issue date and, in relation to a Permanent Global Note, a day falling not less than 60 days, or in the case of an exchange for Registered Notes five days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Issuing and Paying Agent is located and in the city in which the relevant clearing system is located.

Amendment to Conditions

The Temporary Global Notes, Permanent Global Notes and Global Certificates contain provisions that apply to the Notes that they represent, some of which modify the effect of the terms and conditions of the Notes set out in this document. The following is a summary of certain of those provisions:

1. Payments

No payment falling due after the Exchange Date will be made on any Global Note unless exchange for an interest in a Permanent Global Note or for Definitive Notes or Registered Notes is improperly withheld or refused. Payments on any Temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-U.S. beneficial ownership in the form set out in the Agency Agreement. All payments in respect of CGNs represented by a Global Note will be made, if in CGN form, against presentation for endorsement and, if no further payment falls to be made in respect of the Notes, surrender of that Global Note to or to the order of the Issuing and Paying Agent or such other Paying Agent as shall have been notified to the Noteholders for such purpose. If the Global Note is a CGN, a record of each payment so made will be endorsed on each Global Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes. Conditions 6(e)(vii) and 7(e), in the case of Notes issued by SCPLC or SCB, or 6(e)(vi) and 7(e), in the case of Notes issued by SCBHK, will apply to Definitive Notes only.

In respect of a Global Note held through the CMU Service, any payments of principal, interest (if any) or any other amounts shall be made to the person(s) for whose account(s) interests in the relevant Global Note are credited (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) and, save in the case of final payment, no presentation of the relevant Global Note shall be required for such purpose.

If the Global Note is a NGN or if the Global Certificate is held under the NSS, the relevant Issuer shall procure that details of each such payment shall be entered *pro rata* in the records of the relevant clearing system and in the case of payments of principal, the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the Global Note or the Global Certificate will be reduced accordingly. Payments under a NGN will be made to its holder. Each payment so made will discharge the relevant Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge. For the purpose of any payments made in respect of a Global Note, the relevant place of presentation shall be disregarded in the definition of "business day" set out in Condition 6(h) (*Non-Business Days*).

All payments in respect of Notes represented by a Global Certificate will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Clearing System Business Day immediately prior to the date for payment (the "Record Date"), where Clearing System Business Day means Monday to Friday inclusive except 25 December and 1 January.

2. Prescription

Claims against the relevant Issuer in respect of Notes that are represented by a Permanent Global Note will become void unless it is presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date (as defined in Condition 7).

3. Meetings

The holder of a Permanent Global Note or of the Notes represented by a Global Certificate shall (unless such Permanent Global Note or Global Certificate represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of Noteholders and, at any such meeting, the holder of a Permanent Global Note shall be treated as having one vote in respect of each minimum integral currency unit of the specified Currency of the Notes. (All holders of Registered Notes are entitled to one vote in respect of each Note comprising such Noteholder's holding, whether or not represented by a Global Certificate.)

4. Cancellation

Cancellation of any Note represented by a Permanent Global Note that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the principal amount of the relevant Permanent Global Note.

5. Purchase

Notes represented by a Permanent Global Note may only be purchased by the relevant Issuer or any of its subsidiaries or any holding company (in the case of SCPLC or SCB, within the meaning of section 1159 of the Companies Act 2006 and in the case of SCBHK, within the meaning of Section 2 of the Companies Ordinance) or any other subsidiary of such holding company if they are purchased together with the rights to receive all future payments of interest thereon.

6. Issuer's Option

Any option of the relevant Issuer provided for in the Conditions of any Notes while such Notes are represented by a Permanent Global Note shall be exercised by the relevant Issuer giving notice to the Noteholders within the time limits set out in and containing the information required by the Conditions, except that the notice shall not be required to contain the certificate numbers of Bearer Notes drawn, or in the case of Registered Notes shall not be required to specify the nominal amount of Registered Notes drawn and the holder(s) of such Registered Note, in the case of a partial exercise of an option and accordingly no drawing of Notes shall be required. In the event that any option of the relevant Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with a clearing system in respect of the Notes will be governed by the standard procedures of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion), the CMU Service or any other clearing system (as the case may be).

7. Noteholders' Options

Any option of the Noteholders provided for in the Conditions of any Notes while such Notes are represented by a Permanent Global Note may be exercised by the holder of the Permanent Global Note giving notice to the Issuing and Paying Agent (or, in the case of CMU Notes, the CMU Lodging Agent) within the time limits relating to the deposit of Notes with a Paying Agent set out in the Conditions substantially in the form of the notice available from any Paying Agent, except that the notice shall not be required to contain the certificate numbers of the Bearer Notes, or in the case of Registered Notes shall not be required to specify the nominal amount of Registered Notes and the holder(s) of such Registered Notes, in respect of which the option has been exercised, and stating the principal amount of Notes in respect of which the option is exercised and at the same time where the Permanent Global Note is a CGN presenting the Permanent Global Note to the Issuing and Paying Agent, or to a Paying Agent acting on behalf of the Issuing and Paying Agent (or, in the case of CMU Notes, the CMU Lodging Agent), for notation. Where the Global Note is a NGN or when the Global Certificate is held under the NSS, the relevant Issuer shall procure that details of such exercise shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in those records will be reduced accordingly.

8. NGN Nominal Amount

Where the Global Note is a NGN, the relevant Issuer shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, in addition to the circumstances set out above shall be entered in the records of the relevant clearing systems and upon any such entry being made, the nominal amount of the Notes represented by such Global Note shall, in respect of payments of principal, be adjusted accordingly.

9. Trustee's Powers

In considering the interests of Noteholders while any Global Note is held on behalf of, or Registered Notes are registered in the name of any nominee for, a clearing system, the Trustee may have regard to any information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its accountholders with entitlements to such Global Note or Registered Notes and may consider such interests as if such accountholders were the holders of the Notes represented by such Global Note or Global Certificate.

10. Notices

So long as any Notes are represented by a Global Note and such Global Note is held on behalf of (i) Euroclear and/or Clearstream, Luxembourg or any other clearing system (except as provided in (ii) below), notices to the holders of Notes of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note or (ii) the CMU Service, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to the persons shown in a CMU Instrument Position Report issued by the CMU Service on the second Business Day (as defined in Condition 4(j)) preceding the date of despatch of such notice as holding interests in the relevant Global Note.

11. Eurosystem eligibility

Where the Global Notes issued in respect of any Tranche are in NGN form or are intended to be held under the NSS, the relevant Issuer will also indicate whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon the European Central Bank (the "ECB") being satisfied that the Eurosystem eligibility criteria have been met. Furthermore, any indication that the Global Notes are not intended to be so held may be the case at the date of the applicable Final Terms. However, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them, the Notes may then be deposited with one of the ICSDs as common safekeeper and, in the case of Registered Notes, registered in the name of a nominee of one of the ICSDs acting as common safekeeper. Similarly, this would not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

USE OF PROCEEDS

The net proceeds from the issue of each Tranche of Notes will be used for the general business purposes of the Group.

THE GROUP

Set out on pages 91 to 108 of this document is an extract of the Financial Review extracted without material adjustment from the unaudited 2014 interim results of the Group for the six months ended 30 June 2014, announced on 6 August 2014.

The following financial review provides an analysis of:

- Group income statement
- Profit of the Group's four client segments, split by geographic region
- Product income, split by client segment
- Profit for each geographic

This financial review also:

- Reflects the restatement of prior period amounts for the four new client segments and the new geographic regions (see note 29 on page 146 of the Group's H1 2014 published accounts for further details);
- Excludes the impact of a \$15 million loss relating to an own credit adjustment (OCA) (six months to 30 June 2013: gain of \$237 million; six months to 31 December 2013: loss of \$131 million) and the \$1 billion goodwill impairment in the six months to 30 June 2013 to better reflect the underlying performance of the Group

The following commentary reflects movements compared to the six months to 30 June 2013 (H1 2013) unless otherwise indicated.

Group summary

The Group's performance for the six months to 30 June 2014 (H1 2014) has been impacted by a challenging external environment, with operating income down \$482 million, or 5 per cent., to \$9,269 million compared to H1 2013 although income rose 4 per cent. compared to the six months to 31 December 2013 (H2 2013).

The normalised cost to income ratio was higher at 54.7 per cent. compared to 51.4 per cent. in H1 2013. Costs continue to be tightly managed, growing only 1 per cent. despite continued investments, increased regulatory and compliance costs and inflationary pressures.

Profit before taxation fell by \$820 million, or 20 per cent., to \$3,268 million but was up 14 per cent. compared to H2 2013.

Profit before taxation on a statutory basis was down 2 per cent. at \$3,253 million.

Normalised earnings per share fell 21 per cent. to 96.5 cents. Further details of normalised items and the basic and diluted earnings per share are provided in note 11 on page 115 of the Group's H1 2014 published accounts.

In accordance with accounting requirements, the cost of the UK bank levy is charged in the second half of the year. Note 5 on page 111 of the Group's H1 2014 published accounts provides further details of the UK bank levy together with the impact, on a pro-forma basis, if the levy had been recognised in these financial statements on a proportionate basis.

The Group remains focused on the drivers of value creation for its shareholders and continues to build out its franchise to take advantage of the opportunities that the Group sees across its footprint in Asia, Africa and the Middle East.

Balance sheet

The Group's balance sheet remains strong and well diversified with limited exposure to problem asset classes (which is further discussed in the Risk Review on page 48 of the Group's H1 2014 published accounts).

Asset quality remains good although the Group remains watchful in India and of commodity exposures in general. 79 per cent. of the Retail loan book is fully secured and over 60 per cent. of Corporate and Institutional (C&I) client loans have a maturity of less than one year and are well collateralised.

Customer deposits, 54 per cent. of which are in Current and Savings Accounts (CASA), were flat to the end of 2013, with growth in CASA in Hong Kong and Singapore offset by lower Time Deposit balances. The Group maintains a conservative funding structure with only limited levels of refinancing required over the next few years and the Group continues to be a significant net lender to the interbank market.

Liquidity

The Group continues to be highly liquid and the Group's advances-to-deposits ratio was 78.1 per cent., up from 75.7 per cent. at the year end. The Group's liquid asset ratio was 30.5 per cent., up from 29.8 per cent. at 31 December 2013, and both the Group LCR and NSFR were above 100 per cent. at 30 June 2014.

Capital

The Group remains strongly capitalised and the Common Equity Tier 1 ratio at 30 June 2014 was 10.5 per cent., compared to 10.9 per cent. (11.8 per cent. under Basel II) at the last year end primarily due to the timing of dividends and higher risk weighted assets.

Operating income fell to \$9,269 million, down 5 per cent., or \$482 million compared to H1 2013. Client income remained resilient and was down 3 per cent. overall.

Income across the Group remains diverse and while it was a challenging period for most of its geographies, the Greater China and Africa regions both increased income and this helped to partly offset lower income from Korea, which was down \$229 million compared to H1 2013.

In terms of the Group's client segments:

- Corporate and Institutional (C&I) income fell \$243 million, or 4 per cent., to \$5,334 million due to lower Financial Markets (FM) income, as low levels of volatility impacted Foreign Exchange (FX) income, and income from Rates was affected by reduced client activity
- Commercial income was down \$196 million, or 24 per cent., to \$616 million with a decline in FX income in Hong Kong, which was disrupted as a result of reduced client demand following the Renminbi (RMB) band widening by the Peoples Bank of China (PBoC), and lower Principal Finance income, due to reduced levels of realisations in the period and lower mark-to-market valuations
- Private Banking income rose \$13 million, or 4 per cent., to \$314 million driven by Wealth Management and secured lending
- Retail income fell \$56 million, or 2 per cent., to \$3,005 million compared to H1 2013 as the Group reduced higher risk Personal Loans in Korea and property cooling measures reduced Mortgages income in some markets. This was partly offset by higher Wealth Management income, which benefitted from the renewal of a multi-country insurance agreement in the period

From a product perspective, income from FM fell 20 per cent., or \$432 million, to \$1,780 million compared to H1 2013 reflecting the difficult market conditions. Income from Retail products fell 6 per cent. to \$2,435 million, largely due to the derisking actions in respect of unsecured lending. This was, however, partly

offset by improved income from Asset and Liability Management (ALM), which was up 38 per cent. to \$420 million compared to H1 2013.

The Group net interest margin was lower at 2.1 per cent. compared to 2.2 per cent. at H1 2013, but was flat compared to H2 2013. C&I and Commercial client interest income benefitted from higher Trade balances and higher Lending margins, which was partly offset by lower margins from Cash Management and Custody. Retail net interest income was lower due to a decline in unsecured balances and margins as the Group de-risked Personal Loan portfolios, and this impacted Korea in particular.

Operating expenses increased \$49 million, or 1 per cent., to \$5,083 million. Expenses for H1 2013 benefitted from \$36 million of provision recoveries; H2 2013 was impacted by \$235 million in respect of the UK bank levy; and in H1 2014, IT depreciation was \$52 million lower than the prior year due to a change in the period over which the assets are depreciated. Excluding these items, operating expenses were 1 per cent. higher than H1 2013 and 4 per cent. higher than H2 2013. Costs remain tightly controlled and staff costs rose 2 per cent. compared to H1 2013 as inflationary increases were partly offset by lower headcount. Despite increased regulatory and compliance costs, the Group continued to make targeted investments in the Group's franchise.

Loan impairment increased by \$116 million, or 16 per cent., to \$846 million. Loan impairment from C&I and Commercial clients increased 53 per cent. primarily due to a small number of exposures in Greater China, including \$62 million in respect of lending secured by commodities, and within the Africa, Europe and ASEAN regions. This was partly offset by lower provisions in India. Impairment from Retail clients was broadly flat as increased provisioning in Korea was offset by lower provisioning requirements in the ASEAN region.

Other impairment increased by \$174 million to \$185 million reflecting provisions against commodity financing assets in Greater China as a result of a fraud and the impairment of certain strategic and associate investments in the Europe region.

Profit before taxation fell \$820 million, or 20 per cent., to \$3,268 million compared to H1 2013 but was up 14 per cent. compared to H2 2013.

The Group's effective tax rate (ETR), on a statutory basis, was 26.1 per cent., down from 32.8 per cent. at H1 2013, reflecting a change in profit mix and the impact of the non-deductible goodwill impairment in the prior period.

Corporate and Institutional (C&I) clients comprises Global Corporates (major multinational corporations and large business groups which have sophisticated, cross-border needs requiring high levels of international service); Local Corporates (typically clients with operations in three geographies or less); and Financial Institutions (Banks, Investor clients, Insurance companies, Broker Dealers, Public Sector names (including Central Banks, Sovereign Wealth Funds and Development Organisations) and other types of financial institutions).

Around 90 per cent. of C&I client income is generated by Transaction Banking, FM and Corporate Finance products.

Income from C&I clients fell \$243 million, or 4 per cent., to \$5,334 million but remains well diversified by client segment, product and geographic region and the Group continued deepening and broadening its relationship with clients.

Client income, which constitutes over 85 per cent. of C&I income, fell by 3 per cent. compared to H1 2013 reflecting challenging industry-wide market conditions. On a geographic basis, client income was lower across most regions except Greater China.

Income from Transaction Banking fell 2 per cent., as higher Cash Management and Custody income on the back of increased average balances was offset by lower Trade income.

FM income was impacted by cyclical factors, many of which were specific to the Group's footprint. Income from Rates fell 33 per cent., particularly in the structured business in Korea, while FX income was down 22 per cent., despite strong volume growth as spreads compressed.

Own account income fell 13 per cent. compared to H1 2013. FM income was sharply lower, reflecting the difficult market conditions which particularly impacted FX and Rates income. This was partly offset by higher ALM income, driven by improved accrual income, and higher income from Principal Finance realisations during the period.

Operating expenses were up \$46 million, or 2 per cent., to \$2,546 million. Expenses remain well controlled, despite increased regulatory and compliance costs.

Loan impairment increased by \$69 million, or 35 per cent., to \$266 million, driven by a small number of clients in Greater China, including \$62 million in respect of lending secured by Commodities, Africa, Europe and within the ASEAN region. This was partly offset by lower impairment in India as the prior period was impacted by a small number of exposures.

Other impairment was higher by \$141 million at \$169 million, largely due to commodity financing positions in Greater China and impairments against certain strategic investments within the Europe region.

Operating profit fell by \$488 million, or 17 per cent., to \$2,443 million.

The Commercial client segment serves medium-sized business clients who are managed by relationship managers.

Over three quarters of the client income from Commercial clients is generated by Transaction Banking, Financial Markets and Lending products.

Operating income for Commercial clients fell by \$196 million, or 24 per cent., to \$616 million.

Client income fell 11 per cent., with FM income in Hong Kong being the biggest driver of the fall, as the RMB band widening reduced client demand which disrupted the flow of FX revenues. Transaction Banking income declined primarily due to lower Cash Management income. Lending income was also lower as the Group exited low return exposures.

Own account income declined by \$118 million reflecting a fall in income from Principal Finance as a result of lower mark to market valuations and reduced levels of realisations in the current period relating to Commercial clients. This primarily impacted income in Singapore and India.

Expenses were down \$12 million, or 3 per cent., to \$362 million as the Group tightly managed costs.

Loan impairment increased by \$57 million to \$100 million, driven by a small number of exposures in Hong Kong, Korea and China.

Other impairment in H1 2013 benefitted from recoveries on the realisation of previously impaired Principal Finance investments in China while H2 2013 was impacted by an investment write-down in India.

Operating profit fell by \$261 million, or 61 per cent., to \$165 million, with Hong Kong down \$81 million to \$87 million, India down \$64 million to \$34 million and Singapore down \$54 million to \$11 million.

The Private Banking client segment is dedicated to giving high net worth clients highly personalised service and a comprehensive suite of products and services tailored to meet their financial needs.

Income from Private Banking clients primarily relates to Wealth Management and Retail products, including lending, generated from clients across Asia, Africa and the Middle East.

Operating income from Private Banking clients increased \$13 million, or 4 per cent., to \$314 million. Excluding income from Korea (which the Group exited in H2 2013), income rose 8 per cent. This reflected strong growth across the Hong Kong and the advising centres, led by Wealth Management, Lending and Mortgage products and good traction in sales of structured notes, equities and funds leveraging on improved market sentiment. This was partly offset by lower income from Deposits due to margin compression.

Client assets under management (AuM) grew 13 per cent. compared to H1 2013 driven by higher investment balances.

Expenses were up \$14 million, or 7 per cent., at \$227 million. Excluding Korea, expenses rose 12 per cent. The increase reflects additional costs related to the exit of the Group's Geneva business.

Other impairment increased to \$16 million following a writedown of an associate investment.

Operating profit fell by \$10 million, or 12 per cent., to \$71 million. Excluding the other impairment charge, operating profit rose 7 per cent.

Retail clients comprise:

- Priority & International clients, managing and servicing High Value Segment customers and delivering a distinct and differentiated customer experience to them;
- Personal & Preferred clients, providing banking products and services to a broader consumer market; and
- Business Clients, serving small business clients, sole proprietors and private companies, offering solutions such as working capital, business expansion, businesses protection and yield enhancement.

Operating income from Retail clients fell \$56 million, or 2 per cent., to \$3,005 million but was up 5 per cent. against H2 2013. Income from Retail clients remains diverse both by product and across geographic region. Hong Kong continues to be the Group's largest retail market, growing income 10 per cent., which partly offset lower income from Korea, which was down 14 per cent. Excluding Korea, income rose 1 per cent. compared to H1 2013.

The fall in income reflects reduced asset momentum due to derisking actions and lower margins, both of which impacted income from unsecured lending in Korea. Margin compression also impacted deposits income, which more than offset volume growth. Mortgages income was impacted by property cooling measures in Hong Kong and Singapore, reducing fee income as new transaction volumes decreased, and lower levels of originations under the Mortgage Purchase Program in Korea. Wealth Management income grew as market sentiment improved together with higher bancassurance income, which benefitted from the renewal of a multi-country distribution agreement in the current period.

Expenses were broadly flat at \$1,948 million and continue to be tightly managed. Excluding the impact of a special retirement charge in Korea of \$29 million, expenses fell 2 per cent.

Loan impairment was broadly flat at \$480 million. Impairment in Korea rose by \$17 million as the Group continued to see increased levels of PDRS filings. This was largely offset by lower provision levels in Malaysia and Singapore.

Operating profit fell by \$61 million, or 9 per cent., to \$589 million. Excluding Korea, which fell \$141 million to a loss of \$148 million, operating profit rose 12 per cent.

Product performance

Transaction Banking income fell \$46 million, or 2 per cent., to \$1,918 million.

Trade income fell 4 per cent. with lower margins than the previous year and a decline in fee income offsetting growth in balances. Growth in balances was lower than the first half of 2013, impacted by balance sheet optimisation actions taken during the period. Trade margins as a whole have stabilised since the end of 2013.

Cash Management and Custody income was flat, with margins down 4 basis points while average balances increased compared to H1 2013.

Financial Markets (FM) income was \$432 million lower at \$1,780 million compared to H1 2013 impacted by challenging industry-wide conditions and factors specific to Emerging Markets.

FX income fell 24 per cent. to \$636 million impacted by low levels of volatility across the Group's footprint markets which reduced spreads although volumes grew strongly. Cash FX notionals rose 24 per cent. and FX Option notionals rose 45 per cent. FX Options income in Hong Kong was impacted by the widening of the RMB trading band by the PBoC, which disrupted revenue flows.

Rates income fell 33 per cent. to \$371 million largely reflecting the challenging market conditions in the first half of 2014. Rates flow business remained resilient while the structured business was impacted by market conditions.

Commodities and Equities income fell 9 per cent. to \$262 million. Client hedging activity declined, as markets were range bound leading to low levels of volatility across most asset classes.

Equities income increased on the back of new product offerings and improved client connectivity.

Capital Markets income was flat at \$284 million, with increased loan syndications volumes on the prior year period.

Credit and other income fell by 11 per cent. to \$227 million, primarily impacted by rising bonds yields.

Corporate Finance income was flat at \$1,241 million as strong growth in M&A advisory income offset lower income from Strategic Finance, reflecting repayments and timing of deal flow. Structured Trade Finance income up slightly on higher client activity levels.

Wealth Management income rose 8 per cent. to \$817 million. Bancassurance income increased overall, benefitting from the renewal of a multi-country distribution agreement in the current period. Income from managed funds reduced as equity markets continue to recover, although this was offset by higher income from structured notes and Wealth Management lending.

Income from **Retail products** was \$153 million lower at \$2,435 million.

Income from CCPL fell 6 per cent. to \$1,315 million as the Group reduced its exposure to higher risk Personal Loans portfolio in a number of markets, particularly in Korea. Margins overall were compressed due to regulatory changes across multiple markets. Korea suffered significant margin decline as the Group exited the higher risk Personal Loans segment.

Deposits income was down 1 per cent. at \$598 million as good growth in CASA balances in Korea and Hong Kong was offset by lower margins in Time Deposits.

Mortgages and Auto Finance income fell 9 per cent. to \$474 million despite improved margins as property cooling measures impacted new transaction volumes in the Group's key markets in Hong Kong and Singapore and income in Korea was primarily impacted by lower levels of origination under the Mortgage Purchase Program.

Other retail income fell 24 per cent. to \$48 million compared to H1 2013. Income was up \$43 million against H2 2013, which was impacted by a \$49 million loss on businesses held for sale in Korea.

ALM income was up 38 per cent. to \$420 million reflecting improved accrual income which offset lower income from securities sales.

Lending and Portfolio Management income rose by 1 per cent. to \$529 million. While average balances fell compared to H1 2013, this was more than offset by improved margins.

Principal Finance income fell 23 per cent. to \$129 million as gains from portfolio realisations were offset by reduced market valuations. Income relating to Commercial clients fell sharply largely as a result of reduced realisations and lower mark-to-market valuations.

Geographic performance

Greater China

Income was up \$126 million, or 5 per cent., to \$2,785 million. Over 90 per cent. of the income in this region is from Hong Kong and China.

Income in Hong Kong rose \$63 million, or 3 per cent., to \$1,992 million. Client income increased slightly, up 2 per cent. Lower income from FM was offset by an improved performance in CCPL and Wealth Management. FM income was impacted as momentum slowed following the widening of the RMB trading band during 2014, reducing income from FX Options. Rates income also fell as low levels of volatility contributed to reduced client activity. CCPL income increased reflecting growth in fee income from Cards and higher Personal loan balances although this was partly offset by lower Mortgages income as property cooling measures impacted new transaction volumes. Wealth Management income grew strongly particularly in bancassurance. Own account income rose due to gains from commodities and increased income from ALM reflecting the deployment of surplus CNH funding.

Income in China rose \$67 million, or 15 per cent., to \$515 million. Client income rose slightly, up 1 per cent. compared to H1 2013. Transaction Banking income grew as margins in Cash and Trade increased coupled with strong growth in Trade volumes. Income from FM products increased with good flow FX momentum as a result of the wider RMB trading band although Rates income was impacted by low volatility in the market. Income from Retail products was largely flat as growth in CCPL income was offset by lower Mortgages income, which was impacted by significant margin compression. Own account income rose, as a result of the deployment of RMB funds accumulating in from Hong Kong, Taiwan and Singapore as the Group continued to be a leader in the internationalisation of RMB.

Operating expenses across the region rose \$26 million, or 2 per cent. Expenses in Hong Kong increased \$40 million on the back of higher depreciation charges relating to the Group's leasing business and investments in front-line technology. Expenses in China fell \$12 million.

Loan impairment in the region was \$85 million higher at \$212 million and Other impairment rose \$101 million to \$95 million, primarily due to provisions relating to commodity financing transactions.

Operating profit fell \$75 million, or 6 per cent., to \$1,152 million, with Hong Kong down \$163 million to \$868 million and China up \$76 million to \$193 million.

North East Asia

Income was down \$227 million, or 24 per cent., to \$709 million. Korea represents over 90 per cent. of income within this region.

Income in Korea fell \$229 million, or 26 per cent., to \$669 million. Income was up 1 per cent. against H2 2013, but down 6 per cent. excluding the \$49 million fair value charge relating to businesses held for sale in that period. Client income fell 17 per cent. compared to H1 2013 due to lower levels of income from FM and Retail products. Income from Rates was sharply lower, impacted by lower client volumes particularly in respect of structured notes and structured deposits. Lower levels of client activity also impacted Transaction Banking, where Trade income fell due to lower volumes and Cash Management income was impacted by a reduction in the size and tenor of balances. CCPL income declined as the Group continued to derisk the personal loan portfolio. Mortgages income also fell as Mortgage Purchase Program volumes declined. Own account income fell sharply primarily due to lower levels of Principal Finance realisations. The Group continued to generate income from Korean clients across its network and the Group opened three Korea desks in other countries to further increase the flow of cross-border transactions.

Operating expenses in Korea increased \$38 million, or 7 per cent., to \$587 million and includes a \$32 million special retirement charge. Excluding this, expenses rose 1 per cent. as the Group continued to tightly manage costs.

Loan impairment in Korea increased \$16 million to \$209 million primarily due to higher provisioning levels under the Personal Debt Rehabilitation Scheme.

Operating profit in Korea fell by \$264 million to a loss of \$127 million.

South Asia

Income fell \$140 million, or 13 per cent., to \$959 million. Around 80 per cent. of the income in this region is from India.

Income in India fell by \$149 million, or 16 per cent., to \$759 million. On a constant currency basis, income fell 9 per cent. Client income was 5 per cent. lower primarily due to reduced income from Transaction Banking and FM products. Transaction Banking income fell due to a fall in average balances across Trade and Cash Management, as the Group reduced low return exposures. The fall in FM income reflected lower spreads on FX products which more than offset higher volumes. This was partly offset by higher Lending income as margins improved. Income from CCPL fell as margins and balanced declined. Own account income was also lower due to lower derisking activity in the current period and lower Principal Finance realisations.

Operating expenses across the region fell \$46 million, or 11 per cent., to \$379 million. Expenses in India were down 13 per cent., or 4 per cent. on a constant currency basis, as the Group reduced headcount and continued to manage costs tightly.

Loan impairment in the region fell \$56 million, or 48 per cent., to \$61 million as the prior period was impacted by charges on a small number of exposures.

Operating profit fell \$38 million to \$519 million, with India down \$44 million to \$395 million.

ASEAN

Income was down \$166 million, or 8 per cent., to \$1,920 million. While Corporate Finance income increased, difficult market conditions and regulatory headwinds, together with margin compression, impacted other products.

Income in Singapore fell \$88 million, or 8 per cent., to \$1,035 million. Client income remained resilient, however, increasing marginally by 1 percent compared to H1 2013. Transaction Banking income fell largely due to lower Cash Management and Trade margins which more than offset strong Trade volume momentum on the back of higher RMB assets. FM income was also down with lower income from Commodities and Equities partly offset by resilient FX flow volumes as the Group continued to focus on growing the RMB franchise despite increased competition and reduced client activity. Rates income was largely flat. Income from Corporate Finance rose and the Group gained market share, although the number of deals closed fell due to lower client activity levels. Income from retail products fell as regulatory cooling measures impacted Mortgages & Auto income, offsetting higher income from Cards reflecting portfolio growth. Own account income fell due to lower volatility, narrowing trading ranges and lower Principal Finance income.

Operating expenses fell \$39 million, or 4 per cent., to \$1,030 million. Expenses in Singapore fell \$63 million reflecting lower levels of variable compensation and tight management of discretionary costs.

Loan impairment was up by \$43 million, or 25 per cent., to \$215 million. Although impairment levels in Singapore fell this was more than offset by higher provisions in Thailand.

ASEAN delivered an operating profit of \$701 million, down 21 per cent., with Singapore down \$25 million to \$455 million.

Middle East, North Africa and Pakistan (MENAP)

Income fell \$20 million, or 2 per cent., to \$951 million, reflecting a challenging business environment, margin compression and heightened competition.

Income in the UAE, which generates over half of the income in this region, was down \$35 million, or 6 per cent., to \$596 million. Client income was down 5 per cent. Income from FM products fell primarily due to lower income from FX as spreads compressed and from Rates reflecting reduced client flows. Transaction Banking income was down, as margin compression in Cash Management offset higher average balances. Income from Corporate Finance was lower, as deal flow slowed, and Lending income was impacted by repayments and continued balance sheet optimisation. Volumes in CCPL and Mortgages increased as market conditions improved, offsetting margin compression from competitive pricing and surplus liquidity. Own account income fell due to lower income from commodities, partly offset by higher income from derisking activities in ALM.

Operating expenses in the region were \$11 million, or 2 per cent., lower at \$482 million, reflecting headcount rationalisation in the UAE and good cost discipline across the region.

Loan impairment in MENAP fell by \$7 million to \$27 million, largely within the UAE.

Operating profit for MENAP was broadly flat at \$442 million although profit in the UAE fell \$35 million to \$289 million.

Africa

Income rose \$25 million, or 3 per cent., to \$878 million. On a constant currency basis income rose 11 per cent. Client income, however, fell 3 per cent. on a headline basis. Transaction Banking fell due to compressed Cash Management margins and lower Trade balances, and FM income was impacted by lower FX spreads and reduced Rates volumes. Lending income also fell due to repayments and exiting low return exposures. This was partly offset by increased income from CCPL income on the back of higher balances and improved Cards margins. Unsecured lending across the region is primarily driven by payroll-linked accounts. Income from Mortgages also rose as margins and balances grew. Nigeria continues to be the largest C&I revenue engine in Africa and Kenya continues to be the largest generator of Retail income. Own account income grew primarily due to increased Principal Finance income.

Operating expenses in Africa were higher by \$46 million, or 11 per cent., to \$467 million. On a constant currency basis, expenses rose 20 per cent. primarily due to flow through of prior year investments together with investments in developing new markets.

Loan impairment increased to \$94 million, up \$19 million due to a small number of exposures.

Operating profit fell 11 per cent., down \$40 million to \$317 million. On a constant currency basis, profit fell 4 per cent.

The Americas and Europe regions act as a two-way bridge, leveraging capabilities within these regions to support the Group's clients' cross-border needs in Asia, Africa and the Middle East

Americas

Income fell \$29 million, or 7 per cent., to \$414 million. Client income was flat despite increased client activity and higher volumes in Trade and Cash Management and across FX products in FM. FM income fell

as a result of lower income from Rates, which was affected by low volatility and reduced bid-offer spreads, and Commodities and Equities, reflecting lower commodity prices. This was partly offset by improved FX income as increased volumes helped offset spread compression. Own account income fell, primarily as market conditions impacted FX income. This was partly offset by improved ALM income on higher reinvestment yields.

Operating expenses were \$22 million, or 8 per cent., higher at \$300 million primarily due to increased compliance and regulatory costs.

Operating profit fell \$44 million, or 28 per cent. to \$114 million.

Europe

Income was down \$51 million, or 7 per cent. to \$653 million.

Client income fell 2 per cent. due to weaker demand for FM products as a result of low levels of market volatility reducing client hedging requirements and investment opportunities. While volumes in FX and Rates grew strongly, this was more than offset by significant spread compression. Corporate Finance income also fell on the back of repayments and lower deal volumes. This was partly offset by a rise in Transaction Banking income as balances grew and margins improved. Lending income was lower as balances reduced as the Group managed down low return exposures. Income from Wealth Management and Retail products provided to Private Banking clients was broadly flat. Own account income fell, impacted by difficult market conditions, although ALM income rose as the Group deployed surplus liquidity.

Operating expenses rose \$20 million, or 5 per cent., to \$399 million partly due to costs incurred to exit the Group's Private Banking operations in Geneva. Expenses in H2 2013 included the cost of the UK bank levy of \$235 million.

Loan Impairment was higher by \$23 million to \$28 million. Other impairment increased \$88 million to \$87 million as a result of impairments on certain strategic and associate investments.

Operating profit fell by \$183 million to \$139 million.

TAXATION

The comments below are of a general nature based on the Issuers' understanding of current tax law and practice in the United Kingdom, the European Union and Hong Kong, respectively, as at the date of this document and may be subject to change, possibly with retroactive effect. They are not exhaustive. They do not address United States tax consequences because (i) in the event of any offer in reliance upon Rule 144A, an applicable final terms will discuss United States tax consequences to United States holders and (ii) except to the extent described below, non-United States holders generally will not be subject to United States tax consequences in respect of the Notes. However, a non-United States holder who is (i) engaged in a United States trade or business, (ii) present in the United States for 183 or more days during the taxable year, or (iii) otherwise subject to United States taxation generally, should consult its own tax advisor regarding United States tax consequences. The comments below do not necessarily apply where the income is deemed for tax purposes to be the income of any other person. They relate only to the position of persons who are the absolute beneficial owners of their Notes and Coupons and may not apply to certain classes of persons such as dealers and persons connected with the Issuer, to whom special rules may apply. They relate to the deduction from payments of interest on the Notes for or on the account of tax in the United Kingdom and to certain aspects of Hong Kong tax and the laws of the European Union. Prospective Noteholders who may be unsure of their tax position or who may be subject to tax in any other jurisdiction should consult their own professional advisers.

United Kingdom

Withholding of tax on interest

Interest paid by SCPLC or SCB on Notes which have a maturity date of less than one year from the date of issue (and are not issued with the intention, or under arrangements the effect of which is, to render such Notes part of a borrowing with a total term of a year or more) may be paid without withholding or deduction for or on account of United Kingdom income tax.

Yearly interest paid by SCB (but not SCPLC) on Notes may be paid without withholding or deduction for or on account of United Kingdom income tax provided that SCB continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 ("ITA") and provided that the interest on the Notes is paid in the ordinary course of business within the meaning of section 878 of ITA.

Further, with effect from 1 January 2014, the Taxation of Regulatory Capital Securities Regulations 2013 (the "Regulations") disapply the exemption referred to in the paragraph above in the case of a payment of interest on a regulatory capital security (within the meaning of the Regulations), but provide a new exemption such that payments of interest by the Issuer on a regulatory capital security could be made without withholding or deduction for or on account of United Kingdom income tax provided that there are no arrangements the main purpose, or one of the main purposes, of which is to obtain a tax advantage for any person as a result of the application of the Regulations in respect of that security.

Irrespective of whether interest may be paid by SCPLC or SCB without withholding or deduction for or on account of United Kingdom tax in accordance with the previous paragraphs, while Notes are listed on a "recognised stock exchange" within the meaning of section 1005 of ITA (which includes the London Stock Exchange), payments of interest on such Notes may be made without withholding or deduction for or on account of United Kingdom income tax. The Notes will be treated as listed on the London Stock Exchange if they are included in the Official List by the United Kingdom Listing Authority and are admitted to trading on the London Stock Exchange.

Interest on the Notes may also be paid without deduction or withholding for or on account of United Kingdom tax where the Issuer reasonably believes at the time the payment is made that it is an "excepted payment" under section 930 of ITA. A payment is an excepted payment where (a) the person beneficially entitled to the income in respect of which payment is made is (i) a UK resident company; or (ii) a non-UK resident company that carries on a trade in the UK through a permanent establishment and the payment is one that is required to be brought into account for calculating the profits chargeable to corporation tax of the non-UK resident company; or (b) the person to whom payment is made is one of the further classes of bodies or persons, and meets any relevant conditions, set out in sections 935 to 937 of ITA, provided that HM Revenue & Customs has not given a direction that the interest should be paid under deduction of tax in circumstances where it has reasonable grounds to believe that the payment will not be an excepted payment of interest at the time the payment is made.

In all other cases yearly interest on Notes will generally be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Noteholder, the Noteholder can apply to HM Revenue & Customs to issue a notice to the Issuer to pay interest to the Noteholder without

any withholding or deduction for or on account of tax (or for interest to be paid with tax withheld or deducted at the rate provided for in the relevant double tax treaty).

HM Revenue & Customs have powers to obtain information, including in relation to interest or payments treated as interest and payments derived from securities. This may include details of the beneficial owners of the Notes (or the persons for whom the Notes are held), details of the persons to whom payments derived from the Notes are or may be paid and information in connection with transactions relating to the Notes. Information obtained by HM Revenue & Customs may be provided to tax authorities in other countries.

If Notes are issued at a discount to their principal amount the discount element on any such Notes will not be subject to any withholding or deduction for or on account of United Kingdom tax pursuant to the provisions mentioned above, provided that any payments on redemption in respect of the discount do not constitute payments in respect of interest. They may, however, be subject to reporting requirements as outlined in the above paragraph.

Where Notes are issued with a redemption premium, as opposed to being issued at a discount, then any such element of premium when the Notes are redeemed may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax as outlined above.

The references to “interest” and “principal” above mean “interest” and “principal” as understood in United Kingdom tax law. The statements above do not take account of any different definitions of “interest” or “principal” which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation.

EU Savings Directive

Under the Savings Directive, each Member State is required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person established within its jurisdiction to (or for the benefit of) an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

On 24 March 2014, the Council of the European Union adopted the Amending Directive amending and broadening the scope of the requirements of the Savings Directive described above. Member States are required to apply these new requirements with effect from 1 January 2017. The changes will expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities. The Amending Directive will also expand the circumstances in which payments that indirectly benefit an individual resident in a Member State must be reported. This approach will apply to payments made to, or secured for, persons, entities or legal arrangements (including trusts) where certain conditions are satisfied, and may in some cases apply where the person, entity or legal arrangement is established or effectively managed outside the European Union.

However, for a transitional period, the end of which is dependent upon the conclusion of certain other agreements relating to information exchange with certain non-EU countries, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments. The changes referred to above will broaden the types of payments subject to withholding in those Member States which still operate a withholding system when they are implemented. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Savings Directive.

A number of non-EU countries and territories have adopted similar measures.

United States Foreign Account Tax Compliance Withholding (FATCA Withholding)

A 30 per cent. withholding tax will be imposed on certain payments to certain non-U.S. financial institutions that fail to comply with information reporting and certification requirements in respect of their direct and indirect U.S. security holders and/or U.S. accountholders (“FATCA withholding”). Based on regulations released by the U.S. Treasury Department, as well as an agreement entered into between the United States government and the United Kingdom government, guidance issued by HM Revenue and Customs regarding the implementation of that agreement, and an agreement reached in substance between the United States government and the Hong Kong Government, the Issuers generally will not be required to report or certify information with respect to the holders of Notes, although other non-U.S. financial institutions (such as banks or brokers) through which a holder holds Notes may be required to do so. In addition, in the case of holders who (i) are non-U.S. financial institutions that have not agreed to comply with these information reporting or certification requirements in respect of their direct and indirect U.S. security holders and/or U.S. accountholders or (ii) hold Notes directly or indirectly through such non-compliant non-U.S. financial institutions or have otherwise failed to establish an exemption from this withholding, the Issuers may be required to withhold on a portion of payments treated as attributable to certain U.S. source payments (“foreign passthru payments”) on the Notes. Accordingly, a holder that holds

Notes through a bank or broker could be subject to withholding if, for example, its bank or broker is subject to withholding because it fails to comply with these requirements even though the holder itself might not otherwise have been subject to withholding. However, such withholding would generally not apply to payments made before 1 January 2017. Moreover, such withholding would generally only apply to Notes issued or materially modified more than six months after the date on which final regulations implementing such rule are enacted, subject to certain exceptions. You should consult your own tax advisors regarding the relevant U.S. law and other official guidance on FATCA withholding.

The Issuers will not pay any additional amounts in respect of FATCA withholding, so if this withholding applies, you will receive significantly less than the amount that you would have otherwise received with respect to your Notes. Depending on your circumstances, you may be entitled to a refund or credit in respect of some or all of this withholding. However, even if you are entitled to have such withholding refunded, the required procedures could be cumbersome and significantly delay the holder's receipt of any amounts withheld.

Hong Kong

1. Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

2. Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the Notes may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

(i) interest on the Notes is derived from Hong Kong and is received by or accrues to a company carrying on a trade, profession or business in Hong Kong; or

(ii) interest on the Notes is derived from Hong Kong and is received by or accrues to a person, other than a company, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business; or

(iii) interest on the Notes is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap. 112) of Hong Kong) and arises through or from the carrying on by the financial institution of its business in Hong Kong.

Pursuant to the Exemption from Profits Tax (Interest Income) Order, interest income accruing to a person other than a financial institution on deposits (denominated in any currency and whether or not the deposit is evidenced by a certificate of deposit) placed with, *inter alia*, a financial institution in Hong Kong (within the meaning of section 2 of the Banking Ordinance (Cap. 155) of Hong Kong) are exempt from the payment of Hong Kong profits tax. Provided no prospectus with respect to the issue of Notes is registered under the Companies (Winding Up and Miscellaneous Provisions) Ordinance, the issue of Notes by SCBHK is expected to constitute a deposit to which the above exemption from payment will apply. This exemption from Hong Kong profits tax does not apply, however, to deposits that are used to guarantee money borrowed in certain circumstances.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of Notes will be subject to profits tax.

Sums derived from the sale, disposal or redemption of Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source. The source of such sums will generally be determined by having regard to the manner in which the Notes are acquired and disposed.

3. Stamp Duty

Stamp duty will not be payable on the issue of Bearer Notes by SCBHK, or on the issue in Hong Kong of Bearer Notes by SCPLC or SCB, provided (in either case) either:

(i) such Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or

(ii) such Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

If stamp duty is payable it is payable by the relevant Issuer on the issue of Bearer Notes at a rate of 3 per cent. of the market value of the Notes at the time of issue.

No stamp duty will be payable on any subsequent transfer of Bearer Notes.

No stamp duty is payable on the issue of Registered Notes.

Stamp duty may be payable on any transfer of Registered Notes issued by SCBHK or, if the relevant transfer is required to be registered in Hong Kong, by SCPLC or SCB. Stamp duty will, however, not be payable on any transfers of Registered Notes, issued by any of SCBHK, SCPLC or SCB, provided that either:

(i) the Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or

(ii) the Registered Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

If stamp duty is payable in respect of the transfer of Registered Notes it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the consideration or its value. If, in the case of either the sale or purchase of such Registered Notes, stamp duty is not paid, both the seller and the purchaser may be liable jointly and severally to pay any unpaid stamp duty and also any penalties for late payment. If stamp duty is not paid on or before the due date (two days after the sale or purchase if effected in Hong Kong or 30 days if effected elsewhere) a penalty of up to 10 times the duty payable may be imposed. In addition, stamp duty is payable at the fixed rate of HK\$5.00 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

SUBSCRIPTION AND SALE

Subject to the terms and on the conditions contained in an Amended and Restated Programme Agreement dated 10 October 2014 (as further amended and/or supplemented, the "Programme Agreement"), between, *inter alios*, the Issuers, the Permanent Dealers and the Arrangers, the Notes will be offered on a continuous basis by each Issuer to the Permanent Dealers. However, each Issuer has reserved the right to issue Notes directly on its own behalf to Dealers that are not Permanent Dealers and who agree to be bound by the restrictions below. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold outside the United States by each Issuer through the Dealers, acting as agents of such Issuer. The Programme Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

Each Issuer will pay each relevant Dealer a commission as agreed between such Issuer and the Dealer in respect of Notes subscribed by it. The Issuers have agreed to reimburse the Arrangers for certain of their expenses incurred in connection with the establishment and update of the Programme, and the Dealers for certain of their activities in connection with the Programme.

Each Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Programme Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the relevant Issuer.

United States

The Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

Notes in bearer form having a maturity of more than one year are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

In connection with any Notes which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S ("Regulation S Notes"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, except as permitted by the Programme Agreement, that it will not offer, sell or, in the case of Notes in bearer form, deliver the Notes of any identifiable Tranche (other than Registered Notes offered or sold in accordance with Rule 144A), (i) as part of their distribution at any time or (ii) otherwise until 40 days after completion of the distribution of an identifiable tranche of which such Notes are a part (the "Distribution Compliance Period") as determined, and certified to each relevant Dealer, by the Issuing and Paying Agent, or in the case of Notes issued on a syndicated basis, the Lead Manager, within the United States or to, or for the account or benefit of, U.S. persons and, at or prior to confirmation of sale of Notes, it will have sent to each distributor, dealer, or person receiving a selling concession, fee or other remuneration to which it sells Notes during the Distribution Compliance Period (other than resales of Registered Notes pursuant to Rule 144A) a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for, the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S.

The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S. The Programme Agreement provides that the Dealers may directly or through their respective agents or affiliates which are U.S. registered broker-dealers arrange for the offer and resale of Registered Notes in the United States only to QIBs in accordance with Rule 144A.

In addition, until 40 days after the commencement of the offering of any identifiable Tranche of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering of such Tranche of Notes) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A.

This document has been prepared by the Issuers for use in connection with the offer and sale of the Notes outside the United States to non-U.S. persons, the offer, sale and resale of Registered Notes in the United States to QIBs in reliance upon Rule 144A and for the admission of Notes to the Official List and to trading on the London Stock Exchange or the listing of the Notes on the Hong Kong Stock Exchange. The relevant Issuer and the Dealers reserve the right to reject any offer to purchase, in whole or in part, for any reason, or to sell less than the number of Notes which may be offered. This document does not constitute an offer to any person in the United States or to any U.S. person other than any QIB to whom an offer has been

made directly by one of the Dealers or a U.S. broker-dealer affiliate of one of the Dealers. Distribution of this document by any non-U.S. person outside the United States or by any QIB in the United States to any U.S. person or to any other person within the United States, other than any QIB and those persons, if any, retained to advise such non-U.S. person or QIB with respect thereto, is unauthorised and any disclosure without the prior written consent of the relevant Issuer of any of its contents to any such U.S. person or other person within the United States, other than any QIB and those persons, if any, retained to advise such non-U.S. person or QIB, is prohibited. It is not currently anticipated that SCBHK would offer or sell any Notes in reliance on Rule 144A.

Public Offer Selling Restriction under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a **Relevant Member State**), each Dealer has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the **Relevant Implementation Date**) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression **an offer of Notes to the public** in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression **Prospectus Directive** means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression **2010 PD Amending Directive** means Directive 2010/73/EU.

CLEARING AND SETTLEMENT

The following is a summary of the rules and procedures of Euroclear, Clearstream, Luxembourg, the CMU Service and DTC, currently in effect, as they relate to clearing and settlement of transactions involving the Notes. The rules and procedures of these systems are subject to change at any time.

The Clearing Systems

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear and Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg participant, either directly or indirectly.

Distributions of principal with respect to book-entry interests in the Notes held through Euroclear or Clearstream, Luxembourg will be credited, to the extent received by the Paying Agent, to the cash accounts of Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures.

CMU

The CMU Service is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the members of this service ("CMU Members") of capital markets instruments ("CMU Instruments") which are specified in the CMU Service Reference Manual as capable of being held within the CMU Service.

The CMU Service is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such person. Membership of the CMU Service is open to all members of the Hong Kong Capital Markets Association and "authorised institutions" under the Banking Ordinance (Cap. 155) of Hong Kong and any other domestic or overseas financial institutions approved from time to time by the HKMA.

Compared to clearing services provided by Euroclear and Clearstream, Luxembourg, the standard custody and clearing service provided by the CMU Service is limited. In particular (and unlike the European clearing systems), the HKMA does not as part of this service provide any facilities for the dissemination to the relevant CMU Members of payments (of interest or principal) under, or notices pursuant to the notice provisions of, the CMU Instruments. Instead, the HKMA advises the lodging CMU Member (or a designated paying agent) of the identities of the CMU Service Members to whose accounts payments in respect of the relevant CMU Instruments are credited, whereupon the lodging CMU Member (or the designated paying agent) will make the necessary payments of interest or principal or send notices directly to the relevant CMU Members. Similarly, the HKMA will not obtain certificates of non-U.S. beneficial ownership from CMU Members or provide any such certificates on behalf of CMU Members. The CMU Lodging Agent will collect such certificates from the relevant CMU Members identified from an instrument position report obtained by request from the HKMA for this purpose.

An investor holding an interest through an account with either Euroclear or Clearstream, Luxembourg in any Notes held in the CMU Service will hold that interest through the respective accounts which Euroclear and Clearstream, Luxembourg each have with the CMU Service.

DTC

DTC is a limited purpose trust company organised under the laws of the State of New York, a "banking organisation" under the laws of the State of New York, a member of the U.S. Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic computerised book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to

DTC is available to others, such as banks, securities brokers, dealers and trust companies, that clear through, or maintain a custodial relationship with, a DTC direct participant, either directly or indirectly.

Book-Entry Ownership

Bearer Notes

The relevant Issuer will make applications to Clearstream, Luxembourg and Euroclear for acceptance in their respective book-entry systems in respect of any Series of Bearer Notes. The relevant Issuer may also apply to have Bearer Notes accepted for clearance through the CMU Service. In respect of Bearer Notes in CGN form, a Temporary Global Note and/or a Permanent Global Note in bearer form without coupons will be deposited with a common depository for Clearstream, Luxembourg and Euroclear and/or a sub-custodian for the CMU Service. In respect of Bearer Notes in NGN form, the Global Note in bearer form without coupons will be delivered with a common safekeeper for Euroclear and Clearstream, Luxembourg. Transfers of interests in a Temporary Global Note or a Permanent Global Note will be made in accordance with the normal Euromarket debt securities operating procedures of Clearstream, Luxembourg and Euroclear or the CMU Service.

Registered Notes

The relevant Issuer will make applications to Clearstream, Luxembourg and Euroclear or the CMU Service for acceptance in their respective book-entry systems in respect of the Unrestricted Notes to be represented by each Unrestricted Global Certificate. Each Unrestricted Global Certificate will have an ISIN and a Common Code or a CMU Instrument Number, as the case may be.

The relevant Issuer and a relevant U.S. agent appointed for such purpose will make application to DTC for acceptance in its book-entry settlement system of the Restricted Notes represented by each Restricted Global Certificate. Each Restricted Global Certificate will have a CUSIP number. Each Restricted Global Certificate will be subject to restrictions on transfer contained in a legend appearing on the front of such Certificate, as set out under "Transfer Restrictions". In certain circumstances, as described below in "Transfers of Registered Notes", transfers of interests in a Restricted Global Certificate may be made as a result of which such legend is no longer applicable.

The custodian with whom the Restricted Global Certificates are deposited (the "Custodian") and DTC will electronically record the principal amount of the Restricted Notes held within the DTC system. Investors in Notes of such Series may hold their interests in an Unrestricted Global Certificate only through Clearstream, Luxembourg or Euroclear or the CMU Service. Investors may hold their interests in a Restricted Global Certificate directly through DTC if they are participants in the DTC system, or indirectly through organisations which are participants in such system.

Payments of the principal of, and interest on, each Restricted Global Certificate registered in the name of DTC's nominee will be to or to the order of its nominee as the registered owner of such Restricted Global Certificate. The relevant Issuer expects that the nominee, upon receipt of any such payment, will immediately credit DTC participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the relevant Restricted Global Certificate as shown on the records of DTC or the nominee. The relevant Issuer also expects that payments by DTC participants to owners of beneficial interests in such Restricted Global Certificate held through such DTC participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such DTC participants. None of the relevant Issuer nor any Paying Agent or any Transfer Agent (each an "Agent") will have any responsibility or liability for any aspect of the records relating to or payments made on account of ownership interests in the Restricted Global Certificates or for maintaining, supervising or reviewing any records relating to such ownership interests.

All Registered Notes will initially be in the form of an Unrestricted Global Certificate and/or a Restricted Global Certificate. Individual definitive Registered Notes will only be available, in the case of Unrestricted Notes, in amounts specified in the applicable Final Terms, and, in the case of Restricted Notes, in amounts of U.S.\$200,000 (or its equivalent in another currency), or higher integral multiples of U.S.\$1,000 (or its equivalent in another currency), in certain limited circumstances described below.

Individual Definitive Registered Notes

Registration of title to Registered Notes in a name other than a depository or its nominee for Clearstream, Luxembourg and Euroclear or for the CMU Service or for DTC will not be permitted unless (i) in the case of Restricted Notes, DTC notifies the relevant Issuer that it is no longer willing or able to discharge properly its responsibilities as depository with respect to the Restricted Global Certificate, or ceases to be a "clearing

agency” registered under the Exchange Act, or is at any time no longer eligible to act as such and the relevant Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility on the part of DTC, (ii) in the case of Unrestricted Notes, Clearstream, Luxembourg or Euroclear or the CMU Service is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does, in fact, do so, (iii) if principal in respect of any Notes is not paid when due or (iv) the relevant Issuer provides its consent. In such circumstances, the relevant Issuer will cause sufficient individual definitive Registered Notes to be executed and delivered to the Registrar for completion, authentication and despatch to the relevant Noteholder(s). A person having an interest in a Global Certificate must provide the Registrar with:

(i) a written order containing instructions and such other information as the relevant Issuer and the Registrar may require to complete, execute and deliver such individual definitive Registered Notes; and

(ii) in the case of a Restricted Global Certificate only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange, or in the case of a simultaneous resale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A. Individual definitive Registered Notes issued pursuant to this paragraph (ii) shall bear the legends applicable to transfers pursuant to Rule 144A.

Transfers of Registered Notes

Transfers of interests in Global Certificates within DTC, Clearstream, Luxembourg, Euroclear and the CMU Service will be effected in accordance with the usual rules and operating procedures of the relevant clearing system. The laws of some states in the United States require that certain persons take physical delivery in definitive form of securities. Consequently, the ability to transfer interests in a Restricted Global Certificate to such persons may be limited. Because DTC can only act on behalf of direct participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in a Restricted Global Certificate to pledge such interest to persons or entities that do not participate in DTC, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

Beneficial interests in an Unrestricted Global Certificate may be held only through Clearstream, Luxembourg or Euroclear or the CMU Service. Transfers may be made at any time by a holder of an interest in an Unrestricted Global Certificate to a transferee who wishes to take delivery of such interest through the Restricted Global Certificate for the same Series of Notes provided that any such transfer made on or prior to the expiration of the Distribution Compliance Period (as defined in “Subscription and Sale”) relating to the Notes represented by such Unrestricted Global Certificate will only be made upon receipt by the Registrar or any Transfer Agent of a written certificate from Euroclear or Clearstream, Luxembourg or the CMU Service, as the case may be (based on a written certificate from the transferor of such interest), to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities law of any state of the United States or any other jurisdiction. Any such transfer made thereafter of the Notes represented by such Unrestricted Global Certificate will only be made upon request through Clearstream, Luxembourg or Euroclear or the CMU Service by the holder of an interest in the Unrestricted Global Certificate to the Issuing and Paying Agent and receipt by the Issuing and Paying Agent of details of that account at DTC to be credited with the relevant interest in the Restricted Global Certificate. Transfers at any time by a holder of any interest in the Restricted Global Certificate to a transferee who takes delivery of such interest through an Unrestricted Global Certificate will only be made upon delivery to the Registrar or any Transfer Agent of a certificate setting forth compliance with the provisions of Regulation S and giving details of the account at Euroclear or Clearstream, Luxembourg or the CMU Service, as the case may be, and DTC to be credited and debited, respectively, with an interest in the relevant Global Certificates.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described above and under “Transfer Restrictions”, cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear or the CMU Service accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Custodian, the Registrar and the Issuing and Paying Agent.

On or after the Issue Date for any Series of Registered Notes, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and the CMU Service and transfers of Notes of such Series between participants in DTC will generally have a settlement day three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear or the CMU Service and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear and the CMU Service, on the other, transfers of interests in the relevant Global Registered

Certificates will be effected through the Issuing and Paying Agent, the Custodian and the Registrar receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. Transfers will be effected on the later of (i) three business days after the trade date for the disposal of the interest in the relevant Global Registered Certificate resulting in such transfer and (ii) two business days after receipt by the Issuing and Paying Agent or the Registrar, as the case may be, of the necessary certification or information to effect such transfer. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg or the CMU Service accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

For a further description of restrictions on transfer of Registered Notes, see "Transfer Restrictions".

DTC will take any action permitted to be taken by a holder of Registered Notes (including, without limitation, the presentation of Restricted Global Certificates for exchange as described above) only at the direction of one or more participants in whose account with DTC interests in Restricted Global Certificates are credited and only in respect of such portion of the aggregate principal amount of the relevant Restricted Global Certificates as to which such participant or participants has or have given such direction. However, in the circumstances described above, DTC will surrender the relevant Restricted Global Certificates for exchange for individual definitive Registered Notes (which will, in the case of Restricted Notes, bear the legend applicable to transfers pursuant to Rule 144A).

Although DTC, Clearstream, Luxembourg, Euroclear and the CMU Service have agreed to the foregoing procedures in order to facilitate transfers of beneficial interests in the Global Certificates among participants and accountholders of DTC, Clearstream, Luxembourg, Euroclear and the CMU Service, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Trustee or any Agent will have any responsibility for the performance by DTC, Clearstream, Luxembourg, Euroclear or the CMU Service or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

While a Restricted Global Certificate is lodged with DTC or the Custodian, Restricted Notes represented by individual definitive Registered Notes will not be eligible for clearing or settlement through DTC, Clearstream, Luxembourg, Euroclear or the CMU Service.

Pre-issue Trades Settlement for Registered Notes

It is expected that delivery of Notes will be made against payment therefor on the relevant Issue Date, which could be more than three business days following the date of pricing. Under Rule 15c6-I of the U.S. Securities and Exchange Commission under the Exchange Act, trades in the United States secondary market generally are required to settle within three business days (T+3), unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes in the United States on the date of pricing or the next succeeding business days until the relevant Issue Date will be required, by virtue of the fact that the Notes initially will settle beyond T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Settlement procedures in other countries will vary. Purchasers of Notes may be affected by such local settlement practices and purchasers of Notes who wish to trade Notes between the date of pricing and the relevant issue date should consult their own adviser.

PRC CURRENCY CONTROLS

Remittance of Renminbi into and outside the PRC

The Renminbi is not a freely convertible currency. The remittance of Renminbi into and outside the PRC is subject to controls imposed under PRC law.

Current Account Items

Under PRC foreign exchange control regulations, current account item payments include payments for imports and exports of goods and services, payments of income and current transfers into and outside the PRC.

Prior to July 2009, all current account items were required to be settled in foreign currencies. Since July 2009, the PRC has commenced a scheme pursuant to which Renminbi may be used for settlement of imports and exports of goods between approved pilot enterprises in five designated pilot cities in the PRC being Shanghai, Guangzhou, Dongguan, Shenzhen and Zhuhai and enterprises in designated offshore jurisdictions including Hong Kong and Macau. On 17 June 2010, the PRC government promulgated the Circular on Issues concerning the Expansion of the Scope of the Pilot Program of Renminbi Settlement of Cross-Border Trades (Yin Fa (2010) No. 186) (the "Circular"), pursuant to which (i) Renminbi settlement of imports and exports of goods and of services and other current account items became permissible, (ii) the list of designated pilot districts was expanded to cover 20 provinces including Beijing, Shanghai, Tianjin, Chongqing, Guangdong, Jiangsu, Zhejiang, Liaoning, Shandong and Sichuan, and (iii) the restriction on designated offshore jurisdictions was lifted. Accordingly, any enterprises in the designated pilot districts and offshore enterprises are entitled to use Renminbi to settle any current account items between them (except in the case of payments for exports of goods from the PRC, such Renminbi remittance may only be effected by approved pilot enterprises in designated pilot districts in the PRC). In particular, any foreign invested enterprises located in the designated pilot districts may remit all lawful dividends and distribution payments in Renminbi to its foreign investors outside the PRC. The pilot scheme was further extended in August 2011 to cover all provinces in the PRC and to make RMB trade and other current account settlement available in all countries worldwide.

As a new regulation, the Circular will be subject to interpretation and application by the relevant PRC authorities. Local authorities may adopt different practices in applying the Circular and impose conditions for settlement of current account items.

Capital Account Items

Under PRC foreign exchange control regulations, capital account items include cross-border transfers of capital, direct investments, securities investments, derivative products and loans. Capital account payments are generally subject to approval of the relevant PRC authorities.

Settlements for capital account items are generally required to be made in foreign currencies. For instance, foreign investors (including any Hong Kong investors) are generally required to make any capital contribution to foreign invested enterprises in a foreign currency in accordance with the terms set out in the relevant joint venture contracts and/or articles of association as approved by the relevant authorities. Foreign invested enterprises or any other relevant PRC parties are also generally required to make capital account item payments including proceeds from liquidation, transfer of shares, reduction of capital and principal repayment under foreign debt to foreign investors in a foreign currency. That said, the relevant PRC authorities may approve a foreign entity to make a capital contribution or shareholder's loan to a foreign invested enterprise with Renminbi lawfully obtained by it outside the PRC and for the foreign invested enterprise to service interest and principal repayment to its foreign investor outside the PRC in Renminbi on a trial basis. The foreign invested enterprise may also be required to complete registration and verification process with the relevant PRC authorities before such RMB remittances.

As mentioned on page 36 of this Prospectus, the MOFCOM Circular provides that if a foreign investor intends to make investments by way of (i) establishing a new enterprise, (ii) increasing the registered capital of an existing enterprise, (iii) acquiring an onshore enterprise or (iv) providing a loan in the PRC, in each case, with Renminbi that is generated from cross-border trade settlement or that is lawfully obtained outside the PRC, such investments need to be approved by MOFCOM. In April 2011, the State Administration of Foreign Exchange ("SAFE") promulgated the Circular on Issues Concerning the Capital Account Items in connection with Cross-Border Renminbi (the "SAFE Circular"), which provides that borrowing by an onshore entity of Renminbi loans from an offshore entity shall in principle follow the current regulations on borrowing foreign debts.

The PBOC Notice provides that if a foreign company intends to make investments in the PRC with Renminbi that is lawfully obtained outside the PRC by way of (i) establishing a new enterprise, (ii) acquiring

an equity interest in a PRC company, (iii) increasing the registered capital of any existing enterprise in the PRC or (iv) providing a shareholder's loan, such investments need to be approved by PBOC.

As mentioned on page 37 of this Prospectus, MOFCOM promulgated the MOFCOM RMB FDI Circular on 12 October 2011 which provides that MOFCOM's prior written consent, which was previously required under the MOFCOM Circular, is no longer required for RMB FDI. In addition, MOFCOM and its local counterparts are now authorised to approve RMB FDI in accordance with existing PRC laws and regulations regarding foreign investment, with the following exceptions which require the preliminary approval by the provincial counterpart of MOFCOM and the consent of MOFCOM: (i) RMB FDI with the capital contribution in Renminbi of RMB300 million or more; (ii) RMB FDI in financing guarantee, financing lease, micro financing or auction industries; (iii) RMB FDI in foreign invested investment companies, venture capital or equity investment enterprises; or (iv) RMB FDI in cement, iron & steel, electrolytic aluminum, shipbuilding or other policy sensitive sectors. In addition, RMB FDI in real estate sector is allowed following the existing rules and regulations of foreign investment in real estate, although Renminbi foreign debt remains unavailable to foreign invested real estate enterprises. The proceeds of RMB FDI may not be used towards investment in securities, financial derivatives or entrustment loans in the PRC, except for investments in PRC domestic listed companies through private placements or share transfers by agreement. On 13 October 2011, PBOC issued the PBOC RMB FDI Measures, pursuant to which PBOC special approval for RMB FDI and shareholder loans previously required by the PROC Notice is no longer necessary. The PBOC RMB FDI Measures also provides, among others, that: (i) foreign invested enterprises are required to conduct registrations with the local branch of PBOC within ten working days after obtaining the business licenses for the purpose of Renminbi settlement; (ii) a foreign investor is allowed to open a Renminbi expense account to reimburse some expenses before the establishment of a foreign invested enterprise and the balance in such an account can be transferred to the Renminbi capital account of such foreign invested enterprise when it is established; and (iii) commercial banks can remit a foreign investor's Renminbi proceeds from distribution (dividends or otherwise) by its PRC subsidiaries out of the PRC after reviewing certain requisite documents, if a foreign investor intends to use its Renminbi proceeds from distribution (dividends or otherwise) by its PRC subsidiaries. A foreign investor may now also open a RMB re-investment account to pool Renminbi proceeds, and PRC parties selling stakes in domestic enterprises to foreign investors can open RMB accounts and receive the purchase price paid by foreign investors in Renminbi. The PBOC RMB FDI Measures further state that the foreign debt quota of a foreign invested enterprise constitutes its Renminbi debt and foreign currency debt from its offshore shareholders, offshore affiliates and offshore financial institutions, and a foreign invested enterprise may open a Renminbi account to receive its Renminbi proceeds borrowed offshore by submitting the loan contract denominated in Renminbi to the commercial bank and make repayments of principal and interest on such debt in Renminbi by submitting certain required documents to the commercial bank.

As the MOFCOM Circular, the SAFE Circular, the PBOC Notice, the MOFCOM RMB FDI Circular and the PBOC RMB FDI Measures are relatively new regulations, they will be subject to interpretation and application by the relevant PRC authorities.

Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in such rules.

6. As discussed in the "Regulatory compliance, reviews, requests for information and investigations" section on page 30 of the 2014 Interim Report (which is incorporated by reference herein), in 2012 the Group reached settlements with the US authorities regarding US sanctions compliance in the period 2001 to 2007, involving a Consent Order by the New York Department of Financial Services (NYDFS), a Cease and Desist Order by the Federal Reserve Bank of New York (FRBNY), Deferred Prosecution Agreements with each of the Department of Justice and the District Attorney of New York (each a 'DPA') and a Settlement Agreement with the Office of Foreign Assets Control. In addition to the civil penalties totalling \$667 million, the terms of these settlements (together the 'Settlements') include a number of conditions and ongoing obligations with regard to improving sanctions, Anti-Money Laundering (AML) and Bank Secrecy Act (BSA) controls such as remediation programmes, reporting requirements, compliance reviews and programmes, banking transparency requirements, training measures, audit programmes, disclosure obligations and the appointment of an independent monitor (the "Monitor"). These obligations are managed under a programme of work referred to as the US Supervisory Remediation Program (SRP). The SRP comprises workstreams designed to ensure compliance with the remediation requirements contained in all of the

Settlements. The Group has established a Financial Crime Risk Mitigation Programme (FCRMP), which is a comprehensive, multi-year programme designed to review many aspects of the Group's existing approach to anti-money laundering and sanctions compliance and to enhance them as appropriate. One key component of the FCRMP is to oversee and manage the SRP. As part of the FCRMP the Group or its advisors may identify new issues, potential breaches or matters requiring further review or further process improvements that could impact the scope or duration of the FCRMP.

The Group is engaged with all relevant authorities to implement these programmes and meet the obligations under the Settlements and is responding to further requests for information and inquiries related to its historic, current and future compliance with the relevant sanctions and AML regimes of all jurisdictions in which it operates.

As a result of its ongoing reviews and continuing engagement with US authorities, the Group believes that the term of the DPAs is likely to be extended. (The DPAs provide that if the Group fulfils all the requirements imposed by the DPAs, the applicable charges against the Group will be dismissed at the end of their applicable term.)

On 19 August 2014, the Group announced that it had reached a final settlement with the NYSDFS regarding deficiencies in the anti-money laundering transaction surveillance system in its New York branch (the "Branch"). The system, which is separate from the sanctions screening process, is one part of the Group's overall financial crime controls and is designed to alert the Branch to unusual transaction patterns that require further investigation on a post-transaction basis.

The settlement provisions are summarised as follows:

- (i) a civil monetary penalty of U.S.\$ 300 million;
- (ii) enhancements to the transaction surveillance system at the Branch;
- (iii) a two-year extension to the term of the Monitor; and
- (iv) the following set of temporary remediation measures, which will remain in place until the transaction surveillance system's detection scenarios are operating to a standard approved by the Monitor:
 - (a) the Branch will not, without prior approval of the NYSDFS in consultation with the Monitor, open a U.S. dollar demand deposit account for any client that does not already have such an account with the Branch;
 - (b) requirements for inclusion of identifying information for originators and beneficiaries of some affiliate and third-party payment messages cleared through the Branch;
 - (c) a restriction on U.S. dollar clearing services for certain Hong Kong retail business clients; and
 - (d) enhanced monitoring of certain small and medium sized enterprise clients in the United Arab Emirates. The Group is seeking to exit this business as part of its broader efforts to sharpen its strategic focus, withdrawing or re-aligning non-strategic businesses, including those where increased regulatory costs and risks undermine their economic viability. The exit will take place under the timeline set out in the settlement; if the exit is not achieved within this period, further restrictions will be required, unless an extension is granted by the NYSDFS.

The Group recognises that its compliance with historical, current and future sanctions, as well as AML and BSA requirements, and customer due diligence practices, not just in the US but throughout its footprint, is and will remain a focus of the relevant authorities.

As part of their remit to oversee market conduct, regulators and other agencies in certain markets are conducting investigations or requesting reviews into a number of areas of market conduct, including sales and trading, involving a range of financial products, and submissions made to set various market interest rates and other financial benchmarks, such as foreign exchange. At relevant times, certain of the Group's branches and/or subsidiaries were (and are) participants in some of those markets, in some cases submitting data to bodies that set such rates and other financial benchmarks. The Group is contributing to industry proposals to strengthen financial benchmarks processes in certain markets and continues to review its practices and processes in the light of the investigations, reviews and the industry proposals.

The Group is co-operating with all relevant ongoing reviews, requests for information and investigations. While the Group seeks to comply with the letter and spirit of all applicable laws and regulations, the outcome of these reviews, requests for information and investigations is uncertain and could result in further actions, penalties or fines but it is not possible to predict the extent of any liabilities or other consequences that may arise.

18. SCPLC and SCB have entered or will enter into an agreement with Euroclear and Clearstream, Luxembourg (the "ICSDs") in respect of any Notes issued in NGN form that SCPLC or SCB may request be made eligible for settlement with the ICSDs (each, an "ICSD Direct Agreement"). The ICSD Direct Agreement sets out that the ICSDs will, in respect of any such Notes, *inter alia*, maintain records of their respective portion of the issue outstanding amount and will, upon the Issuer's request, produce a statement for SCPLC's or SCB's use showing the total nominal amount of its customer holdings for such Notes as of a specified date.

19. Any indication of yield included in any Final Terms has been calculated as at the Issue Date of the relevant Notes and is not an indication of future yield. Any such indication is calculated on the basis of the Issue Price, using the following formula:

$$P = \frac{C}{r} (1 - (1 + r)^{-n}) + A(1 + r)^{-n}$$

where:

P is the Issue Price of the Notes;

C is the Interest Amount;

A is the principal amount of Notes due on redemption;

n is time to maturity in years; and

r is the yield.
