Such forward-looking statements involve substantial risks and uncertainties. We have tried, wherever possible, to identify such statements by using words such as “will,” “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “target,” “forecast,” “goal,” “objective,” “aim” and other words and terms of similar meaning, or by using future dates in connection with any discussion of, among other things, our anticipated future operating or financial performance, business plans and prospects, in-line products and product candidates, strategic reviews, capital allocation, plans related to share repurchases and dividends and business-development plans, including with respect to a possible combination with AstraZeneca PLC. In particular, these include statements relating to future actions, business plans and prospects, prospective products or product approvals, future performance or results of current and anticipated products, sales efforts, expenses, interest rates, foreign exchange rates, the outcome of contingencies, such as legal proceedings, plans relating to share repurchases and dividends, government regulation and financial results.

A list and description of risks, uncertainties and other matters can be found in our Annual Report on Form 10-K for the year ended December 31, 2013 and in our Quarterly Report on Form 10-Q for the quarterly period ended March 30, 2014, in each case including in the sections thereof captioned “Forward-Looking Information and Factors That May Affect Future Results” and “Risk Factors” in our current reports on Form 8-K, and in this prospectus supplement and accompanying prospectus, in each case including in the section thereof captioned “Risk Factors.” You should understand that it is not possible to predict or identify all such factors. We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of anticipated results is subject to substantial risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from past results and those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements.

SUMMARY

The following summary highlights information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. It does not contain all of the information that you should consider before investing in the notes. You should carefully read this entire prospectus supplement, as well as the accompanying prospectus and the documents incorporated by reference that are described under “Where You Can Find More Information.”

Pfizer Inc.

We are a research-based, global biopharmaceutical company. We apply science and our global resources to bring therapies to people that extend and significantly improve their lives through the discovery, development and manufacture of healthcare products. Our global portfolio includes medicines and vaccines, as well as many of the world’s best-known consumer healthcare products. We work across developed and emerging markets to advance wellness, prevention, treatments and cures that challenge the most feared diseases of our time. We collaborate with healthcare providers, governments and local communities to support and expand access to reliable, affordable healthcare around the world. Our revenues are derived from the sale of our products, and, to a much lesser extent, from alliance agreements, under which we co-promote products discovered by other companies. The majority of our revenues come from the manufacture and sale of biopharmaceutical products.

Pfizer Inc. was incorporated under the laws of the State of Delaware on June 2, 1942. Our principal executive offices are located at 235 East 42nd Street, New York, NY 10017-5755 and our telephone number is (212) 733-2323.

Recent Developments

Proposed Combination with AstraZeneca PLC

In January 2014, we submitted a preliminary, non-binding indication of interest to the Board of Directors of AstraZeneca PLC (“AstraZeneca”) regarding a possible merger transaction with AstraZeneca. After limited high-level discussions, AstraZeneca declined to pursue negotiations, the discussions were discontinued on January 14, 2014 and we ceased active consideration of the possible transaction.

In light of then recent market developments, we contacted AstraZeneca on April 26, 2014 seeking to renew discussions, but AstraZeneca again declined to engage. We announced on May 2, 2014 that, having consulted with major shareholders, we had submitted a revised written proposal to AstraZeneca to make an offer to combine the two companies pursuant to which AstraZeneca shareholders would receive, for each AstraZeneca share, 1.845 shares in the combined entity and 1,598 pence in cash. We also announced that our making of any firm offer would be subject to certain pre-conditions, which we may waive in whole or in part. The revised proposal was rejected by AstraZeneca on May 2, 2014. We are considering our options with respect to AstraZeneca.

We reserved the right to introduce other forms of consideration and/or vary the mix of consideration and waive in whole or in part any of the pre-conditions to making an offer. There can be no certainty that any offer will ultimately be made even if the pre-conditions to making an offer are satisfied or waived, in whole or in part.

The proposed transaction, if consummated, is expected to result in the combination of the two companies under a new U.K.-incorporated holding company. The U.K. City Code on Takeovers and Mergers provides a 28-day window until May 26, 2014 in which we may either announce a firm offer or confirm that we will not be making an offer. This deadline can be extended with the agreement of AstraZeneca and with the consent of the U.K. Takeover Panel.

Table of Contents

There are substantial risks and uncertainties related to a possible combination between us and AstraZeneca, including, without limitation, whether AstraZeneca will engage in discussions with us regarding a possible combination; whether and on what terms we will pursue or consummate any combination with AstraZeneca, including whether the conditions to consummating any such combination will be satisfied or waived; and our ability to realize the anticipated benefits, including operational and financial synergies, potential growth opportunities and other benefits, from any such combination.	
In addition, if a combination between Pfizer and AstraZeneca is consummated, the combination may adversely impact the trading price of the notes. Furthermore, the indenture that will govern the notes does not contain restrictive covenants that would afford holders of the notes protection in the event of a highly-leveraged transaction involving us or any of our affiliates or other events involving us that may adversely affect our creditworthiness or the trading price of the notes. See “Description of the Notes” beginning on page S-9 of this prospectus supplement. If new indebtedness is added to our current debt levels, the related risks that we now face could intensify.	
This document is neither an offer to purchase nor a solicitation of an offer to sell shares of Pfizer or AstraZeneca. Subject to future developments, Pfizer may file a proxy statement/prospectus and/or tender offer documents with the Commission in connection with a possible combination between Pfizer and AstraZeneca. Pfizer and AstraZeneca shareholders should read those filings, and any other filings made by Pfizer with the SEC in connection with a possible combination, as they will contain important information. Those documents, if and when filed, as well as Pfizer’s other public filings with the SEC, may be obtained without charge at the SEC’s website at www.sec.gov and at Pfizer’s website at www.pfizer.com .

Risk Factors	You should consider carefully all the information set forth and incorporated by reference in this prospectus supplement and the accompanying prospectus and, in particular, you should evaluate the information set forth under the heading “Risk Factors” in this prospectus supplement before investing in the notes.

RISK FACTORS

Before purchasing the notes, you should consider carefully the information under the headings “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2013, in our Quarterly Report on Form 10-Q for the quarterly period ended March 30, 2014 and in the accompanying prospectus, and the following risk factors. You should also carefully consider the other information included in this prospectus supplement, the accompanying prospectus and other information incorporated by reference herein and therein. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. See “Where You Can Find More Information.”

The notes are unsecured and will be effectively junior to our secured indebtedness to the extent of the collateral therefor.

The notes are our unsecured general obligations. Holders of our secured indebtedness, if any, will have claims that are prior to your claims as holders of the notes, to the extent of the assets securing such indebtedness. Thus, in the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding, our pledged assets would be available to satisfy obligations of our secured indebtedness before any payment could be made on the notes. To the extent that such assets cannot satisfy in full our secured indebtedness, the holders of such indebtedness would have a claim for any shortfall that would rank equally in right of payment with the notes. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of the notes may receive less, ratably, than holders of our secured indebtedness.

Active trading markets may not develop for the notes and the notes may trade at a discount from their initial offering price.

The notes are new issuances of securities for which no public trading market currently exists. Although the underwriters have informed us that they intend to make markets in the notes, they are not obligated to do so, and any such market-making activities may be discontinued at any time without notice. Accordingly, a liquid market for the notes may not develop or be maintained. The notes will not be listed on any national securities exchange or be quoted on any automated dealer quotation system. In addition, subsequent to their initial issuance, the notes may trade at a discount from their initial offering prices, depending upon prevailing interest rates, the market for similar notes, our performance and other factors. The market for the notes may not be free from disruptions that may adversely affect the prices at which you may sell the notes.

Holders of the notes will be structurally subordinated to our subsidiaries’ third-party indebtedness and obligations.

The notes are obligations of Pfizer Inc. exclusively and not of any of our subsidiaries. A significant portion of our operations is conducted through our subsidiaries. Our subsidiaries are separate legal entities that have no obligation to pay any amounts due under the notes or to make any funds available therefor, whether by dividends, loans or other payments. Except to the extent we are a creditor with recognized claims against our subsidiaries, all claims of third-party creditors (including trade creditors) and holders of preferred stock, if any, of our subsidiaries will have priority with respect to the assets of such subsidiaries over the claims of our creditors, including holders of the notes. Consequently, the notes will be structurally subordinated to all existing and future liabilities of any of our subsidiaries and any subsidiaries that we may in the future acquire or establish. As of March 30, 2014, our wholly-owned subsidiaries had aggregate borrowings under lines of credit and outstanding debt securities of approximately \$7.0 billion.

Uncertainty relating to the LIBOR calculation process may adversely affect the value of the floating rate notes.

Regulators and law enforcement agencies in the United Kingdom and elsewhere are conducting civil and criminal investigations into whether the banks that provide rates to the British Bankers’ Association, or the BBA,

[Table of Contents](#)

in connection with the calculation of LIBOR may have been under-reporting or otherwise manipulating or attempting to manipulate LIBOR. A number of BBA member banks have entered into settlements with their regulators and law enforcement agencies with respect to alleged manipulation of LIBOR.

Actions by the BBA, regulators or law enforcement agencies may result in changes to the manner in which LIBOR is determined. At this time, it is not possible to predict the effect of any such changes and any other reforms to LIBOR that may be enacted in the United Kingdom or elsewhere. Uncertainty as to the nature of such potential changes may adversely affect the trading market for LIBOR-based securities, including the floating rate notes.

RATIO OF EARNINGS TO FIXED CHARGES

Our consolidated ratio of earnings to fixed charges for each of the years ended December 31, 2009 through 2013 and the three month period ended March 30, 2014 is set forth below. All financial information for the years ended December 31, 2013, 2012, 2011, 2010 and 2009 reflect the June 24, 2013 disposition of Zoetis and its presentation as a discontinued operation. All financial information for the years ended December 31, 2011, 2010 and 2009 reflect Capsugel (the sale of which closed on August 1, 2011) as a discontinued operation. The financial information for the years ended December 31, 2012, 2011, 2010 and 2009 reflects the Nutrition business, which was acquired in 2009 and which we sold on November 30, 2012, as a discontinued operation.

For the purpose of computing these ratios, “earnings” consists of income from continuing operations before provision for taxes on income, noncontrolling interests and cumulative effect of a change in accounting principles less noncontrolling interests plus fixed charges, distributed income of equity-method investments, amortization of capitalized interest, excluding capitalized interest and equity income from equity-method investments. “Fixed charges” consists of interest expense (which includes amortization of debt premium, discount and other debt costs), preferred stock dividends, one-third of rental expense, which we believe to be a conservative estimate of an interest factor in our leases, which are not material, and capitalized interest. The ratio was calculated by dividing the sum of the earnings (as defined above) by the sum of the fixed charges (as defined above).

	Three Months Ended March 30, 2014	Year Ended December 31,				
		2013	2012	2011	2010	2009
Ratio of earnings to fixed charges	8.9	11.3	7.7	7.2	5.4	8.5

USE OF PROCEEDS

We expect to receive net proceeds from this offering of \$4,473,350,000 (after deducting underwriting discounts, but before deducting expenses of the offering). We intend to use the net proceeds for general corporate purposes, including (i) pre-funding the repayment at maturity of the €900 million outstanding of our 4.75% notes due December 2014 and (ii) pre-funding a portion of our outstanding 5.35% notes due March 2015. We may use funds that are not immediately needed for these purposes to temporarily invest in short-term marketable securities or repay a portion of our outstanding commercial paper. As of May 5, 2014, we had approximately \$3.75 billion of commercial paper outstanding with a weighted average annual interest rate of 0.0955% and remaining maturities of 9 to 45 days.

DESCRIPTION OF NOTES

Each series of notes is a series of debt securities described in the accompanying prospectus. Reference should be made to the accompanying prospectus for a detailed summary of additional provisions of the notes and of the indenture dated as of January 30, 2001 between Pfizer and The Bank of New York Mellon (formerly known as The Bank of New York), as successor to JPMorgan Chase Bank (formerly known as The Chase Manhattan Bank), as trustee, under which the notes are issued, as supplemented by the fourth supplemental indenture to be dated as of May 15, 2014 between Pfizer Inc. and The Bank of New York Mellon, as trustee. The following description is a summary of selected portions of the indenture and the fourth supplemental indenture. It does not restate the indenture and the fourth supplemental indenture and those documents, not this description, define your rights as a holder of the notes.

References in this section to “Pfizer,” “we,” “us” and “our” are to Pfizer Inc., unless otherwise stated or the context so requires. The provisions described in the accompanying prospectus under the heading “Description of Debt Securities—Defeasance” will apply to the notes.

Principal, Maturity and Interest

The floating rate notes will be initially limited to \$500,000,000 aggregate principal amount, the 2017 notes will initially be limited to \$1,000,000,000 aggregate principal amount, the 2019 notes will initially be limited to \$1,500,000,000 aggregate principal amount, the 2024 notes will initially be limited to \$1,000,000,000 aggregate principal amount and the 2044 notes will initially be limited to \$500,000,000 aggregate principal amount. The floating rate notes will mature on May 15, 2017, the 2017 notes will mature on May 15, 2017, the 2019 notes will mature on May 15, 2019, the 2024 notes will mature on May 15, 2024 and the 2044 notes will mature on May 15, 2044. We will issue the notes in denominations of \$2,000 and in integral multiples of \$1,000 in excess of \$2,000.

The floating rate notes will bear interest at a floating rate equal to LIBOR plus 0.150% per annum, as described under “—Interest—Floating Rate Notes.” Interest on the floating rate notes will accrue from and including May 15, 2014, to, but excluding, the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to, but excluding, the next interest payment date or maturity date, as the case may be. We refer to each of these periods as an “interest period.” The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the floating rate notes then outstanding by an accrued interest factor. This accrued interest factor is computed by adding the interest factor calculated for each day from May 15, 2014, or from the last date we paid interest to you, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. We will make interest payments on the floating rate notes quarterly in arrears on each February 15, May 15, August 15 and November 15, beginning on August 15, 2014.

Interest on the 2017 notes will accrue at the annual rate of 1.100%, interest on the 2019 notes will accrue at the annual rate of 2.100%, interest on the 2024 notes will accrue at the annual rate of 3.400% and interest on the 2044 notes will accrue at the annual rate of 4.400%. Interest on the fixed rate notes will accrue from and including May 15, 2014, and is payable on May 15 and November 15 of each year, beginning on November 15, 2014. Interest on the fixed rate notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

We will make each interest payment to the holders of record of the fixed rate notes at the close of business on the May 1 or November 1 immediately preceding the relevant interest payment date.

The trustee, through its corporate trust office in the Borough of Manhattan, City of New York (in such capacity, the “paying agent”) will act as our paying agent with respect to the notes. Payments of principal, interest and premium, if any, will be made by us through the paying agent to DTC as described under “—Book-Entry System.”

Interest—Floating Rate Notes

The interest rate on the floating rate notes will be calculated by The Bank of New York Mellon, as calculation agent, and will be equal to LIBOR plus 0.150%. The calculation agent will set the initial interest rate on May 15, 2014 and reset the interest rate on each interest payment date, each of which we refer to as an “interest reset date.” The second London business day preceding an interest reset date will be the “interest determination date” for that interest reset date. The interest rate in effect on each day that is not an interest reset date will be the interest rate determined as of the interest determination date pertaining to the immediately preceding interest reset date. The interest rate in effect on any day that is an interest reset date will be the interest rate determined as of the interest determination date pertaining to that interest reset date.

“LIBOR” will be determined by the calculation agent in accordance with the following provisions:

(a) With respect to any interest determination date, LIBOR will be the rate for deposits in United States dollars having a maturity of three months commencing on the first day of the applicable interest period that appears on Reuters Page LIBOR01 as of 11:00 a.m., London time, on that interest determination date. If, on an interest determination date, such rate does not appear on Reuters Page LIBOR01 as of 11:00 a.m., London time, or if Reuters Page LIBOR01 is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P.’s page “BBAM.” If no rate appears on Reuters Page LIBOR01 or Bloomberg L.P. page BBAM as of approximately 11:00 a.m., London time, on such interest determination date, LIBOR for that interest determination date will be determined in accordance with the provisions described in (b) below.

(b) With respect to an interest determination date on which no rate appears on Reuters Page LIBOR01 or Bloomberg L.P. page BBAM, as specified in (a) above, the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market, as selected by the calculation agent (after consultation with us), to provide the calculation agent with its offered quotation for deposits in United States dollars for the period of three months, commencing on the first day of the applicable interest period, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If at least two quotations are provided, then LIBOR on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, then LIBOR on the interest determination date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m., in The City of New York, on the interest determination date by three major banks in The City of New York selected by the calculation agent (after consultation with us) for loans in United States dollars to leading European banks, having a three-month maturity and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If, however, the banks selected by the calculation agent are not providing quotations in the manner described by the previous sentence, LIBOR determined as of that interest determination date will be LIBOR in effect on that interest determination date.

“Reuters Page LIBOR01” means the display designated on page LIBOR01 by Reuters Group plc (or such other page as may replace the LIBOR01 page on that service (or any successor service) or such other service as may be nominated by the British Bankers’ Association for the purpose of displaying London interbank offered rates for U.S. dollar deposits).

All percentages resulting from any calculation of the interest rate on the floating rate notes will be rounded to the nearest one hundred-thousandth of a percentage point with five one millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all dollar amounts used in or resulting from such calculation on the floating rate notes will be rounded to the nearest cent (with one-half cent being rounded upward). Each calculation of the interest rate on the floating rate notes by the calculation agent will (in the absence of manifest error) be final and binding on the noteholders and us.

Table of Contents

So long as any of the floating rate notes remains outstanding, there will at all times be a calculation agent. Initially, The Bank of New York Mellon will act as calculation agent. If that bank is unable or unwilling to continue to act as the calculation agent or if it fails to calculate properly the interest rate on the floating rate notes for any interest period, we will appoint another leading commercial or investment bank engaged in the London interbank market to act as calculation agent in its place. The calculation agent may not resign its duties without a successor having been appointed. We will make each interest payment to the holders of record of floating rate notes at the close of business on February 1, May 1, August 1 and November 1 immediately preceding the relevant interest payment date. The trustee, through its corporate trust office in the Borough of Manhattan, City of New York (in such capacity, the “paying agent”) will act as our paying agent with respect to the floating rate notes. Payments of principal, interest and premium, if any, will be made by us through the paying agent to DTC.

The interest rate on the floating rate notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States laws of general application.

Ranking

The notes will be unsecured general obligations of Pfizer and will rank equally with all other unsecured and unsubordinated indebtedness of Pfizer from time to time outstanding.

No Listing

The notes will not be listed on any national securities exchange or be quoted on any automated dealer quotation system.

Covenants

The indenture contains a provision that restricts our ability to consolidate with or merge into any other person or convey or transfer our properties and assets as an entirety or substantially as an entirety to any other person. The indenture does not restrict our ability to convey or transfer our properties and assets other than as an entirety or substantially as an entirety to any other person. See “Description of Debt Securities—Consolidation, Merger or Sale” in the accompanying prospectus. The indenture contains no other restrictive covenants, including those that would afford holders of the notes protection in the event of a highly-leveraged transaction involving Pfizer or any of its affiliates or other events involving us that may adversely affect our creditworthiness or the value of the notes. The indenture also does not contain any covenants relating to total indebtedness, interest coverage, stock repurchases, recapitalizations, dividends and distributions to shareholders, current ratios or acquisitions and divestitures. The notes will not have the benefit of covenants that relate to subsidiary guarantees, liens and sale leaseback transactions that apply to other of our existing unsecured and unsubordinated notes.

Further Issues

Pfizer may, without the consent of the holders of notes of any series, issue additional notes having the same ranking and the same interest rate, maturity and other terms as the notes of any series. Any additional notes having such similar terms, together with the notes of the applicable series, will constitute a single series of debt securities under the indenture. No additional notes of any series may be issued if an event of default has occurred with respect to the notes of that series. Pfizer will not issue any additional notes intended to form a single series with the notes of any series, unless such further notes will be fungible with all notes of the same series for U.S. federal income tax purposes.

Optional Redemption of Fixed Rate Notes; No Sinking Fund

At our option, we may redeem the fixed rate notes of any series, in whole or in part, at any time and from time to time. The redemption price will be equal to the greater of the following amounts:

- 100% of the principal amount of the fixed rate notes being redeemed on the redemption date; and
- the sum of the present values of the remaining scheduled payments of principal and interest on the fixed rate notes being redeemed on that redemption date (not including the amount, if any, of accrued and unpaid interest to, but excluding, the redemption date) discounted to the redemption date on a semi-annual basis at the Treasury Rate (as defined below), as determined by the Independent Investment Banker (as defined below), plus 4 basis points in the case of the 2017 notes, plus 7 basis points in the case of the 2019 notes, plus 12 basis points in the case of the 2024 notes and plus 15 basis points in the case of the 2044 notes;

plus, in each case, accrued and unpaid interest on the fixed rate notes being redeemed to, but excluding, the redemption date.

Notwithstanding the foregoing, installments of interest on the applicable fixed rate notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the applicable fixed rate notes and the indenture. The redemption price will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

We will mail notice of any redemption at least 10 days, but not more than 60 days, before the redemption date to each registered holder of the fixed rate notes to be redeemed. Once notice of redemption is mailed, the fixed rate notes called for redemption will become due and payable on the redemption date at the applicable redemption price, plus accrued and unpaid interest applicable to such fixed rate notes to, but excluding, the redemption date.

“Comparable Treasury Issue” means, for any series of fixed rate notes, the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the fixed rate notes of such series to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the fixed rate notes of such series.

“Comparable Treasury Price” means, with respect to any redemption date and series of fixed rate notes to be redeemed, (A) the average of the Reference Treasury Dealer Quotations for such redemption date and series, after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (B) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of such Reference Treasury Dealer Quotations, or (C) if only one Reference Treasury Dealer Quotation is received, such Reference Treasury Dealer Quotation.

“Independent Investment Banker” means one of the Reference Treasury Dealers appointed by us to act as the “Independent Investment Banker.”

“Reference Treasury Dealer” means each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, Barclays Capital Inc., Deutsche Bank Securities Inc. and J.P. Morgan Securities LLC (or their respective affiliates that are Primary Treasury Dealers), and their respective successors; provided, however, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in the United States (a “Primary Treasury Dealer”), we will substitute therefor another Primary Treasury Dealer.

Table of Contents

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date and series of fixed rate notes to be redeemed, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue for such series (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker by such Reference Treasury Dealer at 5:00 p.m. (New York City time) on the third business day preceding such redemption date.

“Treasury Rate” means, with respect to any redemption date for any series of fixed rate notes, the rate per annum equal to the semi-annual equivalent yield to maturity of the applicable Comparable Treasury Issue, assuming a price for such Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the applicable Comparable Treasury Price for such redemption date.

On and after the redemption date, interest will cease to accrue on the fixed rate notes or any portion of the fixed rate notes called for redemption (unless we default in the payment of the redemption price and accrued and unpaid interest). On or before the redemption date, we will deposit with a paying agent (or the trustee) money sufficient to pay the redemption price of and accrued and unpaid interest on the fixed rate notes to be redeemed on that date. If fewer than all of the fixed rate notes of any series are to be redeemed, the fixed rate notes to be redeemed shall be selected by lot by DTC, in the case of fixed rate notes represented by a global security, or by the trustee by a method the trustee deems to be fair and appropriate, in the case of fixed rate notes that are not represented by a global security.

We may not redeem the floating rate notes at our option prior to maturity.

The notes are not entitled to the benefit of a sinking fund.

Book-Entry System

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the notes. Each series of notes will be issued as fully registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One or more fully-registered note certificates will be issued for each series of notes, in the aggregate principal amount of such issue, and will be deposited with DTC.

Beneficial interests in the notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants, including Euroclear Bank S.A./N.V., as operator of the Euroclear System (“Euroclear”) and Clearstream Banking, Société Anonyme, Luxembourg (“Clearstream Banking”). Investors may elect to hold interests in the notes through any of DTC, Euroclear or Clearstream Banking, if they are participants in these systems, or indirectly through organizations which are participants in these systems. Euroclear and Clearstream Banking hold securities on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective depositaries, which in turn hold the securities in customers’ securities accounts in the depositaries’ names on the books of DTC.

DTC has informed us that DTC is:

- a limited-purpose trust company organized under the New York Banking Law;
- a “banking organization” within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act.

Table of Contents

Euroclear and Clearstream Banking have informed us that: Euroclear and Clearstream Banking each hold securities for their customers and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream Banking provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream Banking also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream Banking have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream Banking customers are world-wide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream Banking is available to other institutions, which clear through or maintain a custodial relationship with an account holder of either system.

DTC holds securities that its participants (“Direct Participants”) deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Direct Participants’ accounts, which eliminates the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The rules applicable to DTC and its Direct and Indirect Participants are on file with the SEC.

Purchases of notes under the DTC system must be made by or through Direct Participants, which receive a credit for the notes on DTC’s records. The ownership interest of each actual purchaser of each note (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmations from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in notes except in the event that use of the book-entry system for the notes is discontinued. As a result, the ability of a person having a beneficial interest in the notes to pledge such interest to persons or entities that do not participate in the DTC system, or to otherwise take actions with respect to such interest, may be affected by the lack of a physical certificate evidencing such interest. In addition, the laws of some states require that certain persons take physical delivery in definitive form of securities that they own and that security interests in negotiable instruments can only be perfected by delivery of certificates representing the instruments. Consequently, the ability to transfer notes evidenced by the global notes will be limited to such extent.

To facilitate subsequent transfers, all notes deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of notes with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the notes; DTC’s records reflect only the identity of the Direct Participants to whose accounts such notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

[Table of Contents](#)

Beneficial Owners of notes may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the notes, such as redemptions, tenders, defaults, and proposed amendments to the documents related to the notes. For example, Beneficial Owners of notes may wish to ascertain that the nominee holding the notes for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices will be sent to DTC. If less than all of the notes within a series are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the notes. Under its usual procedures, DTC mails an Omnibus Proxy to the issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments of principal, interest and premium, if any, on the notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from us on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name" and will be the responsibility of such Participant and not of DTC, or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is our responsibility and disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

Investors electing to hold their notes through DTC will follow the settlement practices applicable to U.S. corporate debt obligations. The securities custody accounts of investors will be credited with their holdings on the settlement date against payment in same-day funds within DTC effected in U.S. dollars.

Investors electing to hold their notes through Euroclear or Clearstream Banking accounts will follow the settlement procedures applicable to conventional eurobonds.

Secondary market sales of book-entry interests in the notes between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled using the procedures applicable to United States corporate debt obligations in DTC's Settlement System. Secondary market sales of book-entry interests in the notes held through Euroclear or Clearstream Banking to purchasers of book-entry interests in the notes through Euroclear or Clearstream Banking will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream Banking and will be settled using the procedures applicable to conventional eurobonds.

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us. Under such circumstances, in the event that a successor securities depository is not obtained, note certificates are required to be printed and delivered. In addition, we may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, note certificates will be printed and delivered. See "Description of Debt Securities—Global Securities" in the accompanying prospectus.

We will not have any responsibility or obligation to participants in the DTC system or the persons for whom they act as nominees with respect to the accuracy of the records of DTC, its nominee or any Direct or Indirect Participant with respect to any ownership interest in the notes, or with respect to payments to or providing of notice for the Direct Participants, the Indirect Participants or the beneficial owners of the notes.

The information in this section concerning DTC, Euroclear, Clearstream Banking and their book-entry systems has been obtained from sources that we believe to be reliable. Neither we, the trustee or the underwriters, dealers or agents are responsible for the accuracy or completeness of this information.

CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes certain U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of an investment in the notes as of the date hereof. Unless otherwise noted, this summary deals only with notes that are held as capital assets by a holder that acquired the notes upon original issuance at their initial offering price.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to a particular holder in light of that holder's particular circumstances, or to certain types of holders subject to special treatment under U.S. federal income tax law (e.g., financial institutions, partnerships or other pass-through entities, expatriates or former long-term residents of the United States, persons subject to the alternative minimum tax, individual retirement accounts or other tax-deferred accounts, broker-dealers, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, persons holding notes as a position in a "straddle," or as part of a synthetic security or "hedge," "conversion transaction," "constructive sale" or other integrated investment, and tax-exempt organizations). Furthermore, this summary does not address tax consequences arising under the tax laws of any state, locality or non-U.S. jurisdiction.

This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the "Code"), its legislative history, existing and proposed regulations, and published rulings and court decisions, all as in effect as of the date hereof, and all of which are subject to change, possibly with retroactive effect, which could alter the U.S. federal income tax consequences described below. No ruling from the Internal Revenue Service ("IRS") has been or will be sought on any of the issues discussed herein, and there can be no assurance that the IRS or a court will concur with the conclusions reached below.

For purposes of this summary, a "Non-U.S. Holder" is a beneficial owner of notes (other than a partnership or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) that is not a U.S. Holder. A "U.S. Holder" is a beneficial owner of notes that is for U.S. federal income tax purposes, (i) an individual citizen or resident of the United States, (ii) a corporation (or other entity that is treated as a corporation) that is created or organized in or under the laws of the United States or any state or political subdivision thereof, (iii) an estate the income of which is subject to U.S. federal income tax regardless of its source, or (iv) a trust if (a) it is subject to the primary supervision of a court within the United States and one or more United States persons are authorized to control all of its substantial decisions or (b) it has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) holds notes, the tax treatment of a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Partnerships and other entities or arrangements that are classified as partnerships for U.S. federal income tax purposes and persons holding notes through any such entity should consult an independent tax advisor.

EACH PROSPECTIVE INVESTOR SHOULD CONSULT AN INDEPENDENT TAX ADVISOR AS TO THE U.S. FEDERAL, STATE, LOCAL, NON-U.S., AND ANY OTHER TAX CONSEQUENCES TO IT OF AN INVESTMENT IN THE NOTES.

Interest and Gain on the Notes

A Non-U.S. Holder generally will not be subject to U.S. federal withholding tax on interest received on the notes, provided that such holder (i) does not own, actually or constructively, 10% or more of the total combined voting power of all classes of our stock entitled to vote, (ii) is not a controlled foreign corporation directly or indirectly related to us within the meaning of Section 881(c)(3)(C) of the Code, and (iii) satisfies certain certification requirements under penalty of perjury as to its status as a Non-U.S. Holder (generally through the provision of a properly completed and executed applicable IRS Form W-8).

Table of Contents

Except as described in the preceding paragraph, a Non-U.S. Holder generally will not be subject to U.S. federal income tax on interest received on the notes, unless such interest is effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States (and, if an applicable treaty so requires, is attributable to the conduct of a trade or business through a permanent establishment or fixed base in the United States). A Non-U.S. Holder that is subject to U.S. federal income tax on interest under the rules described in the preceding sentence will not be subject to U.S. federal withholding tax on any such interest if the holder satisfies certain certification requirements under penalty of perjury (generally through the provision of a properly executed IRS Form W-8ECI or other applicable form).

Gain realized by a Non-U.S. Holder on the sale, exchange, retirement, or other disposition of the notes (other than gain that represents accrued but unpaid interest, which will be subject to the rules regarding interest) generally will not be subject to U.S. federal withholding tax. Such gain also generally will not be subject to U.S. federal income tax, unless the gain is effectively connected with the conduct by the Non-U.S. Holder of a trade or business in the United States (and, if an applicable treaty so requires, is attributable to the conduct of a trade or business through a permanent establishment or fixed base in the United States) or, in the case of gain realized by an individual Non-U.S. Holder, the Non-U.S. Holder is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

A Non-U.S. Holder that does not qualify for an exemption from U.S. federal withholding tax under the rules described above will generally be subject to withholding at a rate of 30% (or lower treaty rate, if applicable) on interest received on the notes.

Interest or gain that is effectively connected with the conduct by a Non-U.S. Holder of a trade or business in the United States (and, if an applicable treaty so requires, is attributable to the conduct of a trade or business through a permanent establishment or fixed base in the United States) will be subject to tax in the same manner as if such holder were a U.S. Holder. In addition, if the Non-U.S. Holder is a foreign corporation, such holder may also be subject to a branch profits tax at a rate of 30% (or lower treaty rate, if applicable) on its effectively connected earnings and profits for the taxable year, subject to certain adjustments.

Information Reporting and Backup Withholding

Generally, the amount of interest paid to a Non-U.S. Holder and the amount of tax, if any, withheld with respect to those payments must be reported to the IRS and to the Non-U.S. Holder. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which the Non-U.S. Holder resides under the provisions of an applicable income tax treaty.

A Non-U.S. Holder generally will not be subject to backup withholding with respect to payments of interest on the notes that are made to the Non-U.S. Holder provided that the payer does not have actual knowledge or reason to know that the Non-U.S. Holder is a United States person as defined under the Code, and the Non-U.S. Holder has provided certification that such holder is a Non-U.S. Holder.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition (including a retirement or redemption) of notes within the United States or conducted through certain United States-related financial intermediaries, unless the Non-U.S. Holder certifies to the payer under penalties of perjury that it is a Non-U.S. Holder (and the payer does not have actual knowledge or reason to know that the Non-U.S. Holder is a United States person as defined under the Code), or the Non-U.S. Holder otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld from payments to a Non-U.S. Holder under the backup withholding rules may be refunded or credited against a Non-U.S. Holder's federal income tax liability, if any, if the holder timely provides the required information to the IRS.

The underwriters are committed to take and pay for all of the notes being offered, if any are taken.

The underwriters propose to offer the notes of each series directly to the public at the applicable public offering prices set forth on the cover page of this prospectus supplement and may offer the notes to certain dealers at that public offering prices less concessions not in excess of:

- 0.150% of the principal amount in the case of the floating rate notes;
- 0.150% of the principal amount in the case of the 2017 notes;
- 0.200% of the principal amount in the case of the 2019 notes;
- 0.250% of the principal amount in the case of the 2024 notes; and
- 0.450% of the principal amount in the case of the 2044 notes.

The underwriters may allow, and such dealers may reallow, concessions to certain other dealers not in excess of:

- 0.025% of the principal amount in the case of the floating rate notes;
- 0.025% of the principal amount in the case of the 2017 notes;
- 0.150% of the principal amount in the case of the 2019 notes;

[Table of Contents](#)

- 0.200% of the principal amount in the case of the 2024 notes; and
- 0.250% of the principal amount in the case of the 2044 notes.

After the initial offering of the notes to the public, the representatives of the underwriters may change the public offering prices and concessions.

The following table shows the underwriting discounts that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

Per floating rate note	0.250%
Per 2017 note	0.250%
Per 2019 note	0.350%
Per 2024 note	0.450%
Per 2044 note	0.750%

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer’s certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

In connection with the offering, the underwriters may purchase and sell notes in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions and stabilizing purchases.

- Short sales involve secondary market sales by the underwriters of a greater number of notes than they are required to purchase in the offering.
- Covering transactions involve purchases of notes in the open market after the distribution has been completed in order to cover short positions.
- Stabilizing transactions involve bids to purchase notes so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that would otherwise exist in the open market in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

Table of Contents

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their affiliates have provided, and in the future may provide, certain investment and commercial banking and financial advisory services from time to time for us and our affiliates in the ordinary course of business for which they have received, and in the future would receive, customary fees and commissions. In addition, certain of the underwriters and their affiliates may act as agents or lenders under our credit facilities and hold positions in our outstanding securities.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of ours or our affiliates (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with us. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

There are no public trading markets for the notes, and we do not intend to apply for listing of the notes on any national securities exchange or for quotation of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes of each series after the consummation of the offering, although they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. Prior to the offering, there have been no active trading markets for the notes. No assurance can be given as to the existence or the liquidity of any trading markets for the notes or that active public trading markets for the notes will develop. If active trading markets for the notes do not develop, the market prices and liquidity of the notes may be adversely affected. If the notes of any series are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our performance and certain other factors.

We estimate that our expenses in connection with this offering, excluding underwriting discounts and commissions, will be approximately \$3.5 million.

EXPERTS

The consolidated financial statements of Pfizer Inc. as of December 31, 2013 and 2012, and for each of the years in the three-year period ended December 31, 2013, and management’s assessment of the effectiveness of internal control over financial reporting as of December 31, 2013 have been incorporated by reference herein and in the registration statement in reliance upon the reports of KPMG LLP, independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

With respect to the unaudited interim financial information for the periods ended March 30, 2014 and March 31, 2013, incorporated by reference herein, the independent registered public accounting firm has reported that they applied limited procedures in accordance with professional standards for a review of such information. However, their separate report included in the Company’s quarterly report on Form 10-Q for the quarter ended March 30, 2014, and incorporated by reference herein, states that they did not audit and they do not express an opinion on that interim financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. The accountants are not subject to the liability provisions of Section 11 of the Securities Act for their report on the unaudited interim financial information because that report is not a “report” or a “part” of the registration statement prepared or certified by the accountants within the meaning of Sections 7 and 11 of the Securities Act.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement we filed with the Securities and Exchange Commission (the SEC), using a “shelf” registration process. We and/or the selling securityholders may sell any combination of the securities described in this prospectus from time to time in one or more offerings. You should carefully read this prospectus and any prospectus supplement together with the additional information described under the heading “Where You Can Find More Information.” We have not authorized anyone to provide you with different or additional information.

Each time we sell securities pursuant to this prospectus, we will provide a prospectus supplement that contains specific information about the terms of that offering, including the specific amounts, prices and terms of the securities offered. If this prospectus is inconsistent with the prospectus supplement, you should rely upon the prospectus supplement. In addition, the prospectus supplement may also add, update or change the information contained in this prospectus.

If you are in a jurisdiction where offers to sell, or solicitations of offers to purchase, the securities offered by this document are unlawful, or if you are a person to whom it is unlawful to direct these types of activities, then the offer presented in this document does not extend to you.

You should assume that the information in this prospectus or any prospectus supplement, as well as the information incorporated by reference in this prospectus or any prospectus supplement, is accurate only as of the date of the documents containing the information, unless the information specifically indicates that another date applies. Our business, financial condition, results of operations and prospects may have changed since those dates.

Wherever references are made in this prospectus to information that will be included in a prospectus supplement, to the extent permitted by applicable law, rules or regulations, we may instead include such information or add, update or change the information contained in this prospectus by means of a post-effective amendment to the registration statement of which this prospectus is a part, through filings we make with the SEC that are incorporated by reference in this prospectus or by any other method as may then be permitted under applicable law, rules or regulations.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and any prospectus supplement, as well as the information incorporated by reference in this prospectus or any prospectus supplement, may include forward-looking statements made within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Such forward-looking statements set forth anticipated results based on management’s plans and assumptions. From time to time, we also provide forward-looking statements in other materials we release to the public, as well as oral forward-looking statements. Such forward-looking statements involve substantial risks and uncertainties. We have tried, wherever possible, to identify such statements by using words such as “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “will,” “target,” “forecast,” “goal,” “objective,” “aim,” and other words or terms of similar meaning, or by using future dates in connection with any discussion of future operating and financial performance, business plans or prospects, in-line products and product candidates, strategic review, capital allocation, and share-repurchase and dividend-rate plans. In particular, these include statements relating to future actions, business plans and prospects, prospective products or product approvals, future performance or results of current and anticipated products, sales efforts, expenses, interest rates, foreign exchange rates, the outcome of contingencies, such as legal proceedings, share-repurchase and dividend-rate plans, financial results and government regulation.

A list and description of risks, uncertainties and other matters can be found in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and in our Quarterly Report on Form 10-Q for the fiscal quarter ended April 1, 2012, in each case including in the sections thereof captioned “Forward-Looking Information and Factors That May Affect Future Results” and “Item 1A. Risk Factors”.

[Table of Contents](#)

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of anticipated results is subject to substantial risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from past results and those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements and you are cautioned not to put undue reliance on forward-looking statements.

We undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Form 10-K, 10-Q and 8-K reports and our other filings with the SEC.

Our principal executive offices are located at 235 East 42nd Street, New York, NY 10017-5755 and our telephone number is (212) 733-2323.

RISK FACTORS

You should consider the specific risks described in our Annual Report on Form 10-K for the year ended December 31, 2011, our Quarterly Report on Form 10-Q for the quarterly period ended April 1, 2012, the risk factors described under the caption “Risk Factors” in any applicable prospectus supplement and any risk factors set forth in our other filings with the SEC, pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, including our quarterly reports on Form 10-Q and our current reports on Form 8-K, before making an investment decision. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. See “Where You Can Find More Information.”

RATIO OF EARNINGS TO FIXED CHARGES

Our consolidated ratio of earnings to fixed charges for each of the fiscal years ended December 31, 2007 through 2011 and the three month period ended April 1, 2012 is set forth below. For the purpose of computing these ratios, “earnings” consists of income from continuing operations before provision for taxes on income, noncontrolling interests and cumulative effect of a change in accounting principle less noncontrolling interests plus fixed charges, excluding capitalized interest. “Fixed charges” consists of interest expense (which includes amortization of debt premium, discount and expenses), preferred stock dividends, one-third of rental expense, which we believe to be a conservative estimate of an interest factor in our leases, which are not material, and capitalized interest. It is not practicable to calculate the interest factor in a material portion of our leases. The ratio was calculated by dividing the sum of the earnings (as defined above) by the sum of the fixed charges (as defined above).

	Three Months Ended April 1, 2012	2011	Year Ended December 31,				
			2010	2009	2008	2007	
Ratio of earnings to fixed charges	6.9	7.8	5.7	8.6	14.6	16.5	

All financial information reflects Capsugel (the sale of which closed on August 1, 2011) as a discontinued operation.

USE OF PROCEEDS

Unless the applicable prospectus supplement indicates otherwise, we intend to use net proceeds from the sale of the securities for general corporate purposes, including working capital, capital expenditures, acquisitions and the refinancing of existing debt. We may temporarily invest funds that are not immediately needed for these purposes in short-term marketable securities.

DESCRIPTION OF DEBT SECURITIES

The debt securities covered by this prospectus will be our direct unsecured obligations. The debt securities will be issued in one or more series under an indenture dated as of January 30, 2001, as amended, between us and The Bank of New York Mellon, as successor to JPMorgan Chase Bank, N.A. (formerly The Chase Manhattan Bank), as trustee, unless otherwise specified in the prospectus supplement.

This prospectus briefly summarizes some of the indenture provisions. The indenture has been filed as an exhibit to the registration statement of which this prospectus forms a part, and you should read the indenture carefully for provisions that may be important to you.

We may issue the debt securities as original issue discount securities, which will be offered and sold at a discount below their stated principal amount. A prospectus supplement relating to original issue discount securities will describe federal income tax consequences and other special considerations applicable to them. The debt securities may also be issued as indexed securities or securities denominated in foreign currencies or currency units, as described in more detail in a prospectus supplement relating to any of these types of debt securities. A prospectus supplement relating to indexed debt securities or foreign currency debt securities will also describe any additional tax consequences or other special considerations applicable to these types of debt securities.

In addition, the material specific terms particular to debt securities of each series will be described in the prospectus supplement relating to the debt securities of that series.

General

The debt securities will rank equally with all of our other unsecured and unsubordinated debt. The indenture does not limit the amount of debt we may issue under the indenture or otherwise. We may issue the debt securities in one or more series with the same or various maturities, at par or a premium or with original issue discount. We may reopen a previous issue of debt securities and issue additional debt securities of the series.

The prospectus supplement relating to any debt securities being offered will include specific terms relating to the offering. These terms will include some or all of the following:

- the title and type of the debt securities;
- any limit upon the aggregate principal amount of the debt securities of the series to be issued;
- the person to whom any interest on the debt securities will be payable, if other than the person in whose name that debt security is registered on the regular record date for such interest;
- the date or dates on which the principal of the debt securities of the series is payable; and the right, if any, to shorten or extend the date on which the principal of any debt securities of the series is payable and the conditions to any such change;
- the rate or rates (which may be fixed or variable) at which the debt securities will bear interest, or the method by which such rate or rates will be determined; the date or dates from which such interest will accrue, the interest payment dates on which any such interest will be payable; and the regular record date, if any, for the interest payable on such debt securities;
- the right, if any, to extend the interest payment periods;
- the place or places where the principal of and any premium and interest on the debt securities will be payable; and whether, if acceptable to the trustee, any principal of such debt securities will be payable without presentation or surrender thereof;
- any optional or mandatory redemption provisions;

Table of Contents

- any sinking fund or other provision that would obligate us to repurchase all or part of the debt securities;
- if other than denominations of \$100,000 and any integral multiple thereof, the denominations in which the debt securities will be issuable;
- if other than the currency of the United States of America, the currency, currencies or currency units in which the principal of and any premium or interest on the debt securities will be payable and the manner of determining the equivalent in U.S. dollars;
- if the amount of principal of or any premium or interest on the debt securities may be determined with reference to an index or formula, the manner in which such amounts will be determined;
- if the principal of or any premium or interest on the debt securities is to be payable, at the election of the company or a holder thereof, in one or more currencies or currency units other than that or those in which the debt securities are stated to be payable, the currency, currencies or currency units in which the principal of or any premium or interest on such debt securities as to which such election is made will be payable, the periods within which and the terms and conditions upon which such election is to be made and the amount so payable (or the manner in which such amount will be determined);
- if other than the entire principal amount thereof, the portion of the principal amount of the debt securities which will be payable if maturity of the debt securities is accelerated;
- the application, if any, of the terms of the indenture relating to defeasance and covenant defeasance to the debt securities;
- if the principal amount payable at the stated maturity of the debt securities will not be determinable as of any one or more dates prior to the stated maturity, the amount which will be deemed to be the principal amount of such debt securities as of any such date for any purpose under such debt securities or the indenture, including the principal amount thereof which will be due and payable upon any maturity other than the stated maturity or which will be deemed to be outstanding as of any date prior to the stated maturity (or, in any such case, the manner in which such amount deemed to be the principal amount will be determined);
- whether any of the debt securities will be issued in global form and, if so, the terms and conditions upon which the global debt securities may be exchanged for certificated debt securities and the depositary for such global debt securities;
- any addition to, or modification or deletion of, any event of default or any covenant specified in the indenture;
- any modification of the manner in which principal, premium, if any, or interest payable on any global debt securities will be paid, if other than in the manner specified in the indenture; and
- any other terms of the debt securities.

The prospectus supplement relating to the debt securities of the series will be attached to the front of this prospectus.

We may issue debt securities other than the debt securities described in this prospectus. There is no requirement that any other debt securities that we issue be issued under the indenture. Thus, any other debt securities that we issue may be issued under other indentures or documentation, containing provisions different from those included in the indenture or applicable to one or more issues of the debt securities described in this prospectus.

Consolidation, Merger or Sale

We have agreed not to consolidate with or merge into any other person or convey or transfer our properties and assets as an entirety or substantially as an entirety to any other person, unless:

(a) the successor expressly assumes, by a supplemental indenture, the due and punctual payment of the principal of and any premium and/or any interest on all the debt securities and the performance and observance of all of the covenants and conditions of the indenture that we would otherwise have to perform as if it were an original party to the indenture; and

(b) we deliver to the trustee an officers' certificate and an opinion of counsel, each stating that the consolidation, merger, conveyance or transfer and the supplemental indenture comply with the indenture.

The successor will assume all our obligations under the indenture as if it were an original party to the indenture. After assuming such obligations, the successor will have all our rights and powers under the indenture.

Modification of Indenture

Under the indenture, the rights of the holders may be modified through a supplemental indenture if the holders of a majority in aggregate principal amount of the outstanding debt securities of all series affected by the modification consent to it. No modification of the maturity date or principal or interest payment terms, no modification of the currency for payment, no impairment of the right to sue for the enforcement of payment at the maturity of the debt security, no modification of any conversion rights, no modification reducing the percentage required for any such supplemental indenture or the percentage required for the waiver of certain defaults, and no modification of the foregoing requirements, waiver of past defaults or waiver of certain covenants, is effective against any holder without its consent.

Events of Default

Each of the following will constitute an Event of Default under the indenture with respect to debt securities of any series:

- we fail to make the principal or any premium payment on any debt security of such series when due;
- we fail to make any sinking fund payment for 60 days after payment was due by the terms of any debt security of such series;
- we fail to pay interest on any debt security of such series for 60 days after payment was due;
- we fail to perform any other covenant in the indenture and this failure continues for 90 days after we receive written notice of it; or
- we, or a court, take certain actions relating to the bankruptcy, insolvency or reorganization of our company.

The supplemental indenture or the form of security for a particular series of debt securities may include additional Events of Default or changes to the Events of Default described above. The Events of Default applicable to a particular series of debt securities will be discussed in the prospectus supplement relating to such series. A default under our other indebtedness will not be a default under the indenture for the debt securities covered by this prospectus, and a default under one series of debt securities will not necessarily be a default under another series. The trustee may withhold notice to the holders of debt securities of any default (except for defaults that involve our failure to pay principal or interest) if it considers such withholding of notice to be in the best interests of the holders.

If an Event of Default with respect to outstanding debt securities of any series occurs and is continuing, then the trustee or the holders of at least 33% in principal amount of outstanding debt securities of that series may

Table of Contents

declare, in a written notice, the principal amount (or, if any of the securities of that series are original issue discount securities, such portion of the principal amount of such securities as specified in the terms thereof) plus accrued and unpaid interest on all debt securities of that series to be immediately due and payable. At any time after a declaration of acceleration with respect to debt securities of any series has been made, the holders of a majority in principal amount of the outstanding debt securities may rescind and annul the acceleration if:

- the holders act before the trustee has obtained a judgment or decree for payment of the money due;
- we have paid or deposited with the trustee a sum sufficient to pay overdue interest and overdue principal other than the accelerated interest and principal; and
- we have cured or the holders have waived all Events of Default, other than the non-payment of accelerated principal and interest with respect to debt securities of that series, as provided in the indenture.

We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of the discount securities upon the occurrence of an Event of Default.

If a default in the performance or breach of the indenture shall have occurred and be continuing, the holders of not less than a majority in principal amount of the outstanding securities of all series affected thereby, by notice to the trustee, may waive any past Event of Default or its consequences under the indenture. However, an Event of Default cannot be waived with respect to any series of securities in the following two circumstances:

- a failure to pay the principal of, and premium, if any, or interest on any security or in the payment of any sinking fund installment; or
- a covenant or provision that cannot be modified or amended without the consent of each holder of outstanding securities of that series.

Other than its duties in case of a default, the trustee is not obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the trustee reasonable indemnity. Holders of a majority in principal amount outstanding of any series of debt securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding or any remedy available to the trustee, or exercising any power conferred upon the trustee, for such applicable series of debt securities.

We are required to deliver an annual officers' certificate to the trustee, stating whether we are in default in the performance and observance of any of the terms, provisions and conditions of the indenture, and, if we are in default, specifying all such defaults and the nature and status thereof.

Payment and Transfer and Exchange

We will pay principal, interest and any premium on fully registered securities at the place or places designated by us for such purposes. We will make payment to the persons in whose names the debt securities are registered on the close of business on the day or days specified by us. Any other payments will be made as set forth in the applicable prospectus supplement.

Holders may transfer or exchange fully registered securities at the corporate trust office of the trustee or at any other office or agency maintained by us for such purposes, without the payment of any service charge except for any tax or governmental charge we are required to pay in connection with a transfer or exchange.

Upon surrender for registration of transfer of any security of any series in accordance with the terms of the indenture, we shall execute, and the trustee shall authenticate and deliver or make available for delivery, in the name of the designated transferee or transferees, one or more new securities of the same series, of any authorized denominations and of like tenor and aggregate principal amount.

Table of Contents

If the securities of any series are to be redeemed, we are not required to:

- register, transfer or exchange securities of any series during a period beginning at the opening of business 15 days before the day we transmit a notice of redemption of securities of the series selected for redemption and ending at the close of business on the day of the transmission; or
- register, transfer or exchange any security so selected for redemption in whole or in part, except the unredeemed portion of any security being redeemed in part.

Global Securities

We may issue the securities in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement. We may issue the global securities in either registered or bearer form in either temporary or permanent form.

The applicable prospectus supplement will describe the specific terms of the depositary arrangement with respect to the applicable securities of that series. We anticipate that the following provisions will apply to all depositary arrangements.

Once a global security is issued, the depositary will credit on its book-entry system the respective principal amounts of the individual securities represented by that global security to the accounts of institutions that have accounts with the depositary. These institutions are known as participants. The underwriters for the securities will designate the accounts to be credited. However, if we have offered or sold the securities either directly or through agents, we or the agents will designate the appropriate accounts to be credited.

Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary’s participants or persons that hold through participants. The laws of some states require that certain purchasers of securities take physical delivery of securities. Such limits and such laws may limit the market for beneficial interests in a global security.

So long as the depositary for a global security, or its nominee, is the registered owner of a global security, the depositary or nominee will be considered the sole owner or holder of the securities represented by the global security for all purposes under the indenture. Except as provided in the applicable prospectus supplement, owners of beneficial interests in a global security:

- will not be entitled to have securities represented by global securities registered in their names;
- will not receive or be entitled to receive physical delivery of securities in definitive form; and
- will not be considered owners or holders of these securities under the indenture.

Payments of principal, any premium and interest on the individual securities registered in the name of the depositary or its nominee will be made to the depositary or its nominee as the holder of that global security. Neither we, nor the trustee, will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of a global security, or for maintaining, supervising or reviewing any records relating to beneficial ownership interests and each of us and the trustee may act or refrain from acting without liability on any information provided by the depositary.

We expect that the depositary, after receiving any payment of principal, any premium or interest in respect of a global security, will immediately credit the accounts of the participants with payment in amounts proportionate to their respective holdings in principal amount of beneficial interests in a global security as shown on the records of the depositary. We also expect that payments by participants to owners of beneficial interests in a global security will be governed by standing customer instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such participants.

[Table of Contents](#)

Debt securities represented by a global security will be exchangeable for debt securities in definitive form of like tenor in authorized denominations if the depositary notifies us that it is unwilling or unable to continue as the depositary and a successor depositary is not appointed by us within 90 days or we, in our discretion, determine not to require all of the debt securities of a series to be represented by a global security and notify the trustee of our decision.

Defeasance

When we use the term defeasance, we mean discharge from some or all of our obligations under the indenture. Subject to certain additional conditions, if we irrevocably deposit with the trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the debt securities of a particular series, then at our option:

- we will be discharged from our obligations with respect to the debt securities of such series; or
- we will no longer be under any obligation to comply with certain restrictive covenants under the indenture, and certain Events of Default will no longer apply to us.

To exercise our defeasance option, we must deliver to the trustee an officers’ certificate and an opinion of counsel, each stating that all conditions precedent related to the defeasance have been complied with.

Concerning the Trustee

The trustee, The Bank of New York Mellon, has provided banking and investment services to us in the past and may do so in the future as a part of its regular business.

DESCRIPTION OF CAPITAL STOCK

General

The following description of certain terms of our capital stock does not purport to be complete and is qualified in its entirety by reference to our restated certificate of incorporation, as amended (the Certificate of Incorporation), our by-laws, as amended (the By-Laws), and the applicable provisions of the Delaware General Corporation Law (the DGCL). For more information on how you can obtain the Certificate of Incorporation and the By-Laws, see “Where You Can Find More Information.”

Common Stock

Under the Certificate of Incorporation, we are authorized to issue up to 12 billion shares of common stock, par value \$0.05 per share. The common stock is not redeemable, does not have any conversion rights and is not subject to call. Holders of shares of common stock have no preemptive rights to maintain their percentage of ownership in future offerings or sales of our stock. Holders of shares of common stock have one vote per share in all elections of Directors and on all other matters submitted to vote of our stockholders. The holders of common stock are entitled to receive dividends, if any, as and when may be declared from time to time by our Board of Directors out of funds legally available therefor. Upon liquidation, dissolution or winding up of our affairs, the holders of common stock will be entitled to participate equally and ratably, in proportion to the number of shares held, in our net assets available for distribution to holders of common stock. The shares of common stock currently outstanding are fully paid and nonassessable. As of May 7, 2012, there were 7,488,136,070 shares of common stock issued and outstanding.

The prospectus supplement relating to any common stock being offered will include specific terms relating to the offering.

Preferred Stock

Under the Certificate of Incorporation, we are authorized to issue up to 27 million shares of preferred stock, without par value, of which 7,500 shares of preferred stock have been designated Series A convertible perpetual preferred stock. The preferred stock may be issued in one or more series, and the Board of Directors of Pfizer is expressly authorized (i) to fix the descriptions, powers, preferences, rights, qualifications, limitations, and restrictions with respect to any series of preferred stock and (ii) to specify the number of shares of any series of preferred stock. As of May 7, 2012, there were 1,060 shares of preferred stock issued and outstanding.

The prospectus supplement relating to any preferred stock being offered will include specific terms relating to the offering.

Series A Convertible Perpetual Preferred Stock. Our Series A convertible perpetual preferred stock is held by an Employee Stock Ownership Plan (Preferred ESOP) Trust and provides dividends at the rate of 6.25% of the stated value, which are accumulated and paid quarterly. The per-share stated value is \$40,300, and the Series A convertible perpetual preferred stock ranks senior to our common stock and junior to all other preferred stock unless designated as ranking senior or on a parity with the new preferred stock as to dividends and liquidation rights. Each share is convertible, at the holder’s option, into 2,574.87 shares of our common stock with equal voting rights. The conversion option is indexed to our common stock and requires share settlement, and, therefore, is reported at the fair value at the date of issuance. We may redeem the Series A convertible perpetual preferred stock at any time or upon termination of the Preferred ESOP, at our option, in cash, in shares of common stock, or a combination of both at a price of \$40,300 per share.

Anti-takeover Effects of the Certificate of Incorporation, By-laws and Delaware Law

Certificate of Incorporation and By-laws. Various provisions contained in the Certificate of Incorporation and the By-laws could delay or discourage some transactions involving an actual or potential change in control of us or a change in our management and may limit the ability of our stockholders to remove current management or approve transactions that our stockholders may deem to be in their best interests. Among other things, these provisions:

- limit the right of stockholders to call special meetings of stockholders to holders of at least 20% of the total number of shares of stock entitled to vote on the matter to be brought before the proposed special meeting;
- authorize our Board of Directors to establish one or more series of preferred stock without stockholder approval;
- authorize the Board to issue dividends in the form of stock purchase or similar rights, including rights that would have the effect of making an attempt to acquire us more costly;
- grant to the Board of Directors, and not to the stockholders, the sole power to set the number of Directors;
- require that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by any consent in writing; and
- subject to the rights of the holders of any one or more series of preferred stock then outstanding, allow our Directors, and not our stockholders, to fill vacancies on our Board of Directors, including vacancies resulting from the removal of one or more Directors or an increase in the number of Directors constituting the whole Board of Directors.

Delaware Law. We are a Delaware corporation and consequently are also subject to certain anti-takeover provisions of the DGCL. Subject to certain exceptions, Section 203 of the DGCL prevents a publicly held Delaware corporation from engaging in a “business combination” with any “interested stockholder” for three years following the date that the person became an interested stockholder, unless the interested stockholder attained such status with the approval of the corporation’s board of directors or unless the business combination is approved in a prescribed manner. A “business combination” includes, among other things, a merger or consolidation involving the corporation and the “interested stockholder” and the sale of more than 10% of the corporation’s assets. In general, an “interested stockholder” is any entity or person beneficially owning 15% or more of the corporation’s outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person. Section 203 makes it more difficult for an interested stockholder to effect various business combinations with a corporation for a three-year period. This statute could prohibit or delay mergers or other takeover or change in control attempts not approved in advance by our Board of Directors, and, as a result, could discourage attempts to acquire us, which could depress the market price of our common stock.

DESCRIPTION OF OTHER SECURITIES

We will set forth, in the applicable prospectus supplement, a description of any warrants, depositary shares, purchase contracts, purchase units or guarantees that may be offered pursuant to this prospectus.

SELLING SECURITYHOLDERS

The initial purchasers of our securities, as well as their transferees, pledgees, donees or successors, all of whom we refer to as “selling securityholders,” may from time to time offer and sell the securities pursuant to this prospectus and any applicable prospectus supplement.

The applicable prospectus supplement will set forth the name of each selling securityholder and the number of and type of securities beneficially owned by such selling securityholder that are covered by such prospectus supplement. The applicable prospectus supplement also will disclose whether any of the selling securityholders have held any position or office with, have been employed by or otherwise have had a material relationship with us during the three years prior to the date of the prospectus supplement.

- directly to one or more purchasers; or
- through a combination of any of these methods.

In addition, we, or any selling securityholder, may enter into derivative or hedging transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. In connection with such a transaction, the third parties may sell securities covered by and pursuant to this prospectus and an applicable prospectus supplement. If so, the third party may use securities borrowed from us or others to settle such sales and may use securities received from us to close out any related short positions. We may also loan or pledge securities covered by this prospectus and an applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement.

We and any selling securityholder may sell the securities offered by this prospectus at:

- a fixed price or prices, which may be changed;
- market prices prevailing at the time of sale;

We will identify the specific plan of distribution, including any underwriters, dealers, agents or direct purchasers, and their compensation in a prospectus supplement.

Matthew Lepore, our Vice President and Corporate Secretary, Chief Counsel – Corporate Governance, will pass upon the validity of the securities for us. Mr. Lepore beneficially owns, or has the right to acquire under our employee benefit plans, an aggregate of less than 1% of the outstanding shares of our common stock.
